

Attachment B

William Brudenell, President of Commercial Energy Solutions (CES), possesses the technical expertise of the electrical industry. Currently, CES works with a licensed broker to offer retail electricity and gas supply for third parties.

As the owner of Live Green Properties, Mr. Brudenell was a licensed General Contractor in Texas through the Texas Residential Construction Commission (TRCC). His company's license number was 33458. During this time, Mr. Brudenell either supervised and/or performed all electrical work done on residential and commercial custom builds and/or remodels.

In addition, Mr. Brudenell specialized in solar electric for homes and small commercial properties. He has personally installed 12 solar systems on roofs and ground mounts.

Mr. Brudenell is LEED GA accredited by the Green Building Certification Institute, #10653565.

Mr. Brudenell has completed additional professional education courses and seminars, including:

Midwest Renewable Energy Association: Basic Photovoltaic, Intermediate Photovoltaic, PV Site Assessor Training, PV Design and Installation Lab

Solar Energy International: Photovoltaic Design Certificate of Completion
