

Major **Description**

101 **Electric & Gas Plant in Service**

This account shall include the original cost of plant owned and used in utility operations. Entries will not be made directly to Account 101, but will be the accumulation of transactions to Accounts 301-399, with appropriate transaction code as shown below.

Balance beginning of year (Plant accounts 301-399)
Additions - current year (Plant accounts 301-399)
Retirements - current year (Plant accounts 301-399)

102 **Electric & Gas Plant Purchased or Sold**

This account shall be charged with the cost of plant acquired as an operating unit or system and credited with the selling price of property sold.

105 **Electric & Gas Plant Held For Future Use**

This account shall include the original cost of plant owned and held for future use in utility service.

106 **Completed Construction not Classified - Electric & Gas**

This account shall include the total of the balances of work orders for plant which has been completed and placed in service but which work orders have not been classified for transfer to the detailed plant accounts.

107 **Construction Work in Progress - Electric & Gas**

This account shall include the total of the work order balances for plant under construction. Entries will not be made directly to account 107, but will instead be the accumulation of transactions to accounts 301-399, with appropriate transaction code as shown below

108 **Accumulated Provision for Depreciation of Electric & Gas Utility Plant**

This account shall be credited with the depreciation expense applicable to the various property accounts; upon retirement, it shall be charged with the original cost of the property retired and the cost of removal, and shall be credited with the salvage value and any other amounts received. Entries will not normally be made directly to account 108, but will instead be the accumulation of transactions to accounts 301-399, with appropriate transaction code as shown.

Balance Beginning of Year (Plant accounts 301-399)
Salvage (Plant accounts 301-399)
Removal Costs (Plant accounts 301-399)
Provision for depreciation (Plant accounts 301-399)
Miscellaneous items (Plant accounts 301-399)
Retirements - current yr. (Plant accounts 301-399)

111 **Accumulated provision for amortization and/or depletion of electric & gas utility plant**

This account shall be credited with the amortization and/or depletion expense applicable to the various property accounts; upon disposition or retirement, it shall be debited with the amount previously credited for such property.

114 **Electric or Gas Plant acquisition adjustments**

This account shall include the difference between the cost of plant acquired and the original cost of such property, less accumulated depreciation and amortization.

115 **Accumulated provisions for amortization of electric & gas plant acquisition adjustments**

This account shall be credited or debited with amounts provided for the extinguishment of account 114 in those instances where account 114 has not been written off immediately.

120.1 **Nuclear fuel in process of refinement, conversion, enrichment and fabrication**

This account shall include the cost of fabricated fuel assemblies delivered for use in refueling or to be carried in stock.

120.2 Nuclear fuel materials and assemblies - stock acct.

This account shall include the cost of fabricated fuel assemblies delivered for use in refueling or to be carried in stock.

120.3 Nuclear fuel assemblies in reactor

This account shall include the cost of nuclear fuel assemblies when inserted in the reactor for the production of electricity.

120.4 Spent nuclear fuel

This account shall include the cost of nuclear fuel assemblies in the process of cooling, upon removal from the reactor.

120.5 Accumulated provision for amortization of nuclear fuel assemblies

This account shall be credited with the amortization of the cost of nuclear fuel assemblies used in the production of electricity.

120.6 Nuclear fuel under capital leases

This account shall include the amount recorded under capital leases for nuclear fuel leased from others for use by the utility in its utility operations.

121 Non-utility property

This account shall include the book cost of land, structures, etc., owned by the utility, but not used in utility operations.

122 Accumulated provision for depreciation and amortization of non-utility property.

This account shall include the accumulated provision for depreciation and amortization of non-utility property.

123.1 Investment in subsidiary companies

This account shall include the cost of investments in securities issued by subsidiary companies.

124 Other investments

This account shall include the cost of investments in securities of non-associated companies.

126 Depreciation fund

This account shall include amounts which have been segregated in special funds for purposes not provided for elsewhere.

128 Other special funds

This account shall include amounts which have been segregated in special funds for purposes not provided for elsewhere.

131 Cash

This account shall include the amount of current cash funds, except working funds.

134 Other special deposits

This account shall include deposits with fiscal agents or others for special purposes other than the payment of interest and dividends.

135 Working funds

This account shall include cash advanced to officers, agents, employees and others as petty cash or working funds.

136 Temporary cash investments

This account shall include the book cost of investments acquired for the purpose of temporarily investing cash.

141 Notes receivable

This account shall include the book cost of all collectible obligations in the form of notes receivable and similar evidences of money due on demand or within one year from the date of issue.

142 Customer accounts receivable

This account shall include amounts due from customers for utility service and for merchandising, jobbing and contract work.

143 Other accounts receivable

This account shall include amounts due the utility other than amounts due from utility services and merchandising, jobbing and contract work.

143.1 Interchange Sales

(1) Minors are required for this account for AMS interchange sales customers.

144 Accumulated provision for uncollectible account - credit

This account shall be credited with amounts provided for losses on accounts which may become uncollectible and also with collections on accounts previously charged hereto.

145 Notes receivable from associated companies

This account shall include notes and drafts upon which associated companies are liable and which mature later than one year from the date of issue.

146 Accounts receivable from associated companies

This account shall include balances subject to current settlement in open accounts with associated companies.

151 Fuel stock

This account shall include the book cost of fuel on hand.

152 Fuel Stock Expense Undistributed

This account may include the cost of labor and of supplies used and expenses incurred in unloading fuel from the shipping medium and in the handling thereof prior to its use, if such expenses are sufficiently significant in amount to warrant being treated as a part of the cost of fuel inventory rather than being charged direct to expense as incurred.

154 Plant materials and operating supplies

This account shall include the cost of materials purchased primarily for use in the utility business for construction, operation and maintenance purposes. Materials and supplies issued shall be credited hereto and charged to the appropriate construction, operating, or other account on the basis of a unit price as in accordance with accepted accounting standards consistently applied.

158.1 Allowance inventory

This account shall include the cost of allowances owned by the utility and not withheld by the Environmental

Protection Agency. This account will be credited and Account 509, Allowances, shall be debited concurrent with the monthly emission of sulfur dioxide.

163 Stores expenses undistributed (control account for primary Accounts 701-709)

This account shall include the cost of supervision, labor and expenses incurred in the operation of general storerooms, including purchasing, storage, handling and distribution of materials and supplies. This account shall be cleared by adding a suitable loading charge to the cost of materials and supplies issued, which will distribute the expense equitably over stores issues.

164.1 Gas stored underground - current

This account shall include that portion of the inventory of gas stored underground that represents a current asset.

165 Prepayments

This account shall include amounts representing prepayments of insurance, rents, taxes, interest and miscellaneous items.

167 Other Advance for Gas

This account shall include all advances not properly includible in other accounts.

171 Interest and dividends receivable

This account shall include the amount of interest on bonds, mortgages, notes, commercial paper, loans, open accounts, deposits, etc., and the amount of dividends declared on stocks owned.

172 Rents receivable

This account shall include rents receivable or accrued on property rented or leased to others by the utility.

173 Accrued utility revenues

This account will include the estimated amount accrued for service rendered, but not billed as the end of any accounting period. Accruals will likewise be made for unbilled expenses, such as for the purchase of energy.

174 Miscellaneous current and accrued assets

This account shall include the book cost of all other current and accrued assets, appropriately designated and supported so as to show the nature of each asset included herein.

181 Unamortized debt expense

This account shall include expenses related to the issuance or assumption of debt securities. Amounts recorded in this account shall be amortized over the life of issue with which they are associated.

