For Compliance Period: June 2018 through May 2019

Date of Notice: 3/13/2019

The **estimated** ACP rates shown below are current **estimates** based on current information. The **actual** ACP rates, which will be posted here no later than July 1, 2019, can only be calculated once “the total amount of dollars that the utility contracted to spend on all renewable resources” for the 2018/2019 compliance period is known.

If the utilities do NOT contract to spend additional amounts on renewable resources for the compliance period ending May 31, 2019, the following **estimated** rates would be the alternative compliance payment rates for the 2018/2019 compliance period, as these reflect the current contracted renewable resource spending by the utilities.
