World Energy Solutions, Inc.
Managerial Experience

World Energy Solutions, Inc. Managerial Licensing Requirements

World Energy Solutions, Inc. has been in business since 1996. World Energy Solutions began offering energy brokering, consulting and procurement services in 2001. Below are the identity of World Energy's Managerial team, along with a short description of their backgrounds demonstrating their managerial capabilities.

Richard M. Domaleski, Chief Executive Officer

Rich is the founder of World Energy and has been the driving force behind the company's vision and sales execution. Recognizing the deregulation of retail energy as a watershed moment in the economy, he was one of the first to develop a solution to exploit this new opportunity. In 1996, Rich co-founded World Energy's predecessor, Oceanside Energy, which became one of the first aggregators to be granted a FERC tariff. Since that time, he has brought together the speed and accessibility of the Internet with a powerful transaction model to create the World Energy Exchange and World Green Exchange, successfully guiding World Energy to a leadership position in the industry.

Philip V. Adams, President and Chief Operating Officer

As President and COO of the Company, Phil oversees all aspects of the firm including corporate strategy, sales, marketing, operations, IT, finance, legal, and human resources functions. Prior to joining World Energy, he was a principal at Go2 Market Momentum, LLC, a consulting firm specializing in growth strategies for emerging companies. Before returning to consulting, Phil held senior executive roles in sales, marketing and product management at several major software and internet companies. Before taking on line management responsibilities, Phil spent 4 years in strategy consulting at Corporate Decisions, a firm that specialized in growth strategies and was subsequently acquired by Mercer Consulting. While there, he managed the consulting team that developed the Lotus Notes growth strategy. Mr. Adams earned a BA in Economics from Williams College and an MS at MIT's Sloan School of Management.

James F. Parslow, Chief Financial Officer

Jim is responsible for the company's financial strategy, as well as its day-to-day accounting operations. He is a Certified Public Accountant in Massachusetts with 20 years of experience serving private and public companies in the alternative energy, biomedical service and products, Internet-based auction services, and high tech manufacturing industries. Prior to joining World Energy, Jim was treasurer and CFO of Spire Corporation. He has also served as an independent financial consultant, as controller of Fairmarket, Inc. (now Dynabazaar, Inc.); and as vice president of finance and administration at Thermo Power Corporation. Jim earned an MBA with a concentration in Finance from Bentley College.

Robert J. Hartwell, Chief Information Officer

Rob is responsible for the company's overall IT strategy and is the chief architect of the World Energy Exchange platform. Rob brings over 17 years experience designing and developing software solutions for businesses ranging from internet startups to fortune 1000 companies. Before joining World Energy, Rob was the founder and principal of Fusion Consulting, Inc. a technology company specializing in custom business solutions leveraging internet technologies. Before starting Fusion, Rob led engagements for several leading technology consulting companies. In addition to his extensive consulting experience, Rob worked for 7 years in the nuclear power industry where he led the progressive advancement of IT. Rob holds a BS in Management Information Systems and Business from Salisbury University

Andrew J. Thomas, Senior Vice President, Environmental and Wholesale Operations

Andrew is responsible for leading operations for the company's growing renewable energy, environmental and wholesale power lines of business. He brings a breadth of experience to this role, having served as vice president across retail operations and business development capacities throughout World Energy's growth. Andrew is a veteran manager in the deregulated energy industry and has been involved in the competitive electricity markets since the first state opened in 1996. Prior to joining World Energy in 2002, Andrew was with XENERGY (now KEMA Consulting), where he was a key team member in contracting the first competitively sold kWh in the country. Andrew holds an MBA with a focus on eBusiness from Cornell University and a BS in Mechanical Engineering from Union College.

Daniel P. Pugh, Vice President of Supply Management

Dan Pugh is Vice President of Supply Management for World Energy's commercial and industrial business. He is responsible for all new and existing supplier relationships, customer-specific energy purchasing and daily operational processes to manage all supply contracts. Dan has 15 years of experience in the energy industry, providing natural gas marketing and management services for large end users. Dan's experience includes major account procurement, contracting, transportation, risk management and storage arbitrage. Dan was an Energy Trader for AEP Energy Services for two years and prior to that was Market Coordinator with Enron Energy Services. Dan graduated Magna Cum Laude with a Bachelor's degree in Business Administration from The Ohio State University.

Dave Laipple, Vice President of Sales and Operations

Dave Laipple is Vice President of Sales and Operations for World Energy's commercial and industrial business. He is responsible for leading World Energy's national sales efforts, as well as targeting and developing strategic partnerships. Dave has more than 24 years of sales and sales management experience and has spent the past 15 years in the energy industry. Prior to joining World Energy, Dave served in several regional and national sales leadership roles with Enron and more recently served as VP of Sales for Accent Energy. Dave holds a BA in Business Administration from Capital University and an MBA from the University of Dayton.