182.3 Unrecovered Plant and Regulatory Study costs

This account shall include non-recurring costs of studies and analyses mandated by regulatory bodies and unrecovered costs of plant facilities where construction has been canceled or which have been prematurely retired.

182.3 Other regulatory assets

This account shall include the amounts of regulatory-created assets, not included in other accounts, resulting from the ratemaking action of regulatory agencies. The amounts included in this account are to be established by those charges which would have been included in net income determinations in the current period under the general requirements of Uniform System of Accounts but for it being probable that such items will be included in a difference period(s) for purposes of developing the rates that the utility is authorized to charge for its utility services.

183 Preliminary survey and investigation charges

This account shall be charged with all expenditures for preliminary surveys, plans, investigations, etc., made for the purpose of determining the feasibility of utility projects.

184 Clearing accounts

This account shall include undistributed balances at the date of the balance sheet. Balances in clearing accounts shall be substantially cleared not later than the end of the fiscal year unless items held therein relate to a future period.

185 Temporary facilities

This account shall include amounts shown by work orders for plant installed for temporary use in utility service for periods of less than one year.

186 Miscellaneous deferred debits

This account shall include all debits not elsewhere provided for, such as miscellaneous work in progress, and unusual or extraordinary expenses, not included in other accounts, which are in process of amortization and items, the proper final disposition of which is uncertain.

188 Research, development and demonstration expenditures

This account shall be charged with the cost of all expenditures coming within the meaning of Research, Development and Demonstration, except those expenditures properly chargeable to account 107, Construction Work in Progress.

189 Unamortized loss on reacquired debt

This account shall include the losses on long-term reacquired or redeemed.

190 Accumulated deferred income taxes

This account shall be debited with an amount equal to that by which income taxes payable for the year are higher because of the inclusion of certain items in income for tax purposes. These items, for general accounting purposes, will not be fully reflected in the utility's determination of annual net income until subsequent years.

201 Common stock issued

This account shall include the par value or the stated value of stock without par value of each class of capital stock issued.

204 Preferred stock issued

This account shall include the par value or the state value of stock without par value of each class of capital stock issued.

207 Premium on capital stock

This account shall include the excess of the actual cash value of the consideration received on original issues of capital stock over the par or stated value.

208 Donations received from stockholders

This account shall include the balance of credits for donations received from stockholders.

210 Gain on resale or cancellation of reacquired capital stock

This account shall include the balance of credits arising from the resale or cancellation of reacquired capital stock.

211 Miscellaneous paid-in capital

This account shall include the balance of all other credits for paid in capital which are not properly includible in the foregoing accounts.

212 Installments received on capital stock

This account shall include installments received on capital stock on a partial or installment payment plan.

214 Capital stock expense

This account shall include all commissions and expenses incurred in connection with the original issuance and sale of capital stock.

216 Unappropriated retained earnings

This account shall include the balances, either debit or credit, or unappropriated retained earnings arising from earnings of the utility.

216.1 Unappropriated undistributed subsidiary earnings

This account shall include the balances, either debit or credit, of undistributed retained earnings of subsidiary companies since their acquisition.

217 Reacquired capital stock

This account shall include the cost of capital stock actually issued by the utility and reacquired by it and not retired or canceled.

221 Bonds

This account shall include the face value of issued and unmatured bonds which have not been retired or canceled.

223 Advances from associated companies

This account shall include the face value of notes payable to associated companies and the amount of open book accounts representing advances from associated companies. It does not include notes and open accounts representing indebtedness subject to current settlement which are includible in account 233. Notes payable to Associated Companies, or account 234, Accounts Payable to Associated Companies.

224 Other long-term debt

This account shall include, until maturity, all long-term debt not otherwise provided for.

225 Unamortized premium on long-term debt

This account shall include the excess of the cash value of consideration received over the face value upon the issuance or assumption of long-term debt securities.

226 Unamortized discount on long-term debt

This account shall include the excess of the face value of long-term debt securities over the cash value of consideration received therefore related to the issue or assumption of debt.

227 Obligations under capital leases - noncurrent

This account shall include the portion not due within one year, of the obligations recorded for the amounts applicable to leased property recorded as assets in account 101.1, Property under Capital Leases, Account 120.6, Nuclear Fuel under Capital Leases, or Account 121, Non-utility Property.

228.2 Accumulated provision for injuries and damages

This account shall be credited with amounts charged to Account 925, Injuries and Damages, to meet the liability, not covered by insurance, for deaths or injuries to employees and others and for damages to property neither owned nor held under lease by the utility.

228.3 Accumulated provision for pensions and benefits

This account shall include provisions made by the utility and amounts contributed by employees for pensions, accident and death benefits, savings, relief, hospital and other provident purposes, where the funds are included in the assets of the utility either in general or in segregated fund accounts.

228.4 Accumulated miscellaneous operating provisions

This account shall include all operating provisions which are not provided for elsewhere.

229 Accumulated provision for rate refunds

This account shall be credited with amounts to provide for estimated refunds where the utility is collecting amounts in rates subject to refund.

231 Notes Payable

This account shall include the face value of all notes, drafts, acceptances, or other similar evidences of indebtedness, payable on demand or within a time not exceeding one year from date of issue, to other than associated companies.

232 Accounts payable

This account shall include all amounts payable by the utility within one year, which are not provided for in other accounts.

233 Notes Payable to associated companies

These accounts shall include amounts owing to associated companies on notes, drafts, acceptances, or other similar evidences of indebtedness payable on demand or not more than one year from date of issue or creation.

234 Accounts payable to associated companies

These accounts shall include amounts owing to assoc. companies on open accounts payable on demand or not more than one year from date of issue or creation.

235 Customer deposits

These accounts include all amounts deposited with the utility by customers as security for the payment of bills.

236 Taxes accrued

This account shall be credited with the amount of taxes accrued during the accounting period, corresponding debits being made to the appropriate accounts for tax charges.

237 Interest accrued

This account shall include the amount of interest accrued but not matured on all liabilities of the utility.

238 Dividends declared

This account shall include the amount of dividends which have been declared but not paid.

241 Tax collections payable

This account shall include the amount of taxes collected by the utility through payroll deductions or otherwise pending transmittal of such taxes to the proper taxing authority.

242 Miscellaneous current and accrued liabilities

This account shall include the amount of all other current and accrued liabilities not provided for elsewhere.

243 Obligations under capital leases - current

This account shall include the portion, due within one year, of the obligation recorded in Acct 101.1, Property under Capital Leases, Acct. 120.6, Nuclear Fuel under Capital Leases (Major only), or Account 121, Non-utility property.

252 Customer advances for construction

This account shall include advances by customers for construction which are to be refunded either wholly or in part.

253 Other deferred credits

This account shall include advance billings and receipts and other deferred credit items, not provided for elsewhere.

254 Other regulatory liabilities

This account shall include the amounts of regulatory liabilities, not included in other account, imposed on the utility by the ratemaking actions of regulatory agencies. The amounts in this account are to be established by those credits which would have been included in net income determinations in the current period under the general requirements of the Uniform System of Accounts but for it being probable that: 1) such items will be included in a different period(s) for purposes of developing the rates that the utility is authorized to charge for its utility services: or 2) refunds to customers, not provided for in other accounts, will be required.

255 Accumulated deferred investment tax credits

This account shall be credited with all investment tax credits deferred.

281 Accumulated deferred income taxes - Accelerated amortization property

This account shall include tax deferrals resulting from adoption of the principles of comprehensive interperiod tax allocation that relate to property for which the utility has availed itself of the use of accelerated (5-year) amortization of (1) certified defense facilities and (2) certified pollution control facilities.

