

REDACTED  
DIRECT TESTIMONY  
OF  
SHEENA KIGHT

FINANCE DEPARTMENT  
FINANCIAL ANALYSIS DIVISION  
ILLINOIS COMMERCE COMMISSION

ILLINOIS POWER COMPANY  
AND  
AMEREN CORPORATION

DOCKET NO. 04-0294

JULY 9, 2004

1 **Q. Please state your name and business address.**

2 A. My name is Sheena Kight. My business address is 527 East Capitol  
3 Avenue, Springfield, Illinois 62701.

4 **Q. By whom are you employed and in what capacity?**

5 A. I am employed by the Illinois Commerce Commission (“Commission”) as a  
6 Financial Analyst in the Finance Department of the Financial Analysis  
7 Division.

8 **Q. Please describe your qualifications and background.**

9 A. In May of 1998, I received a Bachelor of Business degree in Finance and  
10 Marketing from Western Illinois University in Macomb, Illinois. I earned a  
11 Master of Business Administration degree, with a concentration in Finance,  
12 also at Western Illinois University in May 2001. I have been employed by  
13 the Commission in my present position since January of 2001.

14 **Q. Please state the purpose of your testimony in this proceeding.**

15 A. The purpose of my testimony is to present my evaluation of 1) the proposed  
16 reorganization of Illinois Power Company (“IP”) under the ownership of  
17 Ameren Corporation (“Ameren”) (together, the “Applicants”) pursuant to  
18 Section 7-204(b)(4) of the Illinois Public Utilities Act, 220 ILCS 5/1-101 *et*  
19 *seq.* (“Act”); 2) Section 6-103 of the Act, 3) the Applicants’ request for

20 termination of the dividend restriction imposed on IP in Docket No. 02-0561  
21 pursuant to Section 7-103 of the Act; 4) the Applicants' request for  
22 authorization under Section 7-101 of the Act for Ameren to make short-term  
23 loans to IP; and 5) the Applicants' request to include IP in the Ameren  
24 Money Pool Agreement pursuant to Sections 7-101 and 7-102 of the Act.

25 **Q. Please summarize your conclusions.**

26 A. I conclude that: 1) under Section 7-204(b)(4) of the Act, the proposed  
27 reorganization will not significantly impair IP's ability to raise necessary  
28 capital on reasonable terms or maintain a reasonable capital structure; 2)  
29 Ameren's proposed re-capitalization of IP meets the requirements of  
30 Section 6-103 of the Act; 3) the dividend restriction imposed on IP in Docket  
31 No. 02-0561 should be modified but not terminated; 4) Ameren should not  
32 be allowed to make short-term loans to IP, except under the Ameren Money  
33 Pool Agreement; and 5) IP should be allowed to participate in the Ameren  
34 Money Pool Agreement as a borrower, but not as a lender.

35 **Q. Why is it necessary to evaluate the financial implications of the**  
36 **proposed reorganization?**

37 A. In order to approve a proposed reorganization, Section 7-204(b)(4) of the  
38 Act requires the Commission to find that "the proposed reorganization will  
39 not significantly impair the utility's ability to raise necessary capital on  
40 reasonable terms or to maintain a reasonable capital structure."

41 **Q. Please describe the corporate relationship between IP and Dynegy,**  
42 **Inc. (“Dynegy”).**

43 A. IP is a wholly owned subsidiary of Illinova Corporation (“Illinova”), which is a  
44 wholly owned subsidiary of Dynegy.<sup>1</sup>

45 **Q. How does IP raise capital under Dynegy ownership?**

46 A. Dynegy and IP are responsible for raising debt or equity capital on behalf of  
47 IP.<sup>2</sup> IP has been able to satisfy its capital needs through long-term debt  
48 financing and prepayments of interest on the \$2.3 billion Intercompany Note  
49 IP holds from Illinova (“Intercompany Note”). Although Illinova is directly  
50 responsible for paying IP interest on the Intercompany Note, Illinova relies  
51 on Dynegy for the funds needed to meet this obligation. If IP were to  
52 require additional debt capital from external sources, it would issue long-  
53 term debt directly.<sup>3</sup> Dynegy would be responsible for raising equity capital if  
54 IP were to require it.

