

ILLINOIS COMMERCE COMMISSION

Public Notice of Successful Bidders and Average Prices

Ameren Illinois Company and Commonwealth Edison Company

Spring 2015 Procurement of Solar Renewable Energy Credits

April 22, 2015

On April 16, 2015, the Illinois Power Agency's procurement administrator, NERA Economic Consulting, received bids for the sale of solar renewable energy credits ("SRECs") to Ameren Illinois Company ("Ameren") and Commonwealth Edison Company ("ComEd"), respectively, in requests for proposals held pursuant to the procurement plan approved by the Illinois Commerce Commission ("Commission") in Docket No. 14-0588. The process was monitored for the Commission by Boston Pacific Company. On April 22, 2015, voting in open session, the Commission approved the procurement administrator's selection of winning bids.

This request for proposals sought SRECs to satisfy the solar photovoltaic requirements specified in the Illinois Power Agency Act ("IPA Act") for the June 2015 through May 2016 delivery year. The IPA Act requires SRECs to be purchased from resources located within Illinois and adjoining states, provided that those SRECs can be acquired within certain spending limits. Otherwise, SRECs may be acquired from resources located in other states. The IPA Act also requires all SRECs acquired to be priced below certain benchmarks.

In accordance with Section 16-111.5(h) of the Public Utilities Act, this public notice announces the names of the successful bidders and the average winning bid price for each contract type and for each contract term. 220 ILCS 5/16-111.5(h). As just noted, there are two contract types: the first specifies that SRECs are from resources located within Illinois and adjoining states; and the second specifies that SRECs are from resources located in other states. In accordance with the RFP rules and previous Commission orders, quantity information is also provided where the number of successful bidders is greater than two.
