24. Technical and Managerial Competency

Current Services: Applicant is an energy consulting company of retail electric supply to end user commercial, industrial and residential customers. We work with businesses in the commercial, industrial and government entities to help them make informed decisions on their energy procurement throughout the deregulated territories in TX and PA.

Proposed Services: The Applicant proposes to offer retail electricity procurement services. Fees for electricity procurement services will be collected from the electric supplier ("EGS") through a price adder. Customers will pay the EGS directly; the EGS will then remit our fees to us for our aggregated customers. The Applicant will not be paying any utility (i.e., electricity) bills and/or charges for its customers in the State of Maryland. Customers will continue to receive their electric bills directly from the EGS with whom they have a contract, if billed separately, or directly from the EDC, if combined billing, and will continue to remit payment for their utility billings and/or changes to either their designated EGS or Electric Distribution Company. The Applicant will not be issuing any bills to customers for its licensed services, and we will not be issuing any bills on behalf of any EGS.
