Consolidated Federal Income Tax Return

Line No.	Description (A)
1	**Section 285.3040 Schedule C-5.1: Consolidated Federal Income Tax Return**
2	If the utility is part of an affiliated group of companies and its federal income tax return is file
3	part of a consolidated federal income tax return, provide statements describing:
4	a) The procedure used to allocate the consolidated federal income tax liability;
5	**The utility is included in Ameren's consolidated tax group, which has a tax sharing agreement that governs the allocation of the group's consolidated federal income tax liability. The agreement, which has been approved by the Commission, provides that each member of the group, including the utility, calculates its "separate return" tax liability or benefit, which is the income tax liability or benefit that the member would have if it were not a member of a consolidated group. A member that has a separate return tax liability pays cash to the parent; whereas, a member that has a separate return tax refund receives cash from the parent. The parent pays the net amount to the Internal Revenue Service.**
6	b) The benefits, if any, of the consolidated filing of the federal income tax return to the utility; and
7	**utility has a tax loss, the utility will receive cash for the tax benefit of that loss under the tax sharing agreement during the utility's loss year. If the utility were not a member of the consolidated group, it would receive cash for the tax benefit of its losses only when those losses are offset by taxable income of the entity in accordance with rules permitting losses to be carried back or forward to other**
8	c) The impact of the benefits, if any, of filing the consolidated federal income tax return on the utility's books.
9	**The impact on the utility's books of the benefits from filing as part of the consolidated federal return, as noted above, is reflected on the cash flow statement in years where the utility has a federal tax loss.**

NOTES

[1] The Company does not solely use the Percent of Revenue Method for determining Uncollectible Expense. Uncollectible expenses associated with Service Revenues are determined using the percent of revenue method. Uncollectible expenses associated with non-service revenues are determined using a combination of prior year performance and historical trends.
