Dear Mr. Vercruysse:

I am submitting a progress report on the completion of the work stipulated in Order T07-0113 entered by the Commission on June 4, 2008.

Following the Order, the Village entered into a License Agreement with the Elgin, Joliet and Eastern Railway Company (E, J & E) on June 23, 2008. During the execution of the Agreement, the E, J & E discovered that a formal easement was not on record and would need to be developed and approved by the E, J & E prior to the construction of the sidewalk. The Village of Lake Zurich hired Graef, Anhalt, Schloemer & Associates, Inc. to develop the necessary easement documentation. This easement information was submitted in draft form to the E, J & E on October 31, 2008 for their review.

Upon receiving concurrence from the E, J & E on the draft easement documentation, all materials will be formally executed by the Village Board and submitted to the E, J & E for final signature. Following completion of the easement documentation, the Village of Lake Zurich will complete the installation of the sidewalk as depicted in the Order utilizing in-house personnel and equipment. The Village anticipates that all work will be completed by the June 3, 2008 completion date as specified in the Order.

Sincerely,

David Heyden
Public Works Director/Village Engineer

DOCKETED
