**RIDER PPO – MVM
POWER PURCHASE OPTION (MARKET VALUE METHODOLOGY)**

Applicable to Rate RDS

* **APPLICABILITY.**

Service under this rider is applicable to any nonresidential or lighting retail customer for which service has been provided hereunder continuously since prior to [ZZZZ ZZ, 200Z], provided service hereunder is taken in conjunction with service under Rate RDS – Retail Delivery Service (Rate RDS).

Notwithstanding the foregoing, service hereunder is not available to customers in the Self Generating Customer Group or the Competitively Declared Customer Group as defined in the General Terms and Conditions of the Company's Schedule of Rates.

This rider is not applicable to any retail customer for service provided after the May 2008 monthly billing period.

CHARGES.

* **Supply Administration Charge**

A Supply Administration Charge is applicable to the customer for each monthly billing period during which the customer is served hereunder. If the Watt-Hour Customer Group, Small Load Customer Group, Medium Load Customer Group, Dusk to Dawn Lighting Customer Group, or General Lighting Customer Group is applicable to the customer, then such Supply Administration Charge is equal to \$0.33. Otherwise, the Supply Administration Charge is equal to \$19.67.

(Continued on Sheet No. 296)

RIDER PPO – MVM
POWER PURCHASE OPTION (MARKET VALUE METHODOLOGY)

(Continued from Sheet No. 295)

CHARGES (CONTINUED).

*

CHARGES (CONTINUED).

* **Supply Charges (Continued)**

For a customer served hereunder to which the Watt-Hour Non-Electric Space Heating Customer Subgroup, the Small Load Non-Electric Space Heating Customer Subgroup, the Medium Load Non-Electric Space Heating Customer Subgroup, the Nonresidential Electric Space Heating Customer Subgroup, the Dusk to Dawn Lighting Customer Group, or the General Lighting Customer Group is applicable, the Summer Supply Charge or the Nonsummer Supply Charge for the customer supply subgroup or group applicable to the customer is applicable to each kWh provided to the customer during each monthly billing period included in the Summer Period or the Nonsummer Period, respectively.

For a customer served hereunder to which the Large Load Customer Group or the Very Large Load Customer Group is applicable, the Summer Retail Peak Supply Charge and Summer Retail Off-Peak Supply Charge for the customer supply group applicable to the customer are applicable to each kWh provided to the customer during Retail Peak Periods and Retail Off-Peak Periods, respectively, in each monthly billing period included in the Summer Period. The Nonsummer Retail Peak Supply Charge and the Nonsummer Retail Off-Peak Supply Charge for the customer supply group applicable to the customer are applicable to each kWh provided to the customer during Retail Peak Periods and Retail Off-Peak Periods, respectively, in each monthly billing period included in the Nonsummer Period. Notwithstanding the previous provisions of this paragraph, for a situation in which metering equipment that does not determine the time at which kWhs are provided is installed at one or more points of service at the customer's premises, the Summer Supply Charge or the Nonsummer Supply Charge for the customer supply group applicable to the customer is applicable to each kWh provided to the customer via such metering equipment during each monthly billing period included in the Summer Period or the Nonsummer Period, respectively.

Notwithstanding the previous provisions of this Supply Charges subsection, for a situation in which less than all the retail customer's electric power and energy requirements are served hereunder, the supply charges for the portion served hereunder include a Capacity Supply Charge and Hourly Energy Supply Charges rather than the charges previously described in this Supply Charges subsection. The Capacity Supply Charge is applicable to the Capacity Obligation established by the retail customer for the monthly billing period and is equal to \$1.24192/kW-Month. Each Hourly Energy Supply Charge is applicable to each kWh provided to the retail customer during the hour in the monthly billing period for which such charge is determined. Each Hourly Energy Supply Charge is equal to (a) the PJM Interconnection L.L.C. (PJM) real-time, locational marginal price (LMP) for the ComEd Zone for each such hour, multiplied by (b) 1.0507 to adjust for distribution line losses, and multiplied by (c) 1.0007 to adjust for supply-related uncollectible costs incurred by the Company.

**RIDER PPO – MVM
POWER PURCHASE OPTION (MARKET VALUE METHODOLOGY)**

(Continued from Sheet No. 297)

CHARGES (CONTINUED).

* **Accuracy Assurance Factor**

The Accuracy Assurance Factor (AAF) is applicable to each kWh provided to the customer during the monthly billing period. The B-AAF is applicable to a customer to which the Watt-Hour Customer Group, the Small Load Customer Group, the Medium Load Customer Group, the Dusk to Dawn Lighting Customer Group, or the General Lighting Customer Group is applicable. The A-AAF is applicable to a customer to which the Large Load Customer Group or the Very Large Load Customer Group is applicable. The AAFs are determined in accordance with the provisions of Rider AAF - Accuracy Assurance Factor (Rider AAF).

