*Yes, This complaint has been going on for 2 yrs. Comed changed the meter on the building. When that happened the new meter was clearly running slower than original. Also the first bill I got after having new meter was over a 130.00 less. 4-17-08 is when they changed it. The bill to them is behind right now, because they keep giving me the run around about the records and what the meter said to me about a 3000.00 refund when this all started. It has taken this long to figure this out and it still isn't and they refuse to admit anything was wrong. I've called and left messages to them and they don't call back. They just threaten to turn off the electric. I also think there is something wrong with my service. My bill never really goes down. Please clearly state what you want the Commission to do in this case: No matter how I conserve. Get them to refund some money to my account.*
