Technical Qualifications of Commerce Energy Inc.,
as required in 83 Ill. Adm. Code 451.330(b)**

Nick Cioll - Vice President Risk Management

Mr. Cioll is responsible for implementing and running all aspects of risk management for Commerce Energy including leading risk control, risk analytics, hedging oversight, load forecasting, contracts and credit. Mr. Cioll has a 16 year career as an executive in finance, risk management, and operations and has 11 years experience directly in the electricity business at Commerce Energy, TXU, Entergy, and Automated Power Exchange. He has been an executive with three Fortune 200 Companies, TXU, Freeport McMoRan and Kaiser Aluminum, where he was Director of Risk Management for TXU, CFO and head of finance for two Freeport affiliates, and Director and VP of Global Commodities Management at Kaiser and Freeport, respectively. Mr. Cioll was also Senior VP of Operations at RateXchange, the leading bandwidth exchange. He has an undergraduate degree in Economics, an MBA in Finance, and a CPA.

Mr. Cioll has over four years of electric system operational experience, sufficient to meet the requirements of section 451.330(b).

Robert Gunnin – Vice President Energy Supply

Mr. Gunnin's joined Commerce Energy in 2003. He has a total of 28 years of experience in the energy business. Mr. Gunnin's overall responsibility at Commerce Energy is for energy supply in all markets. This includes the long term strategic purchases as well as the day by day shaping decisions. He is also the Manager of Scheduling and Procurement, CAISO Scheduler and PJM Scheduler.

Prior to joining Commerce Energy Mr. Gunnin worked at DTE Energy Trading as the Director of Generation Trading (Ann Arbor, MI). There he was responsible for integrating the utility generation fleet and the utility staff into the trading/merchant side of the business.

Mr. Gunnin has also worked for ICF Consulting as the Vice President of Risk Management, MIECO, Inc. as the Vice President and he worked for San Diego Gas & Electric as the Manager of Energy Risk Management. He also worked in the trading and supply section for the following companies; Energy Pacific, Banque Paribas, Chicago Research & Trading, BP North America, Tosco Corp.

Mr. Gunnin is a member of NYMEX, the Petroleum Advisory Committee, the Options Advisory Committee, the Chicago Board of Trade, the Petroleum Advisory Committee, the Chicago Mercantile Exchange and the Petroleum Advisory Committee. Mr. Gunnin has a degree in Accounting from the University of Southern California in Accounting and a MBA from Pepperdine University.

Mr. Gunnin has over four years of electric sales experience as well as over four years experience working with rules and practices established by NERC, MAIN and MAPP, all sufficient to meet the requirements of Section 451.330(b).

Joseph Maçek III - EDI Manager

Mr. Maçek has been with Commerce Energy Group since November of 1999, serving in Sales, Billing, Energy Accounting and Information Technology. Since 2001, Mr. Macek is the Manager of Electronic Data Interchange Services and supervises all data exchanges for Commerce Energy. He oversees translation systems, data management and connectivity. Mr. Macek has been involved or is a member of many national organizations including the UIG, NAESB, TTPT, EDEWG and NJEDIWG. He holds a Bachelor's Degree in English Literature from Louisiana State University.

Mr. Macek has over four years of electric system operational experience, sufficient to meet the requirements of Section 451.330(b).

Darrell Wall – Senior Scheduler

Darrel Wall has been with Commerce Energy since August of 2000. Mr. Wall works in Energy Supply where he manages operations in California (CAISO) and in Pennsylvania (PJM). Mr. Wall currently handles all of the purchasing and scheduling for the CAISO market including all tagging requirements for any importing or exporting of energy.

Mr. Wall has a minimum of: (i) 6 months experience with OASIS reservation process (and has completed OASIS operational training) (ii) 6 months experience with NERC tagging process, (iii) one year experience working with rules and practices established by NERC and MAIN and/or MAPP and (iv) four years electric system operational experience sufficient to meet the requirements of section 451.330(b).

Catherine Sullivan– Vice President Commercial and Industrial Sales

Ms. Sullivan has been with Commerce Energy since July of 2004. She is responsible for developing, implementing and maintaining all aspects of Commerce Energy's commercial and industrial retail sales including dual-commodity and multi-site energy customers across various domestic markets.

Ms. Sullivan's work experience include 19 years of experience in the natural gas and power industry including over fourteen years experience in selling physical and financial energy commodities to wholesale & retail energy markets. She is highly experienced in opening new markets, with a reputation for results and strong customer relationships. Catherine has held various sales and sales management positions with Coral/Shell Trading, Southern Company Energy Marketing, Enron and divisions of Occidental Petroleum. She holds a B.B.A in Business Administration from the University of Phoenix.

Ms. Sullivan has over four years electric sales experience sufficient to meet the requirements of Section 451.330(b).

Commerce Energy will use APX, Inc. to meet the scheduling facility requirements including a 24 hour manned operation for coordination with control centers of scheduling changes, reserve implementation, curtailment orders, and interruption plan implementation.
