

Section 6 – Technical Qualifications – Attachment B**WILLIAM H. DULLE****Manager, Portfolio Management**

Mr. Dulle joined Ameren Energy Marketing in 2000. Mr. Dulle's responsibilities include management and oversight of AEM's non-rate-regulated trading operations, and dispatch and optimization of numerous generation assets. Mr. Dulle joined Union Electric in 1988 and has held a variety of positions prior to joining Ameren Energy Marketing in 2000. He holds an MBA from St. Louis University and a BA degree in Communication from University of Missouri-St. Louis.

ERIC V. SEIDLER**Managing Supervisor, Trading Operations**

Mr. Seidler joined Ameren Energy Marketing in August of 2006. His responsibilities include developing and managing the optimization, dispatch and market interface for AEM's non-rate-regulated generating assets. Prior to joining AEM, Mr. Seidler held a similar position on Ameren's rate-regulated Ameren Energy tradefloor. Prior to Ameren Energy, Mr. Seidler served 6 years as a NERC Certified System Operator for all of Ameren's Control Areas, where he directed the daily operation of Ameren's generation dispatch and high voltage transmission system operation. He holds a BS in electrical engineering from the University of Missouri – Rolla.

Steven J. Terelmes**Lead Business Operations Analyst**

Mr. Terelmes joined Ameren Energy Marketing in 2007 and has responsibility to develop, manage, and implement AEM's transmission operations and strategies. His department procures transmission and ancillary services to support AEM's retail and wholesale transactions. He also follows and interprets RTO rules and policies, and their implications on current and future transactions, ensuring that AEM complies with applicable tariffs and business practices. Prior to joining AEM, Mr. Terelmes worked for Ameren Corporation for 10 years performing multiple functions including market and transmission analysis as well as market and regulatory policy. He holds an MBA from Washington University in St. Louis.

JINNA HOPSON**Power Scheduler II, Ameren Energy Marketing**

Ms. Hopson joined Ameren Energy Marketing in 2007, previously with Ameren Services. Her responsibilities include managing AEM's daily financial trading and delivery obligations, transmission tagging and scheduling procedures. Ms. Hopson has seven years of relevant energy marketing experience with the front office, primarily related to scheduling power deliveries in multiple Illinois control areas. She earned her BS in business, finance, and economics from University of Missouri – St. Louis.
