*Verified Response
 to AGJ Ruling*

Dear Ms. Rolando:

This letter is in response to an electronic mail request (dated 3/29/2010) for further clarification of technical expertise in the electric marketplace for Santanna Natural Gas Corporation d/b/a Santanna Energy Services (for our application for an ABC license). Santanna Natural Gas Corporation d/b/a Santanna Energy Services was granted Certification as an Alternative Gas Supplier on November 7, 2002 in docket no. 02-0441. The docket number for the current ABC license application is **09-0597**.

The email (enclosed) requested details of the duration of experience in the electric marketplace for Gregory Rabaey, and a clear statement regarding whether Gregory procured/attempted to sell electric power and energy. It further requested the duration of Gregory's contract management experience, and the nature and types of the contracts that he managed.

In response to this request Santanna would like to present the following supplemental information to clearly show that Santanna has the required technical experience as required by Section 454.70:

Gregory Rabaey has more than 10 years of experience in the IL electric market place beginning in Mar 2000. This experience includes electric tariff and rate analysis, developing broker sales channels, working with ARES, and selling electric products via a broker sales arrangement. Gregory Rabaey has more than 10 years of experience in the IL market in electric contract management, since March of 2000. This experience includes electric end user contracts, and both fixed price and market price contracts. With contract terms varying from monthly, annually and multi-year agreements.

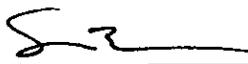

If you have any questions regarding this matter or need additional information, please do not hesitate to contact me.

Sincerely,

Shannon Teer, Gas Operations Team Leader

Subject: RE: Docket 09-0597 - Response to Administrative Law Judge's Ruling

Ms. Teer,

I have received the Engineering Departments response to your additional information you provided, and they are still looking for some additional information. Here is the information I received:

Santanna Energy Services States that Gregory Rabaey has demonstrated technical expertise in the electric market place. Santanna does not state the duration of such experience (month, year.) Santanna does not state clearly if Gregory procured/attempted to procure or/and sold or attempted to sell electric power and energy. Santanna also indicates that Gregory has a contract management experience, but Santanna does not specify the duration of such experience. In addition, Santanna does not specify the nature and the types (electric/gas) of the contracts that Gregory managed. Therefore, Santanna failed to demonstrate that it has the required technical experience as required by Section 454.70.

My suggestion would be that if possible, Santanna file a supplemental response addressing the concerns above by this Friday, and we can go from there. My alternative otherwise would be to issue a Proposed Order denying the Application. Please let me know how Santanna would like to proceed. Thank you.
