

Federal Universal Service High-Cost Support

STATE OF ILLINOIS)
) SS
COUNTY OF ADAMS)

AFFIDAVIT

I, James W. Broemmer, Jr., being first duly sworn, depose and state that:

1. I am employed by and an officer of Adams Telephone Co-Operative, and that I am authorized by Adams Telephone Co-Operative to execute this Affidavit.

2. I certify that Adams Telephone Co-Operative receives federal universal service high-cost support.

3. I further certify that such support will be used only for the provision, maintenance, and upgrading of facilities and services for which the support is intended, consistent with 47 U.S.C. § 254(e).

Further affiant sayeth not.

Signature

Subscribed and sworn to me

Notary Public

My Commission Expires:

AVERAGE SCHEDULE COMPANY DOCUMENTATION

TO: Illinois Commerce Commission
FROM: Adams Telephone Co-Operative
DATE: July 30, 2009

The Company serves the following exchanges in Illinois and serves 3,758 access lines:

Augusta, Chambersburg, Coatsburg/Paloma, Fishhook, Golden, Hersman, Lima, Loraine, Mendon, Mindale, Meyer, Plymouth, Ursa

The Company has experienced a decrease of 135 access lines over the last year.

Average schedule formulas for High Cost Loop Support (HCLS) and Local Switching Support (LSS) are developed by the National Exchange Carrier Association annually, and submitted to the Federal Communications Commission (FCC) for approval based on an analysis of a national sample of cost study companies. Thus, the average schedule formulas for HCLS and LSS are calculated based on investments and expenses already incurred, and support received from these sources has been used for the purposes intended. Likewise, safety net and safety valve support is received only after a rural Incumbent Local Exchange Company has incurred additional investment and/or expense. By virtue of the safety net and safety valve support calculations, this support also is used for the purposes for which it is intended.

The Company maintains substantial investments in switching and distribution plant to provide the USF supported services required by the FCC and the Illinois Commerce Commission. The Company has made investments necessary to respond to customer requests for service at new locations, to replace plant as needed to maintain quality service, and to enhance switching capabilities to meet regulatory requirements and customers' demands for service. The Company also expends funds to maintain these facilities.

By: 
James W. Broemmer, Jr.
CEO
July 30, 2009

If the eligible carrier is a rural “average schedule” incumbent local exchange company, in addition to the foregoing statement, it shall provide the following documentation:

- a) A copy of the latest available National Exchange Carrier Association Average Schedule Universal Service Support Projections for estimated high cost loop support and estimated local switching support.¹

Response: Attached

- b) A copy of documentation regarding Safety Net and Safety Valve amounts to be received in 2009 if the Company will receive such funds.