Notwithstanding the previous provisions of this Accuracy Assurance Factor subsection, for a situation in which less than all the retail customer's electric power and energy requirements are served hereunder, the Purchased Electricity Adjustment (PEA) computed in accordance with the provisions of Rate BES-H - Basic Electric Service-Hourly Energy Pricing (Rate BES-H) rather than the AAF, is applicable to each kWh of the portion served hereunder.

* **Transmission Services Charge**

The Transmission Services Charge (TSC) is applicable to each kWh supplied hereunder and is equal to \$0.00415/kWh.

Notwithstanding the previous provisions of this Transmission Services Charge subsection, for a situation in which less than all the retail customer's electric power and energy requirements are served hereunder, the TSC is applicable to each kWh supplied hereunder is equal to \$0.00739/kWh.

The TSC is determined in accordance with the terms and conditions of applicable tariffs on file with the FERC. Within thirty (30) calendar days of the date of an order from the FERC in a transmission rate proceeding approving new or revised charges that would result in more than a three percent (3%) increase or 3% decrease in a currently applicable TSC, the Company must file with the ICC, for informational purposes, an adjusted TSC applicable for the period beginning with the monthly billing period starting after the later of (a) the date of the FERC's order, or (b) the effective date of such new or revised charges approved by the FERC, and extending through the May 2008 monthly billing period. Any such adjusted TSC filed with the ICC for informational purposes must include work papers detailing the determination of such adjusted TSC based upon the terms and conditions of applicable tariffs on file with the FERC.

(Continued from Sheet No. 297.1)

CHARGES (CONTINUED).

Late Payment Charge

The Late Payment Charge as described in the Billing and Payment part of the General Terms and Conditions of the Company's Schedule of Rates is applicable to all charges applied in accordance with the provisions of this rider.

Other Applicable Charges

Other applicable charges for delivery services and other generally applicable charges are applicable to service hereunder pursuant to Rate RDS.

* **TERM OF CONTRACT AND TERMINATION.**

For the offering of service hereunder the term of contract expires at the end of the customer's May 2008 monthly billing period.

When the term of contract for service hereunder expires for a customer to which the Watt-Hour Customer Group, the Small Load Customer Group, the Medium Load Customer Group, the Dusk to Dawn Lighting Customer Group, or the General Lighting Customer Group is applicable, such customer is switched to service under Rate BES - Basic Electric Service (Rate BES), unless such customer elects to obtain service from the Company under another tariffed service, and such customer meets all prerequisites for service under such other tariffed service. In the event that the customer makes such election and meets all such prerequisites for service, such customer commences service under such other tariffed service in accordance with the commencement of service provisions of such tariffed service.

When the term of contract for service hereunder expires for a customer to which the Railroad Delivery Class is applicable, such customer is switched to service under Rate BES-H, unless such customer elects to obtain service from the Company under another tariffed service, and such customer meets all prerequisites for service under such other tariffed service. In the event that the customer makes such election and meets all such prerequisites for service, such customer commences service under such other tariffed service in accordance with the commencement of service provisions of such tariffed service.

**RIDER PPO – MVM
POWER PURCHASE OPTION (MARKET VALUE METHODOLOGY)**

(Continued from Sheet No. 298)

* **TERM OF CONTRACT AND TERMINATION (CONTINUED).**

Other than as provided in the previous paragraph, when the term of contract for service hereunder expires for a customer to which either the Large Load Customer Group or the Very Large Load Customer Group is applicable, such customer is switched to service under Rate BES-H, unless such customer elects to obtain service from the Company under another tariffed service, and such customer meets all prerequisites for service under such other tariffed service. In the event that the customer makes such election and meets all such prerequisites for service, such customer commences service under such other tariffed service in accordance with the commencement of service provisions of such tariffed service.

* **MISCELLANEOUS GENERAL PROVISIONS.**

For the purposes of billing a customer hereunder, the Summer Period includes the customer's June, July, August and September monthly billing periods. The Nonsummer Period includes all other monthly billing periods.

Retail Peak Periods, for purposes of billing a customer hereunder, are the hours of 9:00 a.m. to 10:00 p.m. Central Prevailing Time (CPT), Monday through Friday, except on days designated as holidays by the North American Electric Reliability Corporation (NERC). Retail Off-Peak Periods are all other hours.

For a customer that elects the option of having less than all its electric power and energy requirements supplied hereunder with such specification on a meter-by-meter basis, the electric power and energy for the customer's load connected to the meters for which service hereunder is provided, must be supplied exclusively by the Company. The customer's load connected to the meters for which service is provided hereunder must be installed, operated, and maintained in such a manner so as to preclude the possibility of such meters registering electric power and energy that are supplied by the Company under the terms of a tariff for bundled electric service or by a Retail Electric Supplier (RES).

A customer taking service hereunder may not act as a Customer Self-Manager as defined in the Types of Customers section of the Service Options part of Rate RDS.

The Company's Schedule of Rates of which this rider is a part includes General Terms and Conditions and other rates and riders. Service hereunder is subject to those General Terms and Conditions and applicable rates and riders.
