

May 6, 2008

Aqua Illinois, Inc.  
Docket No. 07-0620/07-0621/08-0067

Response to Illinois Commerce Commission  
Data Requests

---

CLH-HW-S-4.02 Please provide an explanation as to how the Company is in compliance with Illinois statute 220 ILCS 5/8-306(h) below:

Water and sewer utilities; low usage. Each public utility that provides water and sewer service must establish a unit sewer rate, subject to review by the Commission, that applies only to those customers who use less than 1,000 gallons of water in any billing period.

**RESPONSE:**

Objection. This data request asks Aqua Illinois to interpret a statute, which is an improper subject for a data request, as the statute speaks for itself. Notwithstanding said objection, Aqua Illinois has not established a rate that applies only to those customers who use less than 1,000 gallons of water in any billing period because this situation does not exist in the Hawthorn Woods Division.

Witness: Tod S. McCleary
