

**ICC Docket No. 09-0313**  
**AT&T Communications of Illinois, Inc.**  
**Exhibit 1.0**  
**Lawrence J. Bax Direct Testimony**

**Schedule LJB-F**

**3. Service Description**

**3.1 Local Exchange Service:**

3.1.1 General

Local Exchange Service consists of the services offered pursuant to this tariff, either individually or in combination. Each service is offered independent of the others and is offered via the Company's own or resold facilities for the transmission of communications, unless otherwise noted.

Local Exchange Service provides a customer with a connection to the Company's switching network which enables the customer to:

- A. place or receive calls to and from any calling station in the local calling area, as defined herein;
- B. access interLATA, intraLATA, interstate or international calling services provided by the company;
- C. access (at no additional charge) the Company's operators for service-related assistance; access toll-free telecommunications services such as 800/888 NPA; and access 9-1-1 service for emergency calling;
- D. access directory assistance services for the local calling area; and
- E. access Telephone Relay Service;
- F. access to per-call blocking, by dialing \*67 the user will prevent their name and number from being provided to the called party.

Local Exchange Services cannot be used to originate calls to caller-paid information services (e.g., 900, 976) provided by other companies. Calls to those numbers and other numbers used for caller-paid information services will be blocked by the Company's switch.

Local exchange services provide a Customer with analog, voice-grade telephonic communications channels that can be used to place or receive one call at a time. Lines are provided for the connection of Customer-provided wiring, telephone, facsimile machines or other station equipment. Local exchange service lines and trunks are provided on a single party (individual) basis only. No multi-party lines are provided.

Recurring charges for are billed monthly in advance. Non-recurring charges for usage and installation or rearrangement of service, as applicable, are billed on the next month's bill.

A one-time set up fee per account may apply.

**3. Service Description, (Cont'd.)**

**3.1 Local Exchange Service, (Cont'd.)**

**3.1.2 Service Connection Charge**

The Service Connection Charge is a nonrecurring charge which may apply to the following:

- A. The installation of a new service;
- B. The transfer of an existing service to a different location;
- C. A change from one rate plan or feature package to another; or
- D. Restoration of service after suspension or termination for nonpayment.

<u>Type of Charge</u>	<u>Amount</u>		(N)
	<u>SBC Areas</u>	<u>Verizon Areas</u>	
1. Service Fee	\$5.00	\$5.00	- - - - -
2. Line Charge (new service)	\$45.00 (I)	\$22.00	
3. Line Rearrangement	\$30.50	\$30.50	
4. Change Telephone Number	\$30.50	\$30.50	
5. Record Change Fee	\$4.00	\$4.00	
6. Late Payment Charge – All Services on an unpaid live balance	1.5%	1.5%	
7. Returned Check Charge	\$35.00	\$35.00	
8. Reconnection of Service (for non-payment)	\$30.50	\$30.50	
10. Dispatch of technician for move, add, change, or maintenance activity	\$50.00/ hr. plus*	\$50.00/ hr. plus*	
	\$95.00 dispatch charge	\$95.00 dispatch charge	

Explanations:

- 1. Any service change not covered by identified NRC.
- 2. Charge to establish new service.
- 3. Conversion to a different Rate Plan.
- 4. Existing subscriber request for a different number.
- 5. Listing change fee.
- 6. As stated.
- 7. As stated.
- 8. As stated.
- 9. As stated.
- 10. Applies, in addition to all other charges for the visit, when a visit to the Customer's premises is necessary to move, add, change, or install service, or to isolate a problem reported to the Company which cannot be handled remotely. This charge also applies when the Customer fails to meet the Company agent or employees for the prearrangement appointment as requested.

\*Does not apply if the customer has the Company's Inside Wire Maintenance Plan.

**3. Service Description, (Cont'd.)**

**3.1 Local Exchange Service, (Cont'd.)**

**3.1.4 Corporate Advantage Standard Business Local Exchange Service**

**(T)**

Corporate Advantage Standard Business Local Exchange Service provides Corporate Advantage business account Customers with analog, voice-grade telephonic communications channels that can be used to place or receive one call at a time. A Corporate Advantage business account is defined by BullsEye as a multi-location business account that has a main location and account set-up in another state, but has service locations within the state of Illinois.

**(T)**

Lines are provided for the connection of Customer-provided wiring, telephone, facsimile machines or other station equipment. Trunks are available for the connection of Customer provided private branch exchanges (PBX) or other station equipment to the switched telecommunications network.] Intrastate and interstate direct dial outbound and inbound toll and long distance calling is available as an option.

Service is offered only on a contract basis with a minimum term of one (1) year, unless otherwise stated.

