

GLOBAL ENERGY SERVICES

Global Energy is an electricity retailer. We offer businesses a **fresh solution** to the old issue of high-cost energy. Businesses go dark without power. **Global Energy lights a new way**, offering a smart option for buying this essential need.

When power never goes out,  
your monthly savings go up.

Choices now exist when buying electricity. Just as you have more choices when buying a car, energy is now available from multiple sources. As a leading energy retailer, Global Energy proudly offers companies a new way of thinking about energy. We are searching for energy value that has a positive impact on the bottom line.

Global Energy is powering the future for their energy customers.

# A LOWER ELECTRICITY BILL IS JUST ONE OF THE REASONS TO 'SHOP' YOUR ELECTRIC SUPPLY

Business owners now have a choice when it comes to the electricity their company needs every day. Because our state has deregulated, business owners may now decide how and from whom they want to buy their electricity supply. Aside from the local utility who still delivers the power, many competitive providers of energy supply exist, each with different service plans and options. It's all the same power; it's just available to businesses in a new way. **And Global Energy is here to help.**

GLOBAL

ENERGY™

Every business owner wants to be in control of their operational costs. Unfortunately, the priorities of running a business don't always include shopping for the best deals on Energy Supply. That's where Global Energy comes in...

Just like services that help us shop and compare travel prices or insurance plans — Global Energy offers a simple, no-risk way to research the Energy Supply options available today. Global Energy's easy process reviews your current energy rates and the goal of your company's bottom line (such as overall savings or long term price stability).

After processing your information through our network of Global Energy Supply Providers (which include many of the largest in the US) we deliver a customized, risk-free proposal with the best option for your company's power needs. That's it.

Enrollment with the Global Energy provider is safe, easy, private — and completely in the hands of the business owner. Think of Global Energy as your friend in the business — here to help your company uncover the smart choices for managing its energy costs.

1. Complete the short Global Energy Customer Profile to help us better understand your company's cost goals and desired (or recent) monthly electric bill from your company's location.
2. Within a week or so, receive a customized Global Energy proposal showing the Electricity Supply service Provider and plan available to best serve your company's needs.
3. Make the Choice! Enroll in a competitive Energy Provider's service plan and gain control over your company's ever rising energy costs.

**CHECK THIS TASK OFF YOUR LIST.

Powering the Future of Business

## SMART BUSINESS. REAL CHOICES.

Global Energy is an electricity retailer. We offer businesses a **fresh solution** to the old issue of high-cost energy. Businesses go dark without power. **Global Energy lights a new way**, offering a smart option for buying this essential need.

**Choices now exist when buying electricity.** Just as in many other utility industries, Energy is now available from multiple sources in a range of pricing. As an electricity retailer, Global Energy competitively purchases electricity, with access to wholesale pricing. We pass that savings on to our business customers, supported by experience and exceptional customer service. We proudly serve corporate organizations of all sizes **searching for energy value that truly impacts their bottom-line.**

Global Energy is not a utility and doesn't generate electricity, but rather negotiates with numerous electricity suppliers to secure the best pricing. Local utilities continue to carry and manage the energy through their power lines; however the power being delivered is actually purchased in a cost-conscious manner by Global Energy. This retail approach to buying electricity is the key to smart savings for the business user. That savings is paired with our efficiency and knowledge, making us a valuable business partner.

Global Energy is powering the future for their energy

# GLOBAL ENERGY POWERS BOTH.

**SIMPLE.  
STREAMLINED.  
NO COMPLAINTS.**

**Global Energy has streamlined  
the electricity conversion process.**

After evaluating the current energy usage of our business customers, we apply our purchasing capabilities to secure and offer the best new power pricing. The actual energy switch is seamless and unnoticeable to the customer.

**The lights never go out, but the monthly savings go up.**

**customers.**

**Global Supports know they work better together.**

Global Energy is a good neighbor. We strengthen our local communities through our "Global Supports" program. Global Supports first assists our nonprofit customers by helping them pay less on their monthly electric billing. Global Supports then donates a percentage of that organization's monthly bill as a true donation to their fundraising efforts. We care about the lives of our customers, not just their account numbers.
