Consumers Gas has a storage lease agreement with Egyptian Gas Storage as approved by the ICC Docket 03-0349. This field is located in Gallatin County, Illinois. The current contract is a five (5) year contract beginning June 1, 2003, expiring May 31, 2008.

The contract is for storage of 160,000 DTH of gas with 50,000 Dth being cushion gas. This would leave a working gas volume of 110,000 Dth. Storage gas is inventoried at FIFO.

The storage field has a limited injection and withdrawal period. Injections can only be made during the months of May thru September, with withdrawals during the months of November thru March. The Company's maximum daily deliverability is 2,000 Dth. Gas is withdrawn for peak shaving and base-loading. Gas withdrawn for peak shaving reduces our demand charge.