55 **Q. What is your assessment of IP’s current financial condition?**

56 A. IP’s current financial condition is weak.

57 **Q. How did you reach that conclusion?**

---

<sup>1</sup> Standard & Poor’s, Ratings Direct, *Research: Illinois Power Co.*, June 11, 2004.

<sup>2</sup> Response to Staff data request FIN 10.02.

<sup>3</sup> *Ibid.*

58 A. I computed three measures of IP's financial strength for the 2001-2003  
59 period: funds from operations to total debt, funds from operations interest  
60 coverage, and total debt to total capital. Next, I compared the results of  
61 such measures to financial targets that Standard & Poor's ("S&P") publishes  
62 by credit rating for utilities with IP's business profile score of 6.<sup>4, 5</sup> As the  
63 table below shows, IP's ratios are consistent with an S&P rating of BB.<sup>6, 7</sup>  
64 An obligor rated BB has a weakened capacity to meet its financial  
65 commitments.<sup>8</sup>

Ratio	IP's 3-Year Average 2001-2003	BB Target Ratios	BBB Target Ratios
FFO to Total Debt	12.7%	12.0% - 18.0%	18.0% - 28.0%
FFO Interest Coverage	2.98x	2.0x - 3.0x	3.0x - 4.2x
Total Debt to Total Capital	59.1%	58.0% - 62.0%	48.0% - 58.0%

66 **Q. Please describe Dynegy's financial condition.**

67 A. Dynegy has an S&P credit rating of B<sup>9</sup> and a Moody's Investors Service  
68 ("Moody's) credit rating of Ca.<sup>10</sup> According to S&P, an obligor rated B is  
69 "more vulnerable" than an obligor with a 'BB' rating, but "currently has the

---

<sup>4</sup> Standard & Poor's, Ratings Direct, *Research: Illinois Power Co.*, March 4, 2004.

<sup>5</sup> Staff's use of the published S&P business profile score for IP for determining its financial strength in this proceeding should not be construed as a Staff endorsement of IP's published business profile score as a means for establishing a fair rate of return for IP in the context of a rate proceeding.

<sup>6</sup> IP's ratios were derived from IP's 10K for 2001, 2002, and 2003.

<sup>7</sup> Standard & Poor's, Ratings Direct, *Research: New Business Profile Scores Assigned for U.S. Utility and Power Companies; Financial Guidelines Revised*, June 2, 2004.

<sup>8</sup> Standard & Poor's, Ratings Direct, *Standard & Poor's Ratings Definitions*, December 10, 2002, p. 5.

<sup>9</sup> Standard & Poor's, Ratings Direct, *Research: Summary: Dynegy Inc.*, June 10, 2004.

70 capacity to meet its financial commitments.” However, “adverse business,  
71 financial, or economic conditions will likely impair the obligor’s capacity or  
72 willingness to meet its financial commitments.”<sup>11</sup> Moody’s Ca rating  
73 indicates that an obligor is highly speculative and is likely very near  
74 default.<sup>12</sup>

75 **Q. Does Dynegy’s financial condition affect IP’s ability to raise necessary**  
76 **capital on reasonable terms or to maintain a reasonable capital**  
77 **structure?**

78 A. Yes. IP receives interest payments of \$170 million a year on the  
79 Intercompany Note.<sup>13</sup> IP also relies on prepayments of interest on this Note  
80 to meet its working capital needs.<sup>14</sup> If Dynegy were unable to make these  
81 payments, then IP would have to borrow money to meet its operating  
82 needs. Since IP does not have an investment grade credit rating, new debt  
83 would be expensive at best, and its availability would be uncertain.

84 **Q. Would Ameren’s financial condition affect IP under the proposed**  
85 **reorganization?**

86 A. Yes, while IP would continue to issue its own long-term debt instruments to  
87 the market, as the owner of the capital stock of IP, Ameren would be the

<sup>14</sup> Standard and Poor’s, Ratings Direct, *Research: Illinois Power Co.*, March 1, 2004, p. 1.

88 conduit through which IP would access the equity market. Further, Ameren  
89 and its subsidiaries would become IP's source for short-term debt capital.