282 Accumulated deferred income taxes - other property

This account shall include the tax deferrals resulting from adoption of the principle of comprehensive interperiod income tax allocation.

283 Accumulated deferred income taxes - other

This account shall include all credit tax deferrals resulting from the adoption of the principles of comprehensive interperiod income allocation other than those deferrals which are includible in Accounts 281 and 282.

301 Organization

This account shall include all fees paid to federal or state governments for the privilege of incorporation and expenditures incident to organizing the corporation, partnership or other enterprise and putting it into readiness to do business.

302 Franchises and consents

This account shall include amounts paid to the federal government, to a state or to a political subdivision thereof in consideration for franchises, consents, water power licenses, or certificates running in perpetuity or for a specified term of more than one year, together with necessary and reasonable expenses incident to procuring such franchises, consents, water power licenses or certificates of permission and approval, including expenses of organizing and merging separate corporations, where statutes require, solely for the purpose of acquiring franchises.

303 Miscellaneous intangible plant

This account shall include the cost of patent rights, licenses, privileges and other intangible property necessary or valuable in the conduct of utility operations and not specifically chargeable to any other account.

310 Land and land rights

This account shall include the cost of land and land rights used in connection with steam-power generation.

311 Structures and improvements

This account shall include the cost of structures and improvements used in connection with steam-power generation.

312 Boiler plant equipment

This account shall include the installed cost of furnaces, boilers, coal and ash handling and coal preparing equipment, steam and feedwater piping, boiler apparatus and accessories used in the production of steam to be used primarily for generating electricity.

314 Turbo-generator units

This account shall include the installed cost of main turbine-driven units & accessory equipment used in generating electricity by steam.

315 Accessory electric equipment

This account shall include the installed cost of auxiliary generating apparatus, conversion equip. and equip. used primarily in connection with the control & switching of electric energy produced by steam power & the protection of electric circuits & equipment, except electric motors used to drive equipment included in other accounts.

316 Miscellaneous power plant equipment

This account shall include the installed cost of miscellaneous equipment in and about the steam generating plant devoted to general station use and which is not properly includible in any of the foregoing steam-power production accounts.

320 Land and land rights

This account shall include the cost of land and land rights used in connection with nuclear power generation.

321 Structures and improvements

This account shall include the cost of structures and improvements used in connection with nuclear power generation.

322 Reactor plant equipment

This account shall include the installed cost of reactors, reactor fuel handling and storage equipment, pressurizing equipment, coolant charging equipment, purification and discharging equipment, radioactive waste treatment and disposal equipment, steam and feed water piping, reactor apparatus and accessories and other reactor plant equipment used in the production of steam to be used primarily for generation electricity.

323 Turbo-generator units

This account shall include the installed cost of main turbine-driven units and accessory equipment used in generating electricity by nuclear power.

324 Accessory electric equipment

This account shall include the installed cost of auxiliary generating apparatus, conversion equipment and equipment used primarily in connection with the control and switching of electric energy produced by nuclear power, and the protection of electric circuits and equipment, except electric motors used to drive equipment included in other accounts.

325 Miscellaneous power plant equipment

This account shall include the installed cost of miscellaneous equipment in and about the nuclear generating plant devoted to general station use and which is not properly includible in any of the foregoing nuclear-power production accounts.

330 Land and land rights

This account shall include the cost of land and land rights used in connection with hydraulic power generation. It shall also include the cost of land and land rights used in connection with (1) the conservation of fish and wildlife, and (2) recreation.

331 Structures and Improvements

This account shall include the cost of structures and improvements used in connection with hydraulic power generation. It shall also include the cost of structures and improvements used in connection with (1) the conservation of fish and wildlife, and (2) recreation.

332 Reservoirs, dams and waterways

This account shall include the cost of facilities used for impounding, collecting, storage, diversion, regulation and delivery of water used primarily for generating electricity. It shall also include the cost of facilities used in connection with (1) the conservation of fish and wildlife, and (2) recreation.

333 Water wheels, turbines and generators

This account shall include the installed cost of water wheels and hydraulic turbines and generators driven thereby, devoted to the production of electricity by water power.

334 Accessory electric equipment

This account shall include the installed cost of auxiliary generating apparatus, conversion equipment and equipment used primarily in connection with the control and switching of electric energy produced by hydraulic power and the protection of electric circuits and equipment, except electric motors used to drive equipment included in other accounts.

335 Miscellaneous power plant equipment

This account shall include the installed cost of miscellaneous equipment in and about the hydroelectric generating plant which is devoted to general station use and is not properly includible in other hydraulic production accounts. It shall also include the cost of equipment used in connection with (1) the conservation of fish and wildlife, and (2) recreation.

336 Roads, railroads and bridges

This account shall include the cost of roads, railroads, trails, bridges and trestles used primarily as production facilities. It includes also those roads, etc., necessary to connect the plant with highway transportation systems, except when such roads are dedicated to public use and maintained by public authorities.

340 Land and land rights

This account shall include the cost of land and land rights used in connection with other power generation.

341 Structures and improvements

This account shall include the cost of structures and improvements used in connection with other power generation.

342 Fuel holders, producers and accessories

This account shall include the installed cost of fuel handling and storage equipment used between the point of fuel delivery to the station and the intake pipe through which fuel is directly drawn to the engine, also the cost of gas producers and accessories devoted to the production of gas for use in prime movers driving main electric generators.

343 Prime movers

This account shall include the cost installed of diesel or other prime movers devoted to the generation of electric energy, together with their auxiliaries.

344 Generators

This account shall include the installed cost of diesel or other power driven main generators.

345 Accessory electric equipment

This account shall include the installed cost of auxiliary generating apparatus, conversion equipment and equipment used primarily in connection with the control and switching of electric energy produced in other power generating stations and the protection of electric circuits and equipment, except electric motors used to drive equipment included in other accounts.

346 Miscellaneous power plant equipment

This account shall include the installed cost of miscellaneous equipment in and about the plant, devoted to general station use, and not properly includible in any of the foregoing Other Power Production Accounts.

350 Land and land rights

This account shall include the cost of land and land rights used in connection with transmission operations.

352 Structures

This account shall include the cost of structures and improvements used in connection with transmission operations.

353 Station equipment

This account shall include the installed cost of transforming, conversion and switching equipment used for the purpose of changing the characteristics of electricity in connection with its transmission or for controlling transmission circuits.

354 Towers and fixtures

This account shall include the installed cost of towers and appurtenant

400 Operating revenues (control account)

There shall be shown under this caption the total amount included in the operating revenue accounts provided herein. Entries will not be made directly to Account 400, but instead be the accumulation of transactions to Accounts 440 to 499.

401 Operating expenses - (control account)

There shall be shown under this caption the total amount included in the operation expense accounts provided herein. Entries will not be made directly to Account 401 but instead be the accumulation of transactions to all operation account included in series 500 to 599, 700 accounts with a minor of 099 and 800 through 935.

402 Maintenance expenses - (control account)

There shall be shown under this caption the total amount included in the maintenance expense accounts provided herein. Entries will not be made directly to Account 402 but instead, be the accumulations of transactions to all maintenance accounts included in series 500 to 599, 700 accounts with a minor of 099 and 800 through 935.

403 Depreciation expense

This account shall include the amount of depreciation expense for all classes of depreciable plant in service

404 Amortization of limited term electric plant

This account shall include amortization charges applicable to amounts included in the plant accounts for limited term franchises, licenses, patent rights, limited-term interest in land, and expenditures on leased property where the service life of the improvements is terminable by action of the lease.