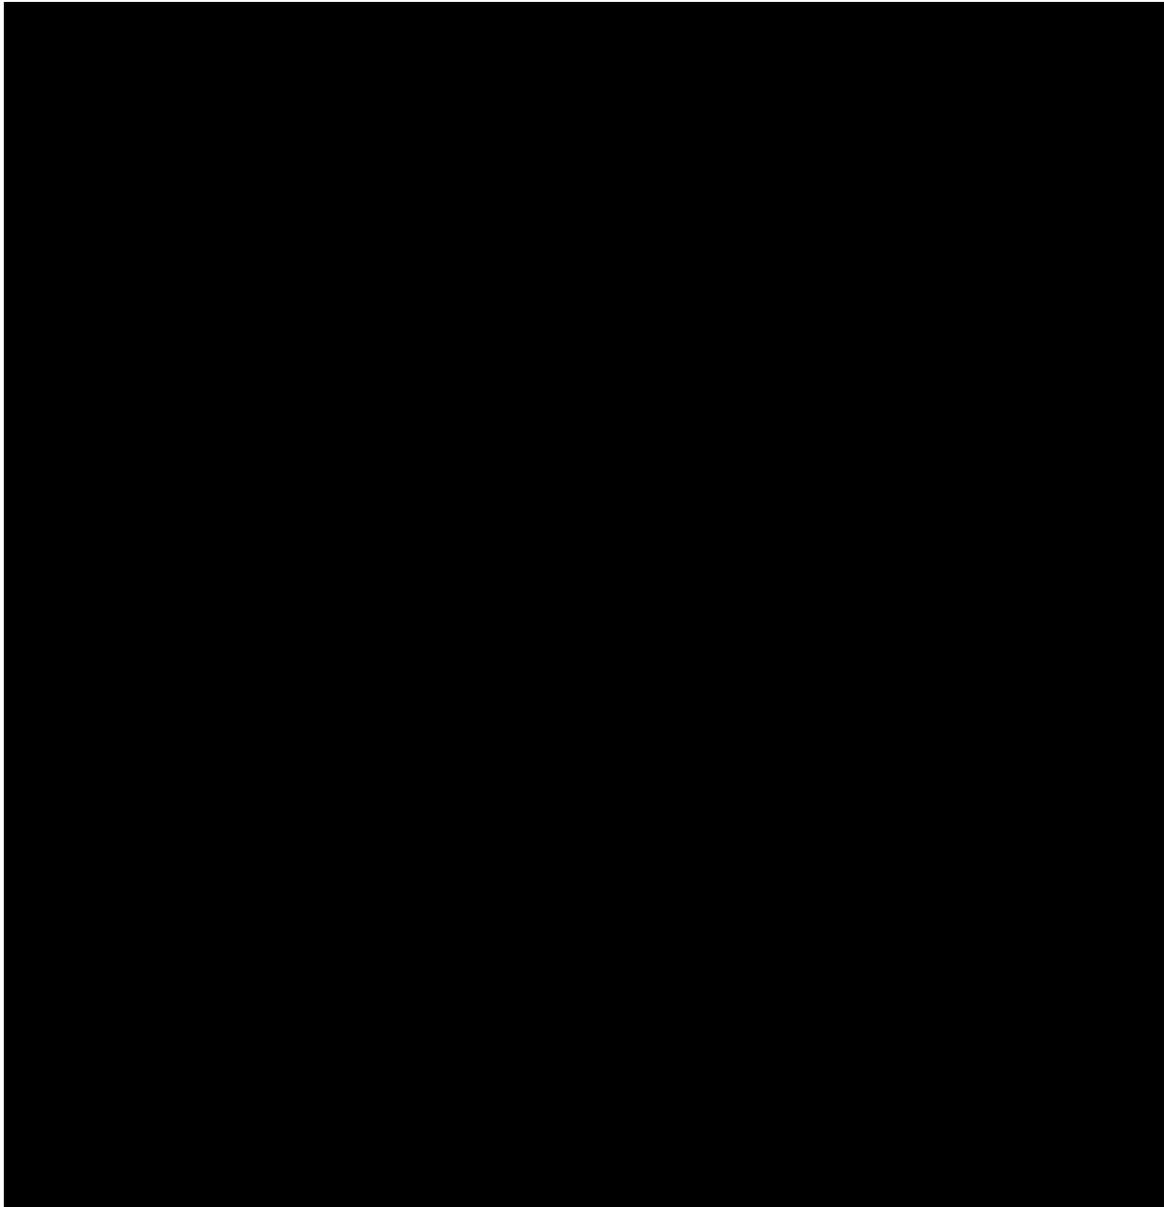

Response: None Received

- c) Amount of IUSF to be received in 2009 if the Company will receive such funds.

