PROPRIETARY

PROPRIETARY

¹¹ National Exchange Carrier Association provides average schedule companies high cost loop support and local switching support projections for the following year's estimated support during September or October of the current year, thus the latest documentation available at the time of this certification filing is the estimated amounts for the current year. For HCL the data is contained in an October, 2008 letter with an attachment titled "Universal Service Fund, Expense Adjustment Projection for 2009". For the ISS data the form is an attachment to a letter that is titled "Data NEXA intends to provide USAC for 2009 Local Switching Support Projections." Generally, the changes in support for average schedule companies from year to year are relatively minor.