405 Amortization of other plant

When authorized by the Commission, this account shall include charges for amortization of intangible or other utility plant which does not have a definite or terminable life and which is not subject to charges for depreciation

expense.

406 Amortization of plant acquisition adjustments

This account shall be debited or credited with amounts includible in operating expenses, pursuant to approval or order of the Commission, for the purpose of providing for the extinguishment of the amount in Account 114, Electric Plant Acquisition Adjustments.

407 Amortization of property losses, unrecovered plant and regulatory study costs

This account shall be charged with amounts credited to Account 182.1, Extraordinary Property Losses and Account 182.2, Unrecovered Plant and Regulatory Study Costs, when the Commission has authorized the amount in the latter account to be amortized by charges to operations.

407.3 Regulatory debits

This account shall be debited with the amounts credited to Account 254, Other Regulatory Liabilities, to record regulatory liabilities imposed on the utility by the ratemaking actions or regulatory agencies. This account shall also be debited with the amounts credited to Account 182.3, Other Regulatory Assets, concurrent with the recovery of such amounts in rates.

407.4 Regulatory credits

This account shall be credited with the amounts debited to Account 182.3, Other Regulatory Assets, to establish regulatory assets. This account shall also be credited with the amounts debited to Account 254, Other Regulatory Liabilities, concurrent with the return of such amounts to customers through rates.

408.1 Taxes, other than income taxes, utility operating income

This account shall include the amounts of ad valorem, gross revenue or gross receipts taxes, state unemployment insurance, franchise taxes, federal excise taxes, social security taxes, and all other taxes assessed by federal, state, county, municipal or other local governmental authorities, except income taxes which relate to utility operating income.

409.1 Income taxes, utility operating income

This account shall include the amount of local, state and federal income taxes on income properly accruable during the period covered by the income statement to meet the actual liability for such taxes which relate to utility operating income.

410.1 Provision for deferred income taxes - Utility oper. Income

This account shall be debited & accumulated deferred income taxes shall be credited with amounts equal to any current deferrals of taxes on income or any allocations of deferred taxes originating in prior periods, as provided by texts of Accounts 190, 281, 282 & 283 which relate to utility operating income.

411.1 Provision for deferred income taxes - credit, utility operating income

This account shall be credited, and Accumulated Deferred Income Taxes shall be debited with amounts equal to any allocations of deferred taxes originating in prior periods or any current deferrals of taxes on income, as provided by the texts of accounts 190, 281, 282 and 283 which relate to utility operating income.

411.4 Investment tax credit adjustments, utility operations

This account shall be debited with the amounts of investment tax credits related to utility property that are credited to Account 255, Accumulated Deferred Investment Tax Credits. This account shall be credited with the amounts debited to account 255 for proportionate amounts of tax credit deferrals allocated over the average useful life of utility property to which the tax credits relate or such lesser period of time.

411.6 Gains from disposition of utility plant

This account shall include amounts relating to gains from the disposition of future use utility plant including amounts which were previously recorded in and transferred from Account 105.

411.7 Losses from disposition of utility plant

This account shall include, as approved by the Commission, amounts relating to losses from the disposition of future use utility plant including amounts which were previously recorded in and transferred from Account 105.

411.8 Gains from disposition of allowances

This account shall be credited with the gain on the sale, exchange, or other disposition of allowances. Income taxes shall be recorded to Account 4091.

411.9 Losses from disposition of allowances

This account shall be debited with the loss on the sale, exchange, or other disposition of allowances. Income taxes shall be recorded to Account 409.1.

417 Revenues from Non-utility Operations

417.1 Expenses of non-utility operations

These accounts shall include increases and expenses applicable to operations which are non-utility in character but nevertheless constitute a distinct operating activity of the enterprise as a whole, such as the operation of an ice department where applicable statutes do not define such operation as a utility, or the operation of a servicing organization for furnishing supervision, management, engineering, and similar services to others.

418 Non-operating rental income

This account shall include all rent revenues and related expenses of land, buildings or other property included in Account 121, Non-Utility Property.

418.1 Equity in earnings of subsidiary companies

This account shall include the utility's equity in the earnings or losses of subsidiary companies for the year.

419 Interest and dividend income

This account shall include interest revenues on securities, loans, notes, advances, special deposits, tax refunds, and all other interest-bearing assets, and dividends on stocks of other companies, whether the securities on which the interest and dividends are received are carried as investments or included in sinking or other special fund accounts.

419.1 Allowance for other funds used during construction (AFUDC)

This account shall include concurrent credits for allowance for other funds used during construction.

421 Miscellaneous non-operating income

This account shall include all revenue and expense items except taxes properly includible in the income account and not provided for elsewhere.

421.1 Gain on disposition of property

This account shall be credited with the gain on the sale, conveyance, exchange or transfer of utility or other property to another.

421.2 Loss on disposition of property

This account shall be charged with the loss on the sale, conveyance, exchange or transfer of utility or other property to another.

425 Miscellaneous amortization

This account shall include amortization charges not includible in other accounts which are properly deductible in determining the income of the utility before interest charges.

426.1 Donations

This account shall include all payments or donations for charitable, social or community welfare programs.

426.3 Penalties

This account shall include payments by the company for penalties or fines for violation of any regulatory statutes by the company or its officials.

426.4 Expenditures for certain civic, political and related activities

This account shall include expenditures for the purpose of influencing public opinion with respect to the election or appointment of public officials, referenda, legislation or ordinances; or approval, modification, or revocation of franchises; or for the purpose of influencing the decisions of public officials.

426.5 Other deductions

This account shall include other miscellaneous expenses which are non-operating in nature, but which are properly deductible before determining total income before interest charges.

408.2 Taxes other than income taxes, other income and deductions

This account shall include those taxes other than income taxes which relate to Other Income and Deductions.

409.2 Income taxes, other income and deductions

This account shall include the amount of those local, state and federal income taxes (both positive and negative), which relate to Other Income and Deductions.

409.3 Income Taxes, extraordinary items

This account shall include the amount of those local, state, and federal income taxes (both positive and negative) which relate to Extraordinary items.

410.2 Provision for deferred income taxes, other income and deductions

This account shall include the amounts of those deferrals of taxes and allocations of deferred taxes which relate to Other Income and Deductions

411.2 Provision for deferred income taxes - Credit, other income and deductions

This account shall include the amounts of those allocations of deferred taxes and deferrals of taxes, credit, which relate to Other Income and Deductions.

427 Interest on long-term debt

This account shall include the amount of interest on outstanding long-term debt issued or assumed by the utility, the liability for which is included in Account 221, Bonds, or Account 224, Other long-term Debt.

428 Amortization of debt discount and expenses

This account shall include the amortization of unamortized debt discount and expense on outstanding long-term debt.

428.1 Amortization of loss on reacquired debt

This account shall include the amortization of the losses on reacquisition of debt.

429 Amortization of premium and debt-credit

This account shall include the amortization of unamortized net premium on outstanding long-term debt.

431 Other interest expenses

This account shall include all interest charges not provided for elsewhere.

432 Allowance for borrowed funds used during construction-credit.

This account shall include concurrent credits for allowance for borrowed funds used during construction.

433 Balance transferred from income

This account shall include the net credit or debit transferred from income for the year.

434 Extraordinary Income

This account shall be credited with gains of unusual nature, and infrequent occurrence, which would significantly distort the current year's income computed before extraordinary items, if reported other than as extraordinary items. Income tax relating to the amounts recorded in this account shall be recorded in Account 409.3

435 Extraordinary deductions

This account shall be debited with losses of unusual nature and infrequent occurrence,

437 Dividends declared - preferred stock

This account shall include amounts declared payable out of retained earnings as dividends on actually outstanding preferred or prior lien capital stock issued by the utility.