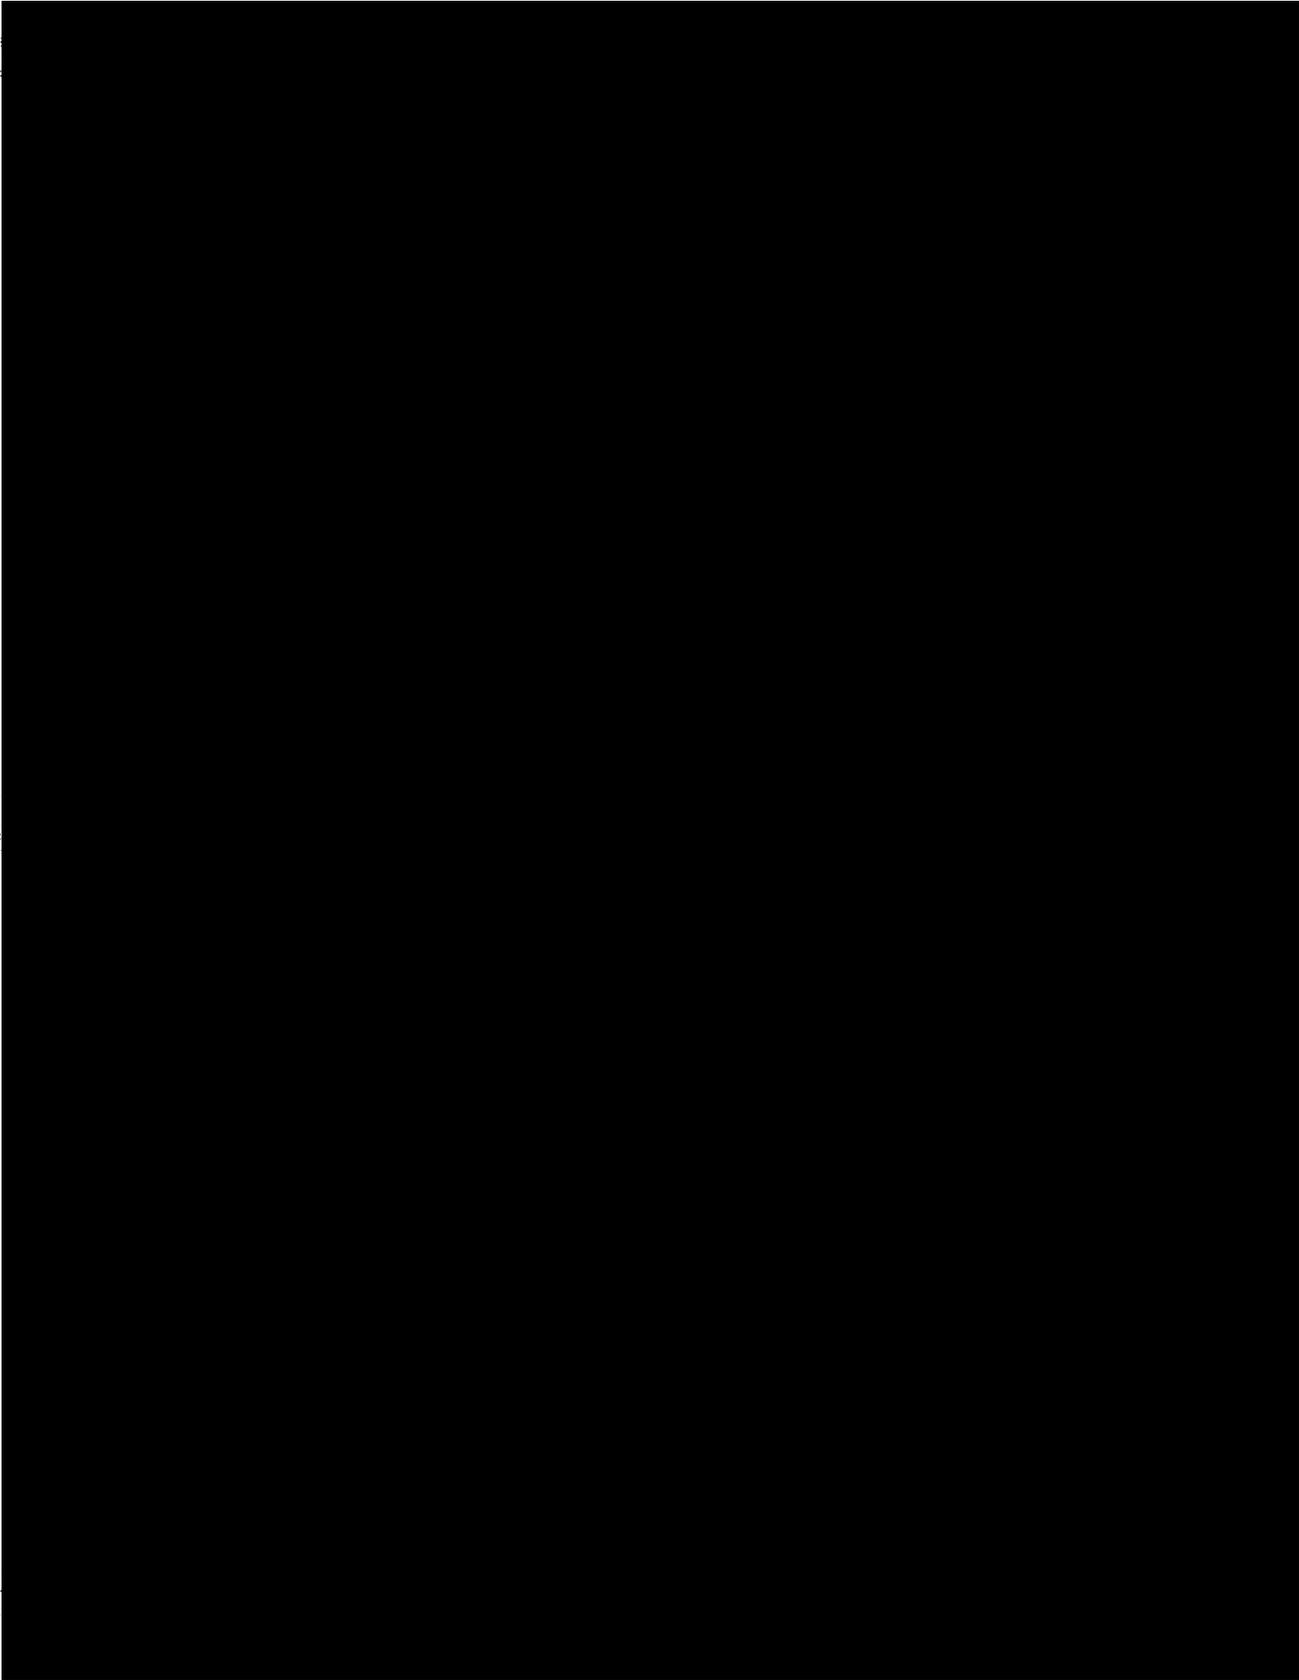

Response: None Received

¹ National Exchange Carrier Association provides average schedule companies high cost loop support and local switching support projections for the following year’s estimated support during September or October of the current year, thus the latest documentation available at the time of this certification filing is the estimated amounts for the current year. For HCL the data is contained in an October, 2008 letter with an attachment titled “Universal Service Fund, Expense Adjustment Projection for 2009”. For the LSS data the form is an attachment to a letter that is titled “Data NECA intends to provide USAC for 2009 Local Switching Support Projection.” Normally, the changes in support for average schedules companies from year to year are relatively minor.