90 **Q. Will the proposed reorganization have a significant adverse effect on**  
91 **Ameren's financial strength?**

92 A. No. S&P currently assigns Ameren an A-/watch negative corporate credit  
93 rating;<sup>15</sup> Moody's currently assigns Ameren an A3 rating, which is under  
94 review for a possible downgrade.<sup>16</sup> Those ratings indicate that Ameren's  
95 current financial position is strong, but the possibility of a downgrade exists.  
96 However, S&P expects Ameren to maintain an investment grade corporate  
97 credit rating upon completion of the acquisition based on the post-  
98 acquisition ratios. The following table illustrates Ameren's forecasted post-  
99 acquisition ratios compared with the target ratios for A and BBB rated  
100 companies with the same business profile score as Ameren:<sup>17,18</sup>

---

<sup>15</sup> Standard & Poor's, Ratings Direct, *Research: Ameren Corp*, May 3, 2004, p. 1.

<sup>16</sup> [www.moodys.com](http://www.moodys.com), Ameren Corporation, February 10, 2003, p. 2.

<sup>17</sup> Ameren's business profile score is 5. This table was taken from a report issued before S&P released revised financial guidelines. Standard & Poor's, Ratings Direct, *Research: Ameren Corp*, May 3, 2004, p. 1.

<sup>18</sup> Standard & Poor's, Ratings Direct, *Research: Utility Financial Targets Are Revised*, June 18, 1999.

Ameren's Post-Acquisition Comparison			
Ratio	A Rating	BBB Rating	Ameren's Estimated Post-Acquisition Ratios <sup>19</sup>
FFO to Total Debt	27% – 33%	20.5% – 27%	21%
FFO to Interest Coverage	4.0x – 4.8x	3.0x – 4.0x	4.5x
EBIT Interest Coverage	3.5x – 4.3x	2.4x – 3.5x	3.3x – 3.5x
Total Debt to Total Capital	41.5% - 47%	47% - 55%	Slightly below 50%

101 Thus, as IP's parent, Ameren's financial strength would not be significantly  
 102 impaired.

103 **Q. Will the proposed reorganization significantly impair IP's ability to**  
 104 **raise necessary capital on reasonable terms?**

105 A. No. The proposed transaction is viewed as a positive influence on IP's  
 106 financial health by both S&P and Moody's.<sup>20,21</sup> Moody's upgraded IP's  
 107 credit rating on its first mortgage bonds from B3 to B1 following the  
 108 announced sale of IP to Ameren.<sup>22</sup> IP's ability to raise capital is currently  
 109 constrained. As discussed previously, IP's financial condition is weak and  
 110 Dynegy, its ultimate corporate parent, is also financially weak. The  
 111 proposed transaction should improve IP's financial position for two reasons.

<sup>19</sup> Standard & Poor's, Ratings Direct, *Research: Ameren Corp*, May 3, 2004, pp. 3, 8-9.

<sup>20</sup> Standard & Poor's, Ratings Direct, *Research: Illinois Power Co.*, March 1, 2004, p. 2.

<sup>21</sup> [www.moody's.com](http://www.moody's.com), Illinois Power Co., February 4, 2004.

<sup>22</sup> *Ibid*

112 First, a financially stronger company would own IP. Second, Ameren  
113 proposes to infuse capital to reduce IP's total amount of debt outstanding.  
114 These two actions should improve IP's access to capital on reasonable  
115 terms.

116 **Q. How will the acquisition of IP by Ameren affect IP's capital structure?**

117 A. IP's current capital structure contains almost 60% debt, and its total  
118 capitalization greatly exceeds the depreciated original cost of its utility  
119 plant.<sup>23</sup> Ameren plans to reduce IP's debt by \$750 million as part of its re-  
120 capitalization of IP.<sup>24</sup> IP's capital structure, after the completion of the re-  
121 capitalization, will consist of 40-50% debt and 50-60% equity.<sup>25</sup> Reducing  
122 the amount of debt in relationship to cash flows and total capital lowers  
123 financial risk and increases financial flexibility. Therefore, the proposed  
124 acquisition of IP by Ameren will not significantly impair IP's ability to  
125 maintain a reasonable capital structure.<sup>26</sup>

126 **Q. Why is it necessary to review the capitalization of a public utility in any**  
127 **reorganization?**

128 A. Section 6-103 of the Act requires Commission approval of the capitalization  
129 of a public utility in any reorganization. This Section of the Act directs that

---

<sup>23</sup> Illinois Power Company's 10K.

