Dear ICC Commissioner

I am asking the Illinois Commerce Commission to re-open docket 06-0706, with regard to the Ottawa Wedron power line routing through the Fox River Valley.

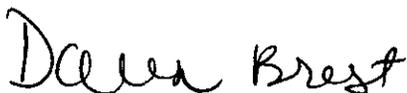

I live and along the Fox River. This project will wipe out the entire west bank of the Fox River. It will destroy a beautiful natural resource and my home.

We have just recently seen the recovery of the Bald Eagle from the brink of extinction. Destruction of the habitat in the Fox River Valley would be wrong and unAmerican.

The purpose of the ICC is to promote the public interest in these matters. The ICC judge allowed this routing to be determined by a stipulation agreement, to the sole benefit of a small group of land developers, while ignoring clear evidence supporting the other routes. Recently, the City of Ottawa backed out of the stipulation agreement by unanimous resolution when they realized the disastrous consequences to the entire community.

This project is a clear environmental catastrophe in the making. The ICC can avert this by reopening docket 06-0706, and deciding the route based on common sense evaluation of the evidence. Mistakes were made based on false pretenses, but now, you have the power to help resolve this impending environmental disaster to the benefit of our local citizens and our precious natural resources.

Sincerely,

Dawn Brest
