*Additional information on companies selling electrical power in Illinois may be found at the Illinois Commerce Commission's World Wide Website (www.icc.state.il.us)

[1] These figures are reflective of the "PJM System Mix". The PJM System Mix is the collective generation produced within the PJM interconnection, which is the regional transmission organization that maintains safety, reliability, and security of the transmission system and operates an efficient and effective wholesale electric market in 13 states and the District of Columbia. All accounts served by Tara Energy are within the PJM System Footprint.

[2] 100% of the total electricity was supplied from the PJM Interconnection and the amounts of emissions are known, however the amount of nuclear waste attributable to producing this electricity is not known and is not included in this table.