438 Dividends declared - common stock

This account shall include amounts declared payable out of retained earnings as dividends on actually outstanding common capital stock issued by the utility.

439 Adjustments to retained earnings

This account shall, with prior Commission approval, include significant nonrecurring transactions accounted for as prior period adjustments. Adjustments, charges, or credits due to losses on reacquisition, resale or retirement of the company's own capital stock shall be included in this account.

440 Residential sales

This account shall include the net billing for electricity supplied for residential purposes.

442 Commercial and industrial sales

This account shall include the net billing for electricity supplied to customers for commercial and industrial purposes.

444 Public street and highway lighting

This account shall include the net billing for electricity supplied and services rendered for the purposes of lighting streets, highways, parks and other public places, or for traffic or other signal system service, for municipalities or other divisions or agencies of state or federal governments.

445 Other sales to public authorities

This account shall include the net billing for electricity supplied to municipalities or divisions or agencies of federal or state governments, under special contracts.

446 Unbundled ARES Revenue

This account shall include the net billing for electricity supplied to ARES under deregulation.

447 Sales for resale

This account shall include the net billing for electricity supplied to other electric utilities or to public authorities for resale purposes.

448 Interdepartmental Sales

This account shall include amounts charged by the electric department at tariff or other specified rates for electricity supplied by it to other utility departments.

449.1 Provision for rate refunds

This account shall be charged with provisions for the estimated portions of amounts being collected subject to refunds which are estimated to be required to be refunded.

450 Forfeited Discounts

This account shall include the amount of discounts forfeited or additional charges imposed because of the failure of customers to pay their electric bill on or before a specified date.

451 Miscellaneous service revenues

This account shall include revenues for all miscellaneous services and charges billed to customers which are not specifically provided for in other accounts

454 Rent from electric property

This account shall include rents received for the use by others of land, buildings and other property devoted to electric operations by the utility.

455 Interdepartmental rents

This account shall include rents credited to the electric department on account of rental charges made against other departments (gas, water, etc.) of the utility. In the case of property operated under a definite arrangement to allocate the costs among the departments using the property, any reimbursement to the electric department for interest or return and depreciation and taxes shall be credited to this account.

456 Other electric revenues

This account shall include revenues derived from electric operations not includible in any of the foregoing accounts.

457 Services rendered to associated companies

This control account shall include amounts billed to associate companies for services rendered at cost. See accounts 457-1 through 457-3. Overbillings or underbillings arising from adjustments of estimated costs to actual costs shall be cleared through this account and concurrent adjustments made to other accounts involved.

457.1 Direct costs charged to associate companies

This account shall include those direct costs which can be identified through a work order system as being applicable to services performed for associate companies. This account shall not include any compensation for use of equity capital or intercompany interest on indebtedness.

457.2 Indirect costs charged to associated companies

This account shall include recovery of those indirect costs which cannot be separately identified to a single or group of associate companies and therefore must be allocated. Journal or memorandum entries should be prepared monthly, by departments, for all such cost accumulated and billed to customers. This account shall not include any compensation for use of equity capital or intercompany interest or indebtedness.

458 Other Non-Utility Revenues

This account shall include revenues derived from non-utility operations.

475 ARES

480 Residential Sales

481 Commercial and Industrial Sales

483 Sales for resale

This account shall include the net billing for gas supplied to other gas utilities or to public authorities for resale purposes.

484 Interdepartmental sales

This account shall include amounts charged by the gas department at tariff or other specified rates for gas supplied by it to other utility departments.

487 Forfeited discounts

This account shall include the amount of discounts forfeited or additional charges imposed because of the failure of customers to pay gas bills on or before a specified date.

488 Miscellaneous service revenues

This account shall include revenues from all miscellaneous services and charges billed to customers which are not specifically provided for in other accounts.

489 Transportation of gas of others

This account shall include revenues from transporting gas for other companies through the production,

493 Rent from gas property

This account shall include rents received for the use by other of land, buildings and other for property devoted to gas operations by the utility.

495 Other gas revenues

This account shall include revenues derived from gas operations not includible in any of the foregoing accounts.

496 Provision for rate refund

This account shall be charged with provisions for the estimated amounts being collected subject to refund which are estimated to be required to be refunded.

500 Operation supervision and engineering

This account shall include the cost of labor and expenses incurred in the general supervision and direction of the

operation of steam power generating stations. Direct supervision of specific activities shall be charged to the appropriate operation account.

501 Fuel

This account shall include the cost of fuel used in the production of steam for the generation of electricity, including expenses in unloading fuel from the shipping media and handling thereof up to the point where the fuel enters the boiler plant structure.

502 Steam expenses

This account shall include the cost of labor, materials used and expenses incurred in production of steam for electric generation.

505 Electric expenses

This account shall include the cost of labor, materials used and expenses incurred in operating prime movers, generators, and their auxiliary apparatus, switchgear and other electric equipment to the points where electricity leaves for conversion for transmission or distribution.

506 Miscellaneous steam power expenses

This account shall include the cost of labor, materials used and expenses incurred which are not specifically provided for or are not readily assignable to other steam generation operation expense accounts.

507 Rents

This account shall include all rents of property used, occupied or operated in connection with steam power generation.

509 Allowances

This account shall include the cost of allowances expensed concurrent with the monthly emission of sulfur dioxide.

510 Maintenance supervision and engineering

This account shall include the cost of labor and expenses incurred in the general supervision and direction of maintenance of steam generation facilities. Direct field supervision of specific jobs shall be charged to the appropriate maintenance account.

511 Maintenance of structures

This account shall include the cost of labor, materials used and expenses incurred in the maintenance of steam structures, the book cost of which is includible in Account 311, Structures and Improvements.

512 Maintenance of boiler plant

This account shall include the cost of labor, materials used and expenses incurred in the maintenance of steam plant, the book cost of which is includible in Account 312, Boiler Plant Equipment.

513 Maintenance of electric plant

This account shall include the cost of labor, materials used and expenses incurred in the maintenance of electric plant, the book cost of which is includible in Account 314, Turbogenerator Units and Account 315, Accessory Electric Equipment.

514 Maintenance of miscellaneous steam plant

This account shall include the cost of labor, materials used and expenses incurred in maintenance of miscellaneous steam generation plant, the book cost of which is includible in Account 316, Miscellaneous Power Plant Equipment.

517 Operation supervision and engineering

This account shall include the cost of labor and expenses incurred in the general supervision and direction of the operation of nuclear power generating stations. Direct supervision of specific activities shall be charged to the appropriate operation account.

518 Nuclear Fuel expense (Used by General Accounting only)

This account shall be debited for the amortization of the net cost of nuclear fuel assemblies used in the production of energy.

519 Coolants and water

This account shall include the cost of labor, materials used and expenses incurred for heat transfer materials and water used for steam and cooling purposes.

520 Steam expenses

This account shall include the cost of labor, materials used and expenses incurred in production of steam through nuclear processes and similar expenses for operation of any auxiliary superheat facilities.

523 Electric expenses

This account shall include the cost of labor, materials used and expenses incurred in operating turbogenerator, steam turbines, and their auxiliary apparatus, switch gear and other electric equipment to the points where electricity leaves for conversion for transmission or distribution.

524 Miscellaneous nuclear power expenses

This account shall include the cost of labor, expenses incurred which are not specifically provided for or are not readily assignable to other nuclear generation operation accounts.

