Demonstration of Technical Qualifications

Public Power[®], LLC. Residential & Commercial Energy Supplier

TECHNICAL FITNESS

Public Power of Illinois, LLC ("Public Power") has the requisite managerial and technical expertise required to serve all retail customers in Illinois.

The Public Power staff consists of highly qualified executives whom manage and facilitate individuals and are accountable for all functions. Public Power's staff is responsible for power purchasing, scheduling, settlement, renewable energy credits, pricing, risk management, billing, tax filings, regulatory filings, and customer service.

Public Power's operations, finance, and customer service departments have been operating in the ISO-New England deregulated market since 2007. Public Power currently manages a portfolio exceeding 50,000 residential, small-commercial, and large-commercial customers.

Along with providing excellent customer service, a top priority is to maintain compliance with the Illinois Commerce Commission rules and regulations, as well as the market and utility protocols. Our personnel have attended supplier training programs to ensure these standards are met.

Public Power uses a well-known third-party EDI-integrated billing provider, **EC Infosystems**, located in Garden City, New York, to manage both market and utility transactions.

Public Power is able to be contacted on a 24-hour basis daily using the following contact information:

Contact Name: **Vjollca Jusufi, COO**
Telephone Number: **203-417-8097**
Fax Number: **203-739-0551**
E-mail: **vjollca.jusufi@ppandu.com**

Public Power possesses technical resources and abilities to successfully provide service to its customers. In addition to the EDI-integrated billing system provided by **EC Infosystems**, Public Power manages its records utilizing a database accessible by personnel in order to provide quality customer service and conduct organized business functions.

Public Power is currently authorized to market and serve in Connecticut, Maryland, Massachusetts, New Jersey, New York, Ohio, and Pennsylvania, and actively serves nearly 100,000 residential, small-commercial, and large-commercial customers.
