Instructions for Locking the Form and Submitting It to the ICC Ethics Officer:

Once you've completed this form and any other necessary documentation, please lock the form and submit it, together with any accompanying documents, as an e-mail to the ICC Ethics Officer. If you are submitting additional documents with the form, please convert those documents first to PDF files by following the instructions below. Using this method will ensure that the contents of the accompanying documents cannot later be changed.

Converting other documents to PDF files:

To save a Word or Excel document as a PDF, click on the Office button in the upper left-hand corner of the screen, move the cursor to "Save As," and select the "PDF or XPS" option. "Pdf" will appear as the default choice in the "save as type" pull down menu. Once you've converted the necessary documents and named them, please identify those additional documents in the "Other Pertinent Information" field above.

Locking the form:

Select this button to change all fields, including the docket number or case number field, to "read only." Once locked, no field in the document can be changed.

After you've completed and locked this form and converted any accompanying documents to PDF files, please submit the form and other documentation by e-Mail to the ICC Ethics Officer.

Under Section 5-50(c) of the State Officials and Employees Ethics Act, the information required by this form shall be reported immediately to the agency's ethics officer, who shall require that the ex parte communication be promptly made a part of the record, and who shall promptly file the ex parte communication with the Executive Ethics Commission.

Dear Commissioners,

I'm a resident of LaSalle County taking part in a River Sweep in Ottawa, IL. Today I learned of a need to re-open an ICC case to **stop Ameren from clear-cutting miles of trees along and near the Fox River just north of here for a 138Kv power line.** How can you ask us to volunteer to work on our rivers, and then allow this destruction just a few miles from here along the Fox?

Eagles nest in this area. A viable route exists (along a major highway) which will NOT slash a 100' clear-cut swath through the forest and along a scenic river, and will not destroy eagle nesting areas. IDNR was unaware that eagles nest in this area. This is new evidence.

The ICC must re-open this case and decide this route fairly, disregarding the sweetheart deal made between developers and Ameren.

The siting process is severely flawed; it is stacked against the little guy. We don't know the process. We have no chance against the high-priced, well-connected lobbyist lawyers hired by the developers. They even flim-flammed the City of Ottawa, which has since realized their error and rescinded their part of the agreement. **The developers spent over a quarter of a million dollars on Eric Madaire,** and so far it was well spent. He won. We don't have that kind of money. We can only hope that logic, reason, and the rights of our majestic National symbol, the Bald Eagle, will somehow be considered after all. **You rely on judges to prevent exactly this sort of sideways deal from happening.**

Connected lobbyists cannot be allowed to make deals which replace the evidence presented. The chosen route along the Fox is terrible...the worst possible. **It was repeatedly opposed by IDNR as detrimental to the environment.** The IDNR is currently documenting the existence of eagles in this area, as they were unaware of their presence. It is illegal to destroy their habitat.

PLEASE... re-open ICC case number 06-0706. Give the eagles and the forest along the Fox River corridor a chance to remain in existence.

Sincerely,

Dave Poole

I'm a resident of LaSalle County taking part in a River Sweep in Ottawa, IL. Today I learned of a need to re-open an ICC case to **stop Ameren from clear-cutting miles of trees along and near the Fox River just north of here for a 138Kv power line.** How can you ask us to volunteer to work on our rivers, and then allow this destruction just a few miles from here along the Fox?

Eagles nest in this area. A viable route exists (along a major highway) which will NOT slash a 100' clear-cut swath through the forest and along a scenic river, and will not destroy eagle nesting areas. IDNR was unaware that eagles nest in this area. This is new evidence.

The ICC must re-open this case and decide this route fairly, disregarding the sweetheart deal made between developers and Ameren.

The siting process is severely flawed; it is stacked against the little guy. We don't know the process. We have no chance against the high-priced, well-connected lobbyist lawyers hired by the developers. They even flim-flammed the City of Ottawa, which has since realized their error and rescinded their part of the agreement. **The developers spent over a quarter of a million dollars on Eric Madaire,** and so far it was well spent. He won. We don't have that kind of money. We can only hope that logic, reason, and the rights of our majestic National symbol, the Bald Eagle, will somehow be considered after all. **You rely on judges to prevent exactly this sort of sideways deal from happening.**

Connected lobbyists cannot be allowed to make deals which replace the evidence presented. The chosen route along the Fox is terrible...the worst possible. **It was repeatedly opposed by IDNR as detrimental to the environment.** The IDNR is currently documenting the existence of eagles in this area, as they were unaware of their presence. It is illegal to destroy their habitat.

PLEASE.... re-open ICC case number 06-0706. Give the eagles and the forest along the Fox River corridor a chance to remain in existence.

Sincerely,

Michael Hoffer

Dear Commissioners,

I'm a resident of LaSalle County taking part in a River Sweep in Ottawa, IL. Today I learned of a need to re-open an ICC case to **stop Ameren from clear-cutting miles of trees along and near the Fox River just north of here for a 138Kv power line.** How can you ask us to volunteer to work on our rivers, and then allow this destruction just a few miles from here along the Fox?

Eagles nest in this area. A viable route exists (along a major highway) which will NOT slash a 100' clear-cut swath through the forest and along a scenic river, and **will not destroy eagle nesting areas.** IDNR was unaware that eagles nest in this area. **This is new evidence.**

The ICC must re-open this case and decide this route fairly, disregarding the sweetheart deal made between developers and Ameren.

The siting process is severely flawed; it is stacked against the little guy. We don't know the process. We have no chance against the high-priced, well-connected lobbyist lawyers hired by the developers. They even flim-flammed the City of Ottawa, which has since realized their error and rescinded their part of the agreement. **The developers spent over a quarter of a million dollars on Eric Madaire,** and so far it was well spent. He won. We don't have that kind of money. We can only hope that logic, reason, and the rights of our majestic National symbol, the Bald Eagle, will somehow be considered after all. **You rely on judges to prevent exactly this sort of sideways deal from happening.**

Connected lobbyists cannot be allowed to make deals which replace the evidence presented. The chosen route along the Fox is terrible...the worst possible. **It was repeatedly opposed by IDNR as detrimental to the environment.** The IDNR is currently documenting the existence of eagles in this area, as they were unaware of their presence. It is illegal to destroy their habitat.

PLEASE.... re-open ICC case number 06-0706. Give the eagles and the forest along the Fox River corridor a chance to remain in existence.

Sincerely,

Name