525 Rents

This account shall include all rents of property of others used, occupied or operated in connection with nuclear generation.

528 Maintenance supervision and engineering

This account shall include the cost of labor and expenses incurred in the general supervision and direction of maintenance of nuclear generation facilities. Direct field supervision of specific jobs shall be charged to the appropriate maintenance account.

529 Maintenance of structures

This account shall include the cost of labor, materials used and expenses incurred in the maintenance of structures, the book cost of which is includible in Account 321, Structures and Improvements.

530 Maintenance of reactor plant equipment

This account shall include the cost of labor, materials used and expenses incurred in the maintenance of reactor plant, the book cost of which is includible in Account 322, Reactor Plant Equipment.

531 Maintenance of electric plant

This account shall include the cost of labor, materials used and expenses incurred in the maintenance of electric plant, the book cost of which is includible in Account 323, Turbogenerator Units, and Account 324, Accessory Electric Equipment.

532 Maintenance of miscellaneous nuclear plant

This account shall include the cost of labor, materials used and expenses incurred in maintenance of miscellaneous nuclear generating plant, the book cost of which is includible in Account 325, Miscellaneous Power Plant Equipment.

535 Operation supervision and engineering

This account shall include the cost of labor and expenses incurred in the general supervision and direction of the operation of hydraulic power generating stations. Direct supervision of specific activities shall be charged to the appropriate operation account.

536 Water for power

This account shall include the cost of water used for hydraulic power generation.

537 Hydraulic expenses

This account shall include the cost of labor, materials used and expenses incurred in operating hydraulic works including reservoirs, dams and waterways, and in activities directly relating to the hydroelectric development outside the generating station. It shall include the cost of labor, materials used and other expenses incurred in connection with the operation of (a) fish and wildlife, and (b) recreation facilities.

538 Electric expenses

This account shall include the cost of labor, materials used and expenses incurred in operating prime movers, generators and their auxiliary apparatus, switchgear, and other electric equipment, to the point where electricity leaves for conversion for transmission or distribution.

539 Miscellaneous hydraulic power generation expenses

This account shall include the cost of labor, materials used and expenses incurred which are not specifically provided for or readily assignable to other hydraulic generation operation expense accounts.

540 Rents

This account shall include all rents of property used, occupied or operated in connection with hydraulic power generation.

541 Maintenance supervision and engineering

This account shall include the cost of labor and expenses incurred in the general supervision and direction of the maintenance of hydraulic power generating stations. Direct field supervision of specific jobs shall be charged to the appropriate maintenance accounts.

542 Maintenance of structures

This account shall include the cost of labor, materials used and expenses incurred in maintenance of hydraulic structures, the book cost of which is includible in Account 331, Structures and Improvements. (Excluding fish and wildlife and recreation facilities).

543 Maintenance of reservoirs, dams and waterways

This account shall include the cost of labor, materials used and expenses incurred in maintenance of plant includible in Account 332, Reservoirs, Dams and Waterways. (Excluding fish and wildlife and recreation facilities).

544 Maintenance of electric plant

This account shall include the cost of labor, materials used and expenses incurred in maintenance of plant includible in Account 333, Water Wheels, Turbines and Generators and Account 334, Accessory Electric Equipment.

545 Maintenance of miscellaneous hydraulic plant

This account shall include the cost of labor, materials used and expenses incurred in maintenance of plant, the book cost of which is includible in Account 335, Miscellaneous Power Plant Equipment and Account 336, Roads, Railroads, and bridges. It shall also include the cost of labor, materials used and other expenses incurred in the maintenance of (a) fish and wildlife, and (b) recreation facilities.

546 Operation supervision and engineering

This account shall include the cost of labor and expenses incurred in the general supervision and direction of the

operation of other power generating stations. Direct supervision of specific activities shall be charged to the appropriate operation account.

547 Fuel

This account shall include the cost delivered at the station of all fuel used in other power generation.

548 Generation expenses

This account shall include the cost of labor, materials used and expenses incurred in operating prime movers, generators and electric equipment in other power generating stations, to the point where electricity leaves for conversion for transmission or distribution.

549 Miscellaneous other power generation expenses

This account shall include the cost of labor, materials used and expenses incurred in the operation of other power generating stations which are not specifically provided for or are not readily assignable to other generation expense accounts.

550 Rents

This account shall include all rents of property used, occupied or operated in connection with other power generation.

551 Maintenance supervision and engineering

This account shall include the cost of labor and expenses incurred in the general supervision and direction of the maintenance of other power generating stations. Direct field supervision of specific jobs shall be charged to the appropriate maintenance account.

552 Maintenance of structures

This account shall include the cost of labor, materials used and expenses incurred in maintenance of facilities used in other power generation, the book cost of which is includible in Account 341, Structures and Improvements, and Account 342, Fuel Holders, Producers and Accessories.

553 Maintenance of generating and electric equipment

This account shall include the cost of labor, materials used and expenses incurred in maintenance of plant, the book cost of which is includible in Account 343, Prime Movers, Account 344, Generators and Account 345, Accessory Electric Equipment.

554 Maintenance of miscellaneous other power generating plant

This account shall include the cost of labor, materials used and expenses incurred in maintenance of other power generation plant, the book cost of which is includible in Account 346, Miscellaneous Power Plant Equipment.

555 Purchased Power

This account shall include the cost at point of receipt by the utility of electricity purchased for resale. It shall include, also, net settlements for exchange of electricity or power.

556 System control and load dispatching

This account shall include the cost of labor and expenses incurred in load dispatching activities for system control.

557 Other expenses

This account shall be charged with any production expenses which are not specifically provided for in other production expense accounts.

560 Operation supervision and engineering

This account shall include the cost of labor and expenses incurred in the general supervision and direction of the

operation of the transmission system as a whole. Direct supervision of specific activities shall be charged to the appropriate account.

561 Load dispatching

This account shall include the cost of labor, materials used and expenses incurred in load dispatching operations pertaining to the transmission of electricity.

562 Station expenses

This account shall include the cost of labor, materials used and expenses incurred in operating transmission substations and switching stations.

563 Overhead line expenses

This account shall include the cost of labor, materials used & expenses incurred in the operation of overhead transmission lines.

564 Underground line expenses

This account shall include the cost of labor, materials used and expenses incurred in the operation of underground transmission lines.

565 Transmission of electricity by other

This account shall include amounts payable to others for the transmission of the utility's electricity over transmission facilities owned by others.

566 Miscellaneous transmission expenses

This account shall include the cost of labor, materials used and expenses incurred in transmission map and record work, transmission office expenses, and other transmission expenses not provided for elsewhere.

567 Rents

This account shall include rents of property of other used, occupied, or operated in connection with the transmission system.

568 Maintenance supervision and engineering

This account shall include the cost of labor and expenses incurred in the general supervision and direction of maintenance of the transmission system. Direct field supervision of specific jobs shall be charged to the appropriate maintenance account.

569 Maintenance of structures

This account shall include the cost of labor, materials used and expenses incurred in the maintenance of structures, the book cost of which is includible in Account 352, Structures and Improvements.

570 Maintenance of station equipment

This account shall include the cost of labor, materials used and expenses incurred in maintenance of station equipment the book cost of which is includible in Account

571 Maintenance of overhead lines

This account shall include the cost of labor, materials used and expenses incurred in maintenance of transmission plant, the book cost of which is includible in Accounts 354, Towers and Fixtures 355, Poles and Fixtures, 356, Overhead Conductors and Devices, 359, Roads and Trails.

