

Intrado Inc. Responses to AT&T Illinois' Data Requests  
 Docket No. 08-0545  
 NON-CONFIDENTIAL VERSION

35. Regarding Intrado's proposed language in Appendix 911 § 6.1.1.2, please explain in detail and provide all supporting materials for the alleged costs that Intrado would incur if AT&T Illinois were unable to segregate its end-user's 911 traffic as described in Intrado's proposed language.

**RESPONSE:**

Intrado has not yet developed the pricing for this service. The pricing will be based on the volume of traffic being exchanged, the facilities and trunking costs incurred in delivering the hand-off traffic, the number of records being processed, and the number of the records passed to Intrado that fail to validate to the MSAG.

**RESPONSIBLE PERSON:**

Thomas Hicks, Director-Carrier Relations
