Contracts.

Contracts entered into hereunder shall be submitted to the Illinois Commerce Commission for informational purposes. Such contracts shall be treated on a proprietary basis.

The maximum term of contract under this rate shall be five years.

Availability.

This rate is available to any Customer with electric generation facilities with a capacity of at least 25 Megawatts installed for the purpose of selling all or part of the electricity generated from such unit(s) off premise, except that the rate is not available to any customer that is an affiliated interest of the Company as defined in Section 7-101 of the Illinois Public Utilities Act. Contract.

The Customer shall enter into a contract with the Company specifying the nature of the gas service to be supplied, the price to be paid, and such other terms and conditions as are mutually agreeable. The term of the contract shall be provided in the contract, but shall not be longer than ten years.

Rate 21
Intrastate Transportation and Storage Services

*** Availability and Eligibility.**

This rate is available to any Shipper that meets the applicable eligibility requirements. Any Shipper is eligible for the services offered hereunder upon meeting all the terms and conditions specified herein and upon the execution of a valid and approved contract.

*** Definition of Service.**

Under this rate, any Shipper (as defined below) who enters into a contract with the Company hereunder may transport gas on an interruptible basis from an interconnection between an interstate natural gas pipeline or local gas distribution company and the Company for redelivery to (a) another local gas distribution company with an interconnection with the Company, (b) storage or (c) a Transfer Point. A Shipper may also delay redelivery of supply with the storage option, for up to one hundred twenty (120) calendar days. With this service, a Shipper may also schedule deliveries from storage to a transportation Customer's Storage Banking Service.

All gas transported or stored under this rate must be consumed within the State of Illinois. As such, Nicor Gas will not schedule deliveries from storage under Rate 21 to an interstate pipeline.

*** Nature of Service.**

Service under this rate will be provided on an interruptible basis, subordinate to the Company's firm service obligations. Subject to the Company's determination that it has available capacity, Company will offer intrastate services, in limited volumes, consisting of (a) priority interruptible transportation service, (b) interruptible transportation service, (c) priority interruptible storage service, and (d) interruptible storage service to eligible Shippers on a non-discriminatory basis. All storage service hereunder shall require corresponding transportation service to effectuate the movement of storage volumes. Gas shall be deemed to have been stored when the Company's recorded transportation receipts from any Shipper exceed the recorded deliveries to that Shipper, if any, on the same day. Gas shall be deemed to have been withdrawn from storage when Company's recorded transportation deliveries to any Shipper exceed the recorded receipts from that Shipper on any day.

*** Interruptions of Service.**

The Company shall not provide service under this rate schedule to the extent that interruptions may occur on any day which the Company has declared a Critical Day or has imposed an Operational Flow Order, as defined in the Company's Terms and Conditions. Interruptions may also occur if such service would prevent the Company from meeting all of its firm service obligations as a local gas distribution utility, including the Company's system management needs, such as the use of storage. Within the Company's best operating judgment and discretion, in the event that service has already commenced and the Company learns that continued furnishing of service may prevent the Company from meeting all of its firm service obligations as a local gas distribution utility, then the Company may, at its sole discretion and upon giving appropriate notice to Shipper(s), interrupt the continuation of any or all of the interruptible services hereunder. For the purposes hereof, any interruption of service shall mean the full or partial cancellation or cessation of any scheduled daily gas transportation receipt or delivery, or the Company's ordered withdrawal of Shipper's gas from storage, until further notice; provided, however, if any such interruption by the Company results in an unscheduled storage of gas on any day for Shipper(s), then the Company shall retain such gas until service can be resumed as originally scheduled, and the Company shall waive any transportation, additional storage or imbalance charges otherwise incurred solely because of such interruption. The Company reserves the right to refuse any nominations after notification of interruption.

*** Scheduling.**

The Company shall decline to schedule service if the Shipper's nomination is not confirmed by both the Transporter and the Receipt Point operator, if other than the Company.

All nominations for service under this rate shall be made in accordance with the procedures set forth in the Company's Terms and Conditions.

All nominations for service under this rate shall specify both a Receipt Point and a Delivery Point. If a nomination designates the Transfer Point as the Delivery Point, the nomination must specify the transportation identification number of the Company's transportation Customer or other Shipper that gas is to be assigned to by the Company.

Priority Interruptible Transportation Service and/or Priority Interruptible Storage Service will be scheduled before, and curtailed after Interruptible Transportation Service and/or Interruptible Storage Service. If timely nominations for service under this rate exceed available capacity, then the Company shall allocate the capacity available to provide service as set forth in the Nature of Service to Shippers as follows: First, to the extent that the Company is able to schedule some but not all of the nominated volumes under the Priority Interruptible Transportation Service and/or Priority Interruptible Storage Service, service will be scheduled pro rata based on MDCQ. Second, to the extent that the Company is able to schedule some but not all of the nominated volumes under Interruptible Transportation Service and/or Interruptible Storage Service, service will be scheduled on the basis of the total charges for such service in the order of the highest to the lowest. Third, if there is insufficient capacity to schedule all services for which the same total charges are being paid, then the Company shall allocate the remaining available capacity pro rata among such Shippers based on the ratio of each such Shipper's nomination to the sum total nominations of such Shippers.

On each gas day on which the Shipper takes service under this rate, the quantity of gas nominated to and confirmed by the Company for receipt at the Receipt Point shall equal the quantity of gas, less Unaccounted-For Gas, delivered by the Company to the Delivery Point, unless the Delivery Point is the Transfer Point or storage. If the Delivery Point is the Transfer Point, and is nominated to a Company transportation Customer, an adjustment for Unaccounted-For Gas shall be made and reflected on the bill of the Company's transportation Customer receiving the gas.

Storage shall be designated as the Delivery Point in the initial nomination, and the Receipt Point on the gas day withdrawals are to be made. The Company has no obligation to make storage available on any gas day.

*** Imbalances.**

The Company and any local gas distribution company with a physical interconnect shall resolve operational imbalances in a mutually agreeable manner. The maximum transportation charges or storage charges, as applicable, shall be applied to resolve Shipper imbalances, unless the Company and Shipper mutually agree to another manner of resolution.

Conditions of Service.

The Shipper shall arrange with the Transporter, the Receipt Point operator if other than the Company, and the Shipper's broker/marketer, if applicable, to provide the Company with the daily data for all Shipper-owned gas delivered to the Delivery Point.

Any measurement required to determine deliveries to the Company of Shipper-owned gas at each Receipt Point shall be done by the Transporter in accordance with the terms of the Transporter's currently effective tariff, on file with either the Federal Energy Regulatory Commission or the Illinois Commerce Commission, as applicable, and metering practices applicable to deliveries to the Company.

The Shipper shall hold title to the gas delivered under this rate at all times. The Company shall be deemed to be in control and possession of the gas deliverable to the Shipper after its receipt by the Company at the Receipt Point until its delivery to the Shipper at the final Delivery Point. The Shipper shall be deemed to be in control and possession of such gas at all times at and prior to receipt at the Receipt Point, and at and after delivery to the final Delivery Point.

In no event shall the Company be required to take any action, engage in any activity or provide any service that would cause the Company to become subject to the jurisdiction of the Federal Energy Regulatory Commission or to lose its exemption from Federal Energy Regulatory Commission jurisdiction pursuant to Section 1(b) or 1(c) of the Natural Gas Act (15 U.S.C. 717 (b), 717 (c)).
