AID OUTSIDE JURISDICTION BOUNDARY

Once an emergency unit is dispatched in response to a request through the 9-1-1 system, such unit shall render its service to the requesting party without regard to whether the unit is operating outside of its normal jurisdiction boundary. It is understood that this paragraph is conditional upon acceptance of the call by the Ellis Grove Police Department. If any PSAP dispatcher refers a call to the Ellis Grove Police Department which is clearly outside of its jurisdictional boundaries, the Ellis Grove Police Department may refuse to respond by immediately notifying the dispatcher that it will not respond and, if possible, providing advice as to which jurisdiction should receive the call.

The legislative intent is that 9-1-1 be used for emergency calls only. Therefore all calls of an administrative or non-emergency nature will be refused on 9-1-1 and will be referred to your administrative number in the telephone directory.

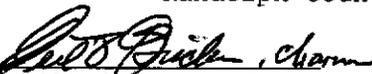

The Randolph County ETSB agrees to keep all records, including times and places of all 9-1-1 calls transferred to the Ellis Grove Police Department. All records will be available to all participants of the 9-1-1 system.

It shall be the responsibility of the Ellis Grove Police Department to maintain the report of the call and the disposition of each call received.

Any agreements or changes in agreements and operating policies must be submitted in writing and approved by both parties.