572 Maintenance of underground lines

This account shall include the cost of labor, materials used and expenses incurred in maintenance of transmission plant, the book cost of which is includible in accounts 357, Underground Conduit, and 358, Underground Conductors

and Devices

573 Maintenance of miscellaneous transmission plant

This account shall include the cost of labor, materials used and expenses incurred in maintenance of owned or leased plant which is assignable to transmission operations and is not provided for elsewhere

580 Operation supervision and engineering

This account shall include the cost of labor and expenses incurred in the general supervision and direction of the operation of the distribution system. Direct supervision of specific activities shall be charged to the appropriate operation account

581 Load dispatching

This account shall include the cost of labor, materials used and expenses incurred in load dispatching operations pertaining to the distribution of electricity.

582 Station expenses

This account shall include the cost of labor, materials used and expenses incurred in the operation of distribution substations.

583 Overhead line expenses

This account shall include the cost of labor, materials used and expenses incurred in the operation of overhead distribution lines.

584 Underground line expenses

This account shall include the cost of labor, materials used and expenses incurred in the operation of underground distribution lines.

585 Street lighting and signal system expenses

This account shall include the cost of labor, materials used and expense incurred in the operation of street lighting and signal systems.

586 Meter expenses

This account shall include the cost of labor, materials used and expenses incurred in the operation of customer meters and associated equipment.

587 Customer installation expenses

This account shall include the cost of labor, materials used and expenses incurred in the operation of customer meters and associated equipment.

588 Miscellaneous distribution expenses

This account shall include the cost of labor, materials used and expenses incurred in distribution system operation not provided for elsewhere.

589 Rents

This account shall include rents of property used, occupied, or operated in connection with the distribution system.

590 Maintenance supervision and engineering

This account shall include the cost of labor and expenses incurred in the general supervision and direction of maintenance of the distribution system. Direct field supervision of specific jobs shall be charged to the appropriate maintenance account.

591 Maintenance of structures

This account shall include the cost of labor, materials used and expenses incurred in maintenance of structures, the book cost of which is includible in Account 361, Structures and Improvements.

592 Maintenance of station equipment

This account shall include the cost of labor, materials used and expenses incurred in maintenance of plant, the book cost of which is includible in Account 362, Station Equipment.

593 Maintenance of overhead lines

This account shall include the cost of labor, materials used and expenses incurred in the maintenance of overhead distribution line facilities, the book cost of which is includible in Account 364, Poles, Towers, and Fixtures, Account 365, Overhead Conductors and Devices, and Account 369, Services.

594 Maintenance of underground lines

This account shall include the cost of labor, materials used and expenses incurred in the maintenance of underground distribution line facilities, the book cost of which is includible in Account 366, Underground Conduit, Account 367, Underground Conductors and Devices, and Account 369, Services.

595 Maintenance of line transformers

This account shall include the cost of labor, materials used and expenses incurred in maintenance of distribution line transformers, the book cost of which is includible in Account 368, Line Transformers.

596 Maintenance of street lighting and signal system

This account shall include the cost of labor, materials used and expenses incurred in maintenance of plant, the book cost of which is includible in Account 373, Street Lighting and Signal Systems.

597 Maintenance of meters

This account shall include the cost of labor, materials used and expenses incurred in the maintenance of meters and meter testing equipment, the book cost of which is includible in Account 370, Meters, and Account 395, Laboratory Equipment.

598 Maintenance of miscellaneous distribution plant

This account shall include the cost of labor, materials used and expenses incurred in maintenance of plant, the book cost of which is includible in Accounts 371, Installation on Customers' Premises, and any other plant the maintenance of which is assignable to the distribution function and is not provided for elsewhere.

710 Operation supervision and engineering

This account shall include the cost of labor and expenses incurred in the general supervision and direction of the operation of manufactured gas stations. Direct supervision of specific activities shall be charged to the appropriate account.

712 Other power expenses

This account shall include the cost of electricity or other power used in manufactured gas operations.

714 Producer gas expenses

This account shall include the cost of labor used and expenses incurred in making producer gas exclusive of the cost of fuel for producer gas.

717 Liquefied petroleum gas expenses

This account shall include the cost of labor used and expenses incurred in the operation of equipment used for vaporizing petroleum derivatives.

728 Liquefied petroleum gas

This account shall include the cost of liquefied petroleum gas vaporized for mixing with other gases.

735 Miscellaneous production expenses

This account shall include the cost of labor, materials used and expenses incurred in manufacturing gas production operations not includible in any of the foregoing accounts.

736 Rents

This account shall include rents for property used, occupied or operated in connection with manufactured gas production operations.

740 Maintenance supervision and engineering

This account shall include the cost of labor and expenses incurred in the general supervision and direction of maintenance of manufactured gas production facilities. Direct field supervision of specific jobs shall be charged to the appropriate maintenance accounts.

741 Maintenance of structures and improvements

This account shall include the cost of labor, materials used and expenses incurred in the maintenance of structures, the book cost of which is includible in Account 305, Structures and Improvements.

800 Well Head Purchases

This account shall include the cost at well head of natural gas purchased from producers in gas fields or production areas where only the utility's facilities are used in bringing the gas from the well head into the utility's natural gas system.

801 Natural Gas Field Line Purchases

This account shall include the cost, at point of receipt by the utility, of natural gas purchased in gas fields or production areas at points along gathering lines, and at points along the utility's transmission lines within field or production areas.

803 Natural gas transmission lines purchases

This account shall include the cost, at point of receipt by the utility, of natural gas purchased at points along the utility's transmission lines not within gas fields or production areas, excluding purchases at the outlets of products extraction plants includible in account 802.

804 Natural gas city gate purchases

This account shall include the cost, at point of receipt by the utility, of natural gas purchased which is received at the entrance to the distribution system of the utility.

805 Other Gas Purchases

This account shall include the cost, at point of receipt by the utility, of manufactured gas, refinery gas, or any gas other than natural gas, or other than any mixed gas in which the natural gas is an important proportion of the mixture.

806 Exchange gas

This account shall include debits or credits for the cost of gas in unbalanced exchange transactions whereby gas is received from another party in exchange for delivery of gas to such other party and receipt and delivery of such gas is not completed during the accounting period. Contra entries to those in this account shall be made to account 174, Miscellaneous Current and Accrued Assets, for exchange gas receivable and to account 242, Miscellaneous Current and Accrued Liabilities, for exchange gas deliverable. Such entries shall be reversed and appropriate contra entries made to this account when gas is received or delivered in satisfaction of the amounts receivable or deliverable. This accounting is not required for minor transactions.

807 Purchased gas expense

This account shall include expenses incurred directly in connection with the purchase of gas for resale.

808.1 Gas withdrawn from storage (debit)

This account shall include debits or the cost of gas withdrawn from storage during the year.

808.2 Gas delivered to storage (credit)

This account shall include credits for the cost of gas delivered to storage during the year.

810 Gas used for compressor station fuel - Credit

This account shall include concurrent credits for charges which are made to operating expenses for gas consumed for compressor station fuel from the common system gas supply.

812 Gas used for other utility operations - Credit

This account shall include concurrent credits for charges which are made to operating expenses or other accounts of the gas department for gas consumed from the common system supply for operating and utility purposes other than uses for which credits are includible in any of the foregoing accounts. (See account 484, Interdepartmental Sales, for gas supplied to departments other than the gas utility department).

813 Other gas supply expenses

This account shall include the cost of labor, materials used and expenses incurred in connection with gas supply functions not provided for in any of the above accounts, including, in the case of Major companies, research and development expenses.

