Re: Claim Number GCED2010214997

Dear Mr. Skelton:

Your claim was submitted to the ComEd Claims Department Review Committee for further evaluation. We have reviewed the facts of your clients claim regarding problems on January 16, 2010.

Our investigation has revealed that a cable failure was responsible for the events that followed. The fact that such occurrences can happen is one reason why ComEd's tariff, as approved by the Illinois Commerce Commission, states, in part, "The Company shall not be responsible in damages for any failure to supply electricity, or for interruption, or reversal of the supply, if such failure, interruption, or reversal is without willful default or negligence on its part, nor for interruptions by under frequency relays or otherwise, to preserve the integrity of the Company's system or interconnected systems."

Therefore, we must respectfully deny your claim.

On behalf of the Review Committee, we apologize for any inconvenience you may have experienced.

Sincerely,

Mary Calabria

ComEd Claims Department Review Committee
