Duration performed above duties: 2006 to Present.

*Mr. Millard has at least one year of scheduling experience working for an entity that is a member of PJM and a market participant in the Midwest ISO.*

Relevant Occupational Experience: Supervisor, Trading for AEM.

Description of Duties Personally Responsible for in above Role:  
Mr. Millard has worked on power trading desks since 2000, and has performed power scheduling duties to support numerous trading portfolios

Duration performed above duties: 5 years

*Mr. Millard has two years of technical operational experience working for an entity that is a market participant in the Midwest ISO and PJM.*

Relevant Occupational Experience: Managing Supervisor, Trading AEM

Description of Duties Personally Responsible for in above Role:  
Mr. Millard has purchased and sold power and energy in MISO and PJM since both RTOs were installed in Illinois (2005 and 2004 respectively). Prior to MISO and PJM implementation, Mr. Millard traded power in physical bilateral markets with wholesale customers throughout the Midwestern U.S.

Duration performed above duties: 5 years

*Additional biographical information:*

Mr. Millard joined AEM in his current role in 2006. In prior experience at Ameren, Mr Millard performed trading and economic optimization duties in MISO and PJM markets. Mr Millard received a BS/BA in Economics & Finance from Rochurst University in 1997 and an MBA from Southern Illinois University in 2009.

**ERIC V. SEIDLER**  
Manager, Trading Operations

*Mr. Seidler has at least four years' experience buying and selling power and energy in wholesale markets.*

Relevant Occupational Experience: Manager, Trading Operations, AEM

Description of Duties Personally Responsible for in above Role: Mr. Seidler has been responsible for managing the optimization, dispatch and market interface for AEM's non-rate-regulated generating assets required to sell and purchase energy in wholesale markets in PJM and MISO.

Duration performed above duties: 5 years

*Mr. Seidler has at least one year of scheduling experience working for an entity that is a member of PJM and a market participant in the Midwest ISO.*

Relevant Occupational Experience: Manager, Trading Operations, AEM

Description of Duties Personally Responsible for in above Role:  
Mr. Seidler is responsible for AEM's operations in PJM and MISO. These duties include generation and customer load scheduling, generation unit commitment, real-time dispatch, interface with MISO and PJM personnel, regulatory filings for PJM and MISO and financial settlements.

Duration performed above duties: 5 years

*Mr. Seidler has served as a certified NERC system operator.*

Relevant Occupational Experience: Dispatch Operator, Ameren

Description of Duties Personally Responsible for in above Role: Mr. Seidler served as a NERC Certified System Operator for all of Ameren's Control Areas, where he directed the daily operation of Ameren's generation dispatch, interchange scheduling, and high voltage transmission system operation.

Duration performed above duties: From 2000 to 2006.

*Additional biographical information:*

Mr. Seidler joined Ameren Energy Marketing in August of 2006. He holds a BS in electrical engineering from the University of Missouri – Rolla.

**JINNA HOPSON**  
Power Scheduler II

*Ms. Hopson has at least one year of scheduling experience working for Ameren Energy Marketing, an entity that is both a member of PJM and a market participant in the Midwest ISO.*

Relevant Occupational Experience: Power Scheduler II for AEM

Description of Duties Personally Responsible for in above Role: Ms. Hopson has performed power scheduling duties for AEM's participation in retail and wholesale markets in PJM and MISO. Her responsibilities include managing AEM's daily financial trading and delivery obligations, transmission tagging and scheduling procedures.

Duration performed above duties: 2007 to Present

*Additional biographical information:*

Ms. Hopson has seven years of relevant energy marketing experience with the front office, primarily related to scheduling power deliveries in multiple Illinois control areas. She earned her BS in business, finance, and economics from University of Missouri – St. Louis.
