ILLINOIS
COMMERCE COMMISSION
FEB 10 2014
Office of Chairman
And Commissioners

Dear Mr. Scott,

I am writing in opposition to the proposed Ameren 345 KV Transmission Line, Case II 20598 from Meredosia to Pawnee.

This Line would cause disruption to our working farmland, located East of Woodson. My husband, Gary, and I are owners along with his sister, Sharon Allen and brother Norman Brogdon Ouinson, John Brogdon, a fifth generation farmer on our Centennial Farm, will find this route to be a great disruption to his farming practices.

It is our understanding that this existing route is the route that the Commissioner's technical staff has been recommending all along. Also, that "All" landowners on the existing route have been notified & not one has objected.

It seems that $36.78 million dollars and 18.3 miles shorter would best satisfy everyone's interests.

I respectfully request that the commissioners would please take into account the above, as it will directly affect our lives and our farmland native.

Sincerely,

Carolyn Brogdon Gary M. Brogdon

John G. Brogdon
