Consolidated Federal Income Tax Return

For the Twelve Months Ended December 31, 2008

Line No.	Description
	(A)
1	The utility is included in Ameren's consolidated tax group, which has a tax sharing agreement that governs the allocation of the group's consolidated federal income tax liability. The agreement, which has been approved by the Commission, provides that each member of the group, including the utility, calculates its "separate return" tax liability or benefit, which is the income tax liability or benefit that the member would have if it were not a member of a consolidated group. A member that has a separate return tax liability pays cash to the parent; whereas, a member that has a separate return refund receives cash from the parent. The parent pays the net amount to the Internal Revenue Service.
2	Provided that the Ameren consolidated group has taxable income, if an Ameren utility has a tax loss, the utility will receive cash for the tax benefit of that loss under the tax sharing agreement during the utility's loss year. If the utility were not a member of the consolidated group, it would receive cash for the tax benefit of its losses only when those losses are offset by taxable income of the entity in accordance with rules permitting losses to be carried back or forward to other years.
3	The impact of the utility's books of the benefits from filing as part of the consolidated federal return, as noted above, is reflected on the cash flow statement in years where the utility has a federal tax loss.
