**STATE OF ILLINOIS  
ILLINOIS COMMERCE COMMISSION  
STIPULATED AGREEMENT 1329**

T08-0087

This Agreement made and entered into, by and between the State of Illinois acting by and through the Illinois Commerce Commission ("Commission"), the Elgin, Joliet and Eastern Railway Company ("Company") and the State of Illinois, Department of Transportation ("Department" or "IDOT").

**WITNESSETH:**

WHEREAS, on June 19, 2002, the Commission entered an Order in Docket T02-0059 requiring and directing the Company to install remote monitor units at one hundred fifteen (115) of its highway-rail grade crossings in Illinois equipped with automatic warning devices. The devices were designed to continually monitor the warning system at each location and electronically report instances of extended commercial power failures, high/low standby battery voltage limits, suspect gate operations and excess warning operation directly to the Company's 24-hour Call Center. These monitors ordered to be installed in Docket T02-0059 utilize analog signal technology.

WHEREAS, it has come to the attention of the Commission through informal communication between its staff and the Company that analog signal technology used in the monitors is being discontinued and replaced with digital signal technology. Inquiry should be made into the matter of improving public safety by retrofitting the existing monitors with digital signal technology at the Company's one hundred twenty one (121) public highway-rail grade crossings in Illinois, as listed on Exhibits A and A-1 attached hereto; and

WHEREAS, the parties are mutually agreeable to accomplish the proposed improvements upon a determination of the Commission by Order.

NOW THEREFORE, in consideration of the premises and of the mutual covenants and agreements as hereinafter contained the parties pray that the Commission enter an Order according to the provisions of Section 18c-7401 of the Illinois Commercial Transportation Law, 625 ILCS 5/18(c)-7401, requiring that certain improvements as hereinafter stated be made and that the cost for the proposed improvements be divided among the parties according to law and that in the interest of the traveling public the Grade Crossing Protection Fund ("GCPF") of the Motor Fuel Tax Law be required to bear a substantial portion of the cost; To Wit the parties agree as follows:

Section 1 All improvements encompassed by this Agreement shall be made in accordance with all applicable State laws, rules, standards, regulations and Commission Orders and procedures in general.

Section 2 The parties are of the opinion that the following improvements should be

**DOCKETED**

performed in the interest of public safety at those crossings listed on Exhibits A and A-1 attached hereto:

- (a) Retrofit existing analog monitor units with digital signal technology, by the Company.

**Section 3** The Company has prepared a detailed estimate of the cost to accomplish the proposed improvements, which may be required by Commission Order. The estimate is attached and incorporated herein by reference as Exhibit B.

**Section 4** The Company shall upon Commission Order, according to the requirements contained therein, proceed toward the completion of the proposed improvements, accomplishing the work with its own forces or appropriate contracted services and agrees that an appropriate time for the completion of the proposed improvements should be six (6) months from the date of Commission Order approving this Agreement.

**Section 5** The parties hereto agree that an equitable division of cost for the proposed improvements should be as follows:
