ARTICLE I RECITALS.

The parties acknowledge that the statements and representations made in the foregoing recitals are true and correct, and they hereby incorporate such recitals and all exhibits referenced therein into this Agreement as if fully set forth in this Article I.

ARTICLE II BACKGROUND.

2.0 Emergency Telephone System Act. The Will County 9-1-1 Emergency Telephone System and the Will County 9-1-1 Emergency Telephone System Board (collectively referred to as "Will County 9-1-1") is an emergency telephone system generally governed by the provisions of Emergency Telephone System Act (50 ILCS 750/0.01 et. seq.) and the Wireless Emergency Telephone System Act (50 ILCS 751/1 et. seq.), (hereinafter collectively referred to as the "Act" or "Acts") Will County 9-1-1 is a countywide system. Under the Act, the corporate authorities of the County of Will established an emergency telephone system, as authorized with referendum approval, to impose a monthly surcharge on the billed subscribers of the network connection telecommunications carriers (50 ILCS 750/15.3). Such powers were expanded by the Wireless Emergency Telephone System Act (50 ILCS 751/1). On August 17, 1989, the Will County Board approved Executive Committee Resolution No. 89-213 establishing the 9-1-1 Emergency Telephone System Board which was charged with the responsibility of operating the system under Section 15.4 of the Act (50 ILCS 750/15.4), including the appointment of an ETS Board with the responsibility for coordinating and supervising the implementation and operation of the Emergency Telephone System, for directing the expenditure of surcharge monies which

are held in the ETS fund and for such other and further duties as prescribed by the statute (50 ILCS 750/15.4(b)). See Exhibit "B" which is attached hereto and made a part hereof. As prescribed by the Act, the Will County Executive with the advice and consent of the Will County Board appointed ETS Board Members to the Board consistent with his responsibilities under 15.4(a). In the event Will County 9-1-1 elects to increase its surcharges under the Emergency Telephone System Act or under the Wireless Emergency Telephone System Act in an amount equal to or in excess of ninety (.90) cents, Will County 9-1-1 will no longer have an obligation to maintain a separate account of funds collected on behalf of Bolingbrook subscribers as provided herein.

**NARRATIVE STATEMENT**  
**WILL COUNTY 9-1-1 EMERGENCY TELEPHONE SYSTEM**

The Will County 9-1-1 Emergency Telephone System was authorized by the Illinois Commerce Commission on August 8, 1992. Today, the Will County 9-1-1 System consists of seven (7) PSAPs strategically located around the County. The PSAPs provide emergency 9-1-1 dispatch services for fifty-three (53) fire and police agencies. In 2009, a total of 327,778 emergency 9-1-1 calls were received in the System. Covering more than 837 square miles with a population of 681,097 the 9-1-1 System receives calls from more than 225,000 network access lines with an overall database error ratio for the system computed to be 0.0% by AT&T Global Services. This makes the Will County 9-1-1 System the largest in the State of Illinois, outside the City of Chicago.

**BOLINGBROK PSAP**

The 9-1-1 PSAP and Dispatch Center for the Village of Bolingbrook is located in the Police Department at 375 Briarcliff Road in Bolingbrook, Illinois. Last year the busy center handled over 100,000 telephone calls with more than 65,000 calls being for emergency service from the Bolingbrook Police and Fire Departments.

The Village of Bolingbrook, like most of Will County, has experienced a rapid increase in population over the last ten years going from 54,762 to more than 70,077 or a 29% increase in residents. This significant increase in population, in a depressed economy, has had a serious impact on emergency dispatch capabilities requiring the agency to do more with less in dispatching more than 133 calls per day.

**AGREEMENT TO COMBINE ETSB's**

When the Will County 9-1-1 System was formed 17 years ago, the only community in the County that chose to remain outside the system and operate on its own was the Village of Bolingbrook. After several years of discussion and planning an agreement to combine the Will County 9-1-1 ETSB and the Bolingbrook 9-1-1 ETSB has been realized.

To this end, an Intergovernmental Communications Agreement Combining the Village of Bolingbrook ETSB with the Will County 9-1-1 ETSB had been passed by the Will County Board, The Will County ETSB, and the Village of Bolingbrook. The Agreement outlines appointment of members to the ETSB, roles and responsibilities of the ETSB, collection of surcharges, and the scope of PSAP responsibilities of a joint Emergency Telephone System Board in conformance with the Emergency Telephone System Act and the Wireless Emergency Telephone Safety Act subject to the approval of the Illinois Commerce Commission.

**WILL COUNTY ICC PLAN MODIFICATION**

Intended to comply with the terms and provisions of "An Act in relation to the designation of an emergency telephone number for use throughout the State", the Will County 9-1-1 ETSB has filed an application to the Chief Clerk of the Illinois Commerce Commission, for a plan modification to add the Village of Bolingbrook and the Bolingbrook PSAP to the existing Will County 9-1-1 System.

The Illinois Commerce Commission filing includes; the Petition requesting approval of the modification and verification of the petitions signatures, the signed and sealed resolution from the County Board, General Information and this narrative description, along with exhibits describing the system, its participants and adjoining communities.

To the best of their abilities the Village of Bolingbrook and the County of Will have submitted the plan modification to the Illinois Commerce Commission requesting an order approving the combining of the Village of Bolingbrook ETSB with the Will County 9-1-1 ETSB and the authority to implement the program as outlined.