<sup>24</sup> Applicant's Exhibit 4.0, p. 5.

<sup>25</sup> Applicant's Exhibit 4.0, p. 6.

<sup>26</sup> Staff's conclusion that the proposed reorganization will not significantly impair IP's ability to maintain a reasonable capital structure should not be construed as a Staff endorsement, for the purpose of setting rates, of Ameren's stated capital structure objectives for IP.

130 the Commission shall not approve a capitalization in excess of the fair value  
131 of the property involved.

132 **Q. Will IP's capitalization after the completion of the acquisition proposed**  
133 **in this proceeding meet the requirements of Section 6-103 of the Act?**

134 A. Yes. Based on the information presented in Applicants' Exhibit 13.1, IP's  
135 capitalization will not exceed the fair value of its property after the  
136 completion of the re-capitalization of IP by Ameren.

137 **Q. Should the Applicants' request for approval to eliminate all payables**  
138 **and receivables associated with the Intercompany Note pursuant to**  
139 **Section 6-103 of the Act be granted?** <sup>27</sup>

140 A. Yes. The elimination of the payables and receivables associated with the  
141 Intercompany Note reduces IP's capitalization to equal the fair value of its  
142 property as is required under Section 6-103 of the Act.

143 **Q. Please describe the current restrictions on IP's ability to remit**  
144 **dividends.**

145 A. In Docket No. 02-0561, the Commission imposed the following restrictions:

146 Illinois Power Company shall not declare or pay any  
147 dividends on its common stock until Illinois Power's first  
148 mortgage bonds are rated at least BBB- by Standard &

---

<sup>27</sup> Petition, pp. 4-5 and 33.

149 Poor's and at least Baa3 by Moody's Investor Services, and  
150 Illinois Power first obtains specific approval from this  
151 Commission for the declaration and payment of dividend on  
152 its common stock.

153 **Q. Do you agree with the Applicants' request that the Commission**  
154 **terminate the dividend restriction imposed in Docket No. 02-0561 once**  
155 **IP achieves either a BBB- rating from S&P or a Baa3 rating by**  
156 **Moody's?**<sup>28</sup>

157 A. No. Since IP currently requires prepayment of interest from the  
158 Intercompany note, and will need to borrow under the proposed acquisition,  
159 in order to meet working capital needs, the Commission should continue to  
160 restrict the payment of dividends until IP can show that it has sufficient  
161 earnings and cash flows to pay dividends while maintaining adequate  
162 reserves as required in Section 7-103(2)(a) of the Act. Even though the  
163 proposed restructuring should improve IP's financial strength, the amount of  
164 time that it takes IP to improve its financial strength to the point it can pay  
165 dividends is unknown. Therefore, the restriction imposed in Docket No. 02-  
166 0561 should not be automatically terminated should IP receive either S&P's  
167 BBB- credit rating or Moody's Baa3 credit rating.

168 However, an alternative to the dividend restriction should be added. The  
169 Applicant's proposal that IP either achieve a BBB- rating from S&P or a

---

<sup>28</sup> Petition, pp. 36-37.

170 Baa3 rating by Moody's<sup>29</sup> should be accepted as an alternative to the  
171 dividend restriction imposed in Docket No. 02-0561 provided that IP also  
172 meets the following three conditions: 1) Ameren must maintain a credit  
173 rating of at least BBB- from S&P and at least Baa3 Moody's; 2) IP  
174 completes defeasance of XXXXXXXXXXXXXXXXXXXX bonds,<sup>30</sup> and 3) IP  
175 obtains specific approval from the Commission for the declaration and  
176 payment of dividends on its common stock. Thus, under my proposal, IP  
177 must meet the conditions imposed in either Docket No. 02-0561 or in the  
178 current proceeding before it can declare and pay dividends.

