

## **EXHIBIT 5**

### **Managerial and Technical Experience And Professional Bios**

Applicant is a resale common carrier providing intrastate long distance message toll telecommunications services to customers for their direct transmission and reception of voice, data and/or other types of communication. These long distance services are provided through local exchange and/or other connecting carriers. Applicant leases the underlying facilities necessary to provide telecommunications services from interexchange carriers, such as CallNet. Applicant has an experienced senior management team with over 50 years combined experience in the international telecommunications industry, but relies on its underlying carriers for technical support related to the intrastate, interexchange services it proposes to offer in Illinois.

Detailed resumes of Applicant's key management are attached hereto.

## **Zenon D. Carlos**

### **SUMMARY**
