ILL. C. C. No. 4  
2nd Revised Sheet No. 428  
(Canceling 1st Revised Sheet No. 428)

**RIDER AC7  
RESIDENTIAL AIR CONDITIONER LOAD CYCLING PROGRAM 2007**

**\* Applicable to Rates BES-R, BES-H, and RDS**

**AVAILABILITY.**

Beginning January 2, 2007, this rider is available to any residential retail customer that (a) is the owner of the premises at which service hereunder is to be provided; (b) is provided with electric service at such premises through a separate meter; (c) has a fully functional electric central air conditioning system (AC) as the principal and dedicated source of air conditioning for such premises, the electric service for which is delivered by the Company through such separate meter and the compressor(s) for which is (are) capable of accepting a Company control device(s), as determined by the Company or its agent; (d) allows the Company to periodically cycle such AC compressor(s); and (e) is located at a premises where the Company's radio control signal can reach a control unit mounted near such AC compressor(s).

Service hereunder is not restricted to residential retail customers that obtain full requirements electric supply from the Company.

Notwithstanding the previous provisions of this Availability section, the availability of this rider is limited by the ability of the Company and its agent to purchase and install the necessary controls needed to implement and administer the Residential Air Conditioner Load Cycling Program (AC Program).

**PROGRAM PROVISIONS.**

The AC Program allows the Company to obtain temporary reductions in the electric power and energy demands on the electric delivery system located in its service territory through prearranged voluntary reductions in residential retail customers' electric power and energy requirements. The Company reserves the right to activate the AC Program for any reason, including (a) response to shortages of available capacity on the Company's distribution system; (b) response to shortages of available capacity on the transmission system located in the Company's service territory; or (c) preservation of the availability of other load response resources. A residential retail customer to which this rider is available that elects service hereunder is defined as a participant. An activation of the AC Program is defined as an event.

During an event, a participant in the AC Program allows the Company to remotely control the duty cycle of such participant's AC compressor(s). The Company is allowed to exercise such control without notice, but only between the weekday hours of noon and 8:00 p.m., Central Prevailing Time (CPT), on no more than twenty (20) days during the period beginning June 1 and extending through September 30 of each year. Notwithstanding the previous provisions of this paragraph, the Company is not allowed to activate the AC Program on the days on which the Independence Day and Labor Day holidays are commonly observed.
