Mr. Spotts,

My records show that in October, 2008, the OmniTRAX Engineering Department working in conjunction with the Illinois Railway & LandRail performed an engineering review of the Beltline Road Bridge drawings and found the proposed bridge reconstruction OK to proceed. The specific details of the review and approval to proceed would have been documented in the easement and access agreement(s) supplied by LandRail. Please use this email to reiterate that the bridge plans have been reviewed and approved by the Railroad. Feel free to share my contact information with your colleagues if there are further questions. Also please work closely with our General Manager and Roadmaster to assure that the bridge construction work is performed safely and with minimal impact to train operations.

Sincerely, Ken Rose

Ken,

The ICC has asked us for a letter from the Railroad approving the plans for the Beltline Road Bridge Replacement over the Illinois Railway's tracks. I don't think we ever received your approval. Could

you please send this to me. The project has been bid and awarded.

Thanks
