RAIL SAFETY SECTION

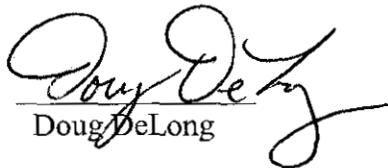

Dear Mr. Berry,

I would like to request in addition to the time extension to the deadline for Union Pacific to install lights and gates for Eden St., Order # T03-0048, grade crossing (167 269T) TR117A that the grade crossing (DOT #167 270M) TR104 be allowed to be barricaded and closed prior to the signalization of TR117A.

The reason is to insure safety during harvest season when crops are up and vision is poor. In warm weather air conditioners are on, windows are up and people cannot hear the train as easily.

We respectfully request this change to the original order.

Sincerely,

Doug DeLong
