Subject: Re: T06-0035 Lake Twsp Rakers Road rr crossing improvement

Lake Township is waiting on the Railroad to widen their crossing before widening the approach roadway. We will be contacting the railroad to verify their work will be completed in time to allow Lake Township to widen the approach roadway prior to June 7, 2007.

Sincerely,

Daniel I. Behrens
County Engineer

Ron, it is time for you to submit a progress status report regarding the approach work on this street. A response to this e-mail will suffice.

Thanks, Dick Daniels
