Mr. Bass has 20 years experience in the energy delivery business. His knowledge of the energy business is drawn from his direct experience with retail power operations in California, metering operations, meter data acquisition and system implementation, customer enrollments, project management, demand-side management program development, power procurement, contract administration, and customer service.

For the past 10-years, Mr. Bass was instrumental in building the operations and nation-wide reach of Noble Americas Energy Solutions LLC (F/K/A Sempra Energy Solutions LLC) (NAES). This included obtaining more than a dozen state retail power licenses, import and export permits for power and natural gas, and obtaining certification behind more than 55 utility distribution companies. Prior to his work at NAES, his most recent experience was obtained while working for Southern California Edison's ESP Services Division as an account manager for such notable ESPs as Arizona Public Service Energy Services, Enron Energy Services, New West Energy, AES/New Energy and other predominant California retail power providers. His knowledge and experience is also derived from his past work in the regulatory arena for both PacifiCorp and Southern California Edison.