**(T)**

**(T)**

A Minimum Usage Commitment (MUC) may apply to specific Corporate Advantage services. A MUC requires a per line minimum which, if not met, will result in billing at the MUC level. The MUC is as stated below, unless otherwise specified in the Corporate Advantage Customer contract.

**(N)**

|

|

**3. Service Description, (Cont'd.)**

**3.3 Custom Features**

Custom Features are furnished to enable the Customer to enhance his basic telephone service. The facilities and equipment for these services are in the central office and service is furnished subject to the availability of these facilities.

Selected features are available to all local exchange Customers on a per transaction basis. Customers may utilize each feature by dialing the appropriate access code. The Customer will be billed a per transaction charge each time the feature is used by the Customer. Customers choosing to subscribe to these features on a monthly basis obtain unlimited use of these features for a fixed monthly charge.

3-Way Calling

Allows Customer to talk with two people, at two different numbers, at the same time. Customers also may place one caller on hold while talking privately to someone else at another location, and then return to the original call.

Repeat Dialing

Allows a Customer, when encountering a busy signal, to dial an access code to activate an automatic retrial of the busy number until both lines are idle.

Call Forwarding

Calls may be forwarded from the user's number to another telephone number/location.

Call Forward No Answer

Automatically routes incoming calls to a predetermined telephone number when the called line does not answer within a pre-specified number of rings.

Call Forward Busy

Automatically routes incoming calls to a predetermined telephone number when the called line is busy.

Call Forwarding Busy No Answer – Variable

Allows Customers to have incoming calls transferred to a Customer selected telephone numbers when their telephone is busy or not answered.

Select Call Forwarding

Allows the Customer to prespecify telephone numbers from which calls are to be forwarded.

Caller Identification/(Caller ID) with Name

This feature provides for the display of an incoming telephone number on Caller ID Compatible Customer Premises Equipment. The Company will deliver all numbers, including telephone numbers associated with non-published and non-listed service. If the incoming call is from a caller served by PBX, multi-line hunt group, Centrex or Star Ring Service, the telephone number transmitted will be the main number.

**3. Service Description, (Cont'd.)**

**3.3 Custom Features, (Cont'd.)**

Caller Originating Trace

Allows the customer to dial a Call Trace activation code to initiate trace of the last incoming call without obtaining prior legal authorization or assistance from the Company. The results of a completed trace will be recorded in the customer's serving Central Office and will be made available only to law enforcement agencies, as directed by the Customer. A trace is considered complete when the number of the calling party is successfully recorded by the Customer's serving Central Office. The Customer will hear a pre-recorded announcement reporting that the trace was successful. A trace may only be performed within an area capable of transmitting the calling number information to the Customer's serving Central Office.

Auto Call Back

This service enables users to automatically call back the last incoming call, whether it was answered or not. This service will verbally tell the number of the party who last called the Customer, and will give the user an opportunity to press "1" to call that number.

Call Waiting

Allows the user to answer a call while already on a call, helping the Customer to avoid missing important calls. Users may also choose to cancel call waiting to prevent interruptions during a call.

Call Screening /Call Block

Helps users to avoid talking to certain people by allowing a maximum of 12 selected numbers to be automatically rejected. Incoming calls on the rejection list are routed to a polite announcement informing the caller that the user is not accepting calls at this time.

(T)

Do Not Disturb

Allows the Customer to select specific telephone numbers from which calls are to be received. All other calls are routed to a recorded announcement.

(N)

Priority Call

Allows the Customer to program up to twelve (12) telephone numbers of selected callers to enable the Customer to distinguish certain incoming calls from others by a distinctive ring tone.

(N)

**3. Service Description, (Cont'd.)**

**3.3 Custom Features, (Cont'd.)**

Speed Calling 8

Allows the Customer to dial an abbreviated code to originate a call to any of 8 programmed telephone numbers.

Speed Calling 30

Allows the Customer to dial an abbreviated code to originate a call to any of 30 programmed telephone numbers.

Easy Call

Automatic dialing of a dialable telephone number consisting of seven (7) or more digits in the event that the Customer's line is taken off-hook and dialing does not commence within a Company determined interval, usually seven (7) seconds.

Multi Ring Service

Provides the Customer with two (2) separate telephone numbers, each with a distinctive ring, associated with one line.

Multi Ring 2<sup>nd</sup> Number

Provides the Customer with three (3) separate telephone numbers, each with a distinctive ring, associated with one line.

Privacy Manager

Intercepts calls that are marked "private," "out of area," or "unavailable" on Caller ID units. Unidentified callers will receive an announcement that the party being called does not accept calls from unidentified callers and will receive a prompt to identify themselves, Subscriber will be notified of identity of caller and have the option to accept or deny the call.
