

**Illinois Bell Telephone Company
Application for State-Issued
Authorization to Provide Video Service**

Affidavit of Paul La Schiazza

Exhibit 2

How AT&T U-verseSM TV is Delivered

National IP Video Super Hub Offices

Receive, aggregate and process video content

National IP Backbone

Regional IP Video Hub Offices

Store video content and the intelligence necessary to deliver video-on-demand, TV programming, interactive applications and more

AT&T is using a two-way switched Internet Protocol (IP)-video distribution system, in which only the content the customer requests is provided to the customer, freeing up bandwidth to be used for other applications

IP Serving Offices (Central Office)

Distribute video content to customers
