Application for a Certificate of Local Authority to Operate as a Reseller and Facilities Based Carrier of Telecommunications Services in the State of Illinois.

---

CBB Carrier Services (“Applicant”), a Virginia corporation that is authorized to transact business in Illinois, seeks authority pursuant to Section 13-404 of the Public Utilities Act, to provide resold local telecommunications services in Illinois; and under Section 13-405 of the Act, to provide facilities-based local exchange telecommunications services in Illinois. 220 ICLS 5/13-404; 405.

A hearing was held in the matter on March 8, 2006. Both the verified Application (with its supporting documents), and the live testimony presented at the hearing, are the basis for the Order at hand. This includes a favorable recommendation from Staff.

The attached Order concludes that the Applicant demonstrated that it has the necessary technical, financial, and managerial resources and abilities to provide the requested services in Illinois. Thus, I recommend that the Commission enter this Order granting Applicant the authority that it has requested.
