

Docket No: 05-0597
Bench Date: 9/13/06
Deadline: 9/14/06

MEMORANDUM

TO: The Commission

FROM: Glenn P. Dolan and Katina Haloulos
Administrative Law Judges

DATE: September 8, 2006

SUBJECT: Commonwealth Edison Company

Proposed general increase in rates for delivery service.
(Tariffs filed on August 31, 2005)

Application for rehearing filed by the Illinois Industrial Energy Consumers (“IIEC”) and the Department of Energy (“DOE”).

RECOMMENDATION: Grant rehearing on the High Voltage Customers with demands over 10MW. The other two issues have already been granted rehearing..

<u>Issue</u>	<u>ALJs' Recommendation</u>
1. High Voltage Customer	Grant
2. General and Intangible Plant	Already Granted
3. Capital Structure	Already Granted

High Voltage Customer

The IIEC and the DOE seek clarification on the determination of the rates for high voltage customers with demands over 10 MW within the over 10MW Class. In the final Order these two sections are inconsistent. The Commission changed the conclusion in the Very Large Load Customers section to maintain the over 10MW and above class. However, the conclusion in the High Voltage Customer Class was not changed and is inconsistent with the over 10 MW Class. Rehearing should be granted to clarify the rates for the High Voltage customers with demands over 10MW.

General and Intangible Plant

The application for rehearing filed by the Coalition of Energy has already been granted on this issue.

Capital Structure

The application for rehearing filed by ComEd on this issue has already been granted.