179 **Q. Please explain the basis for each of your three additional proposed**  
180 **conditions presented above.**

181 A. With regard to the first condition, Ameren asserts that its investment grade  
182 credit rating and its recapitalization of IP will render the dividend restriction  
183 that the Commission enacted in its Order in Docket No. 02-0561 as  
184 unnecessary.<sup>31</sup> I agree that having a financially strong parent company  
185 reduces the probability that IP would be directed to declare a dividend it  
186 cannot afford. Nevertheless, Ameren's current financial strength cannot be  
187 guaranteed. Further, Ameren would be responsible for raising common  
188 equity capital for, and providing short-term loans to, IP. Finally, Ameren's

---

<sup>29</sup> Petition, pp. 36-37.

<sup>30</sup> IP must refund the debt or put aside the money necessary to extinguish any non-refunded portion of XXXXXXXXXXXXXXXXXXXX bonds in an irrevocable trust or both. The amount set aside should include the principal, interest, and premium to retire the debt XXXXXXXXXXXX XXXXX.

<sup>31</sup> Applicant's Exhibit 2.0, p. 8.

189 credit rating would influence the credit rating IP attains. Therefore,  
190 maintenance of Ameren's financial strength is critically important for the  
191 resuscitation of IP's financial strength.

192 The second condition adopts Ameren's commitment to reduce the amount  
193 of IP debt outstanding as a requirement for IP's resumption of common  
194 dividend payments. Eliminating XXXXXXXXXXXXXXXXXXXXXXXXXXXXXXX  
195 bonds and XXXXXXXXXXXXXXX in annual interest payments is a critical  
196 component to returning IP to financial health because IP's total debt  
197 outstanding nearly equals the depreciated original cost of its utility plant in  
198 service.

199 The third condition would permit the Commission to assess whether the  
200 proposed reorganization of IP coupled with Ameren's proposed re-  
201 capitalization of IP and the cancellation of the Intercompany Note leave IP  
202 with sufficient earnings and cash flow to pay common dividends while  
203 maintaining adequate reserves as required in Section 7-103(2)(a) of the Act.  
204 Even though the proposed reorganization should improve IP's financial  
205 strength, the amount of time necessary for IP's financial strength to improve  
206 to the point that it can pay common dividends is uncertain. Therefore, the  
207 common dividend restriction should not be terminated without further  
208 Commission review.

209 **Q. Should the Applicants' request for authorization for Ameren to make**  
210 **short-term loans to IP until January 1, 2007 be approved?**

211 A. No. The applicants request for approval for Ameren to make short-term  
212 loans to IP must meet the Commission requirements for money pool  
213 agreements. Since the Applicants have not provided any written agreement  
214 that meets the requirements of Part 340 of the Administrative Code, their  
215 request for Ameren to make short-term loans to IP should be denied.

216 **Q. Should IP be allowed to participate in the Ameren Money Pool**  
217 **Agreement?**

218 A. Yes. IP does not have access to short-term financing.<sup>32</sup> IP currently funds  
219 its working capital needs with the prepayment of interest by Illinova on the  
220 Intercompany Note.<sup>33</sup> After the completion of the acquisition, IP will need an  
221 alternative source of short-term capital. Therefore, IP should be allowed to  
222 participate as a borrower only in the Ameren Money Pool Agreement  
223 (“Money Pool”). Ameren’s financial forecasts of IP, shown in Exhibit 13.1, in  
224 the first two years after the acquisition indicate that IP will not generate  
225 sufficient cash flows to lend to the Money Pool. As with the dividend  
226 restrictions, IP should not be authorized to lend to the Money Pool until such  
227 time as it can show it has sufficient cash flows to do so. In addition, the  
228 Applicants’ proposal that IP’s borrowing be capped at \$500 million from the  
229 Money Pool should be accepted. The \$500 million cap allows enough short-  
230 term capacity to meet current working capital needs and allows IP time to

---

<sup>32</sup> Standard and Poor’s, Ratings Direct, *Research: Illinois Power Co.*, March 1, 2004, p. 1.

231 restore its credit rating before trying to access the capital markets for long-  
232 term debt.

233 **Q. Does this conclude your direct testimony?**

234 **A.** Yes, it does.

---

<sup>33</sup> Petition, p. 40.
