

Section 454.70: Technical licensing Qualification

Attachment 3  
Exhibit A

**Cedric Everett**

After graduating from the University Of Illinois at Chicago with a B.S. in Electrical Engineering in 1992 Mr. Everett worked for Northern Indiana Public Service Co in various roles. Starting in distribution engineering then industrial account management and became the manager of the service business where he was responsible for an organization of approximately 100 employees.

As an account manager he was responsible for providing electric and natural gas commodities and engineering solutions to large industrial and commercial customers. Physical and commodity projects included lighting retrofits, electric substation installation, natural gas regulator station installation. Energy procurement projects included electric procurement and natural gas procurement contracts. Demand side energy conservation projects and energy budgeting and forecasting and energy management master planning.

Mr. Everett founded NU-Day Energy LLC in 2006 where he presently serves as managing member. In this role Mr. Everett serves as an energy consultant for both demand side and supply side energy solutions. Further developing and offering energy management solutions including providing US DOE Energy Star application and benchmark analysis. Mr. Everett is a Certified Energy Manager with credentials from the Association of Energy Engineers. He has held the Certified Energy Manager credentials since 2003. Mr. Everett has extensive experience negotiating energy contracts between suppliers and energy end users.

See Certified Energy Manager credentials attached.