814 Operation supervision and engineering

This account shall include the cost of labor and expenses incurred in the general supervision and direction of underground storage operations. Direct supervision of specific activities such as turning on and shutting off storage wells, compressor station operations, etc., shall be charged to the appropriate account.

815 Maps and records

This account shall include the cost of labor, materials used and expenses incurred in the preparation and maintenance of storage maps and land records.

816 Wells expenses

This account shall include the cost of labor, materials used and expenses incurred in operating storage gas wells.

817 Lines expense

This account shall include the cost of labor, materials used and expenses incurred in operating underground storage lines.

818 Compressor station expenses

This account shall include the cost of labor, materials used and expenses incurred in operating underground storage compressor stations.

819 Compressor station fuel and power

This account shall include the cost of gas, coal, oil, or other fuel, or electricity, used for the operation of underground storage compressor stations, including applicable amounts fuel stock expenses.

820 Measuring and regulating station expenses

This account shall include the cost of labor, materials used and expenses incurred in operating underground storage measuring and regulating stations.

821 Purification expenses

This account shall include the cost of labor, materials used and expenses incurred in operating equipment used for purifying, dehydrating, and conditioning of natural gas in connection with underground storage operations.

822 Exploration and development

This account shall include expenses of investigation, exploration, and development of underground storage projects under consideration which prove not feasible. There also shall be included in this account the next cost of drilling nonoperative wells within an existing storage project.

823 Gas Losses

This account shall include the amounts of inventory adjustments representing the cost of gas lost or unaccounted for in underground storage operations due to cumulative inaccuracies of gas measurement or other causes.

824 Other expenses

This account shall include the cost of labor, material used and expenses incurred in operating underground storage plant, and other underground storage operating expenses, not includible in any of the foregoing accounts, including research, development, and demonstration expenses.

825 Storage well royalties

This account shall include royalties, rents, and other payments includible in operating expenses for gas wells and gas land acreage located within and comprising underground storage projects of the utility.

826 Rents

This account shall include the rents for property used in connection with the storage of gas underground.

830 Maintenance supervision and engineering

This account shall include the cost of labor and expenses incurred in the general supervision and direction of maintenance of underground storage facilities. Direct field supervision of specific jobs shall be charged to the appropriate maintenance account.

831 Maintenance of structures and improvements

This account shall include the cost of labor, materials used and expenses incurred in the maintenance of structures, the book cost of which is includible in Account 351, Structures and Improvements.

832 Maintenance of reservoirs and wells

This account shall include the cost of labor, materials used and expenses incurred in the maintenance of storage wells and reservoirs, the book cost of which is included in account 352, Wells, and account 352.2 Reservoirs.

833 Maintenance of lines

This account shall include the cost of labor, materials used and expenses incurred in the maintenance of underground storage lines, the book cost of which is includible in account 353, Lines.

834 Maintenance of compressor station equipment

This account shall include the cost of labor, materials used and expenses incurred in the maintenance of equipment, the book cost of which is includible in Account 354, Compressor Station Equipment.

835 Maintenance of measuring & regulating station equipment

This account shall include the cost of labor, materials used and expenses incurred in the maintenance of equipment, the book cost of which is includible in account 355, Measuring and Regulating Equipment.

836 Maintenance of purification equipment

This account shall include the cost of labor, materials used and expenses incurred in the maintenance of purification

equipment, the book cost of which is includible in account 356, Purification Equipment.

837 Maintenance of other equipment

This account shall include the cost of labor, materials used and expenses incurred in the maintenance of equipment, the book cost of which is includible in account 357, Other Equipment.

850 Operation supervision and engineering

This account shall include the cost of labor and expenses incurred in the general supervision and direction of the operation of transmission facilities. Direct supervision of specific activities such as operation of transmission lines, compressor stations, etc. shall be charged to the appropriate account.

851 System control and load dispatching

This account shall include the cost of labor and expenses incurred in dispatching and controlling the supply and flow of gas through the system.

853 Compressor station labor and expenses

This account shall include the cost of labor, materials used and expenses incurred (other than fuel and power) in operating transmission compressor stations.

856 Mains expense

This account shall include the cost of labor, materials used and expenses incurred in operating transmission mains.

857 Measuring and regulating station expenses

This account shall include the cost of labor, materials used and expenses incurred in operating transmission measuring and regulating stations.

859 Other expenses

This account shall include the cost of labor, material used and expenses incurred in operating transmission system equipment and other transmission system expenses not includible in any of the foregoing accounts.

860 Rents

This account shall include rents for property used, occupied or operated in connection with the operation of the transmission system. Use appropriate NEC categories 350-359.

861 Maintenance supervision and engineering

This account shall include the cost of labor and expenses incurred in the general supervision and direction of maintenance of transmission system facilities. Direct field supervision of specific jobs shall be charged to the appropriate maintenance accounts.

862 Maintenance of structures and improvements

This account shall include the cost of labor, materials used and expenses incurred in the maintenance of structures, the book cost of which is includible in account 366, Structures and Improvements.

863 Maintenance of mains

This account shall include the cost of labor, materials used and expenses incurred in the maintenance of mains, the book cost of which is includible in Account 367, Mains.

864 Maintenance of compressor station equipment

This account shall include the cost of labor, materials used and expenses incurred in the maintenance of equipment, the book cost of which is includible in account 368. Compressor Station Equipment.

865 Maintenance of measuring and regulating station equipment

This account shall include the cost of labor, materials used and expenses incurred in the maintenance of equipment, the book cost of which is includible in Account 369, Measuring and Regulating Station Equipment.

867 Maintenance of other equipment

This account shall include the cost of labor, materials used and expenses incurred in the maintenance of equipment, the book cost of which is includible in account 371, Other Equipment.

870 Operation supervision and engineering

This account shall include the cost of labor and expenses incurred in the general supervision and direction of distribution system operations. Direct supervision of specific activities shall be charged to the appropriate operation account.

871 Distribution load dispatching

This account shall include the cost of labor, materials used and expenses incurred in dispatching and controlling the supply and flow of gas throughout the distribution system.

874 Mains and services expenses

This account shall include the cost of labor, materials used and expenses incurred in operating distribution system mains and services.

875 Measuring and regulating station expenses - general

This account shall include the cost of labor, materials used and expenses incurred in operating general distribution measuring and regulating stations.

876 Measuring and regulating station expenses - industrial

This account shall include the cost of labor, materials used and expenses incurred in operating large measuring and regulating stations located on local distribution systems to service specific commercial and industrial customers.

877 Measuring and regulating station expenses - city gate check stations

This account shall include the cost of labor, materials used and expenses incurred in operating measuring and regulating stations used to measure and regulate the receipt of gas at entry points to distribution systems.

878 Meters and house regulator expenses

This account shall include the cost of labor, materials used and expenses incurred in connection with removing, resetting, changing, testing and servicing customer meters and house regulators.

879 Customer installations expenses

This account shall include the cost of labor, materials used and expenses incurred in work on customer premises.

880 Other expenses

This account shall include the cost of distribution maps and records, distribution office expenses and the cost of labor materials used and expenses incurred in distribution systems operations not provided for elsewhere.

881 Rents

This account shall include rents for property used, occupied or operated in connection with the operation of the distribution system.

885 Maintenance supervision and engineering

This account shall include the cost of labor and expenses incurred in the general supervision and direction of maintenance of distribution system facilities. Direct field supervision of specific jobs shall be charged to the appropriate maintenance accounts.

886 Maintenance of structures and improvements

This account shall include the cost of labor, materials used and expenses incurred in the maintenance of structures, the book cost of which is includible in Account 375, Structures and Improvements.

887 Maintenance of mains

This account shall include the cost of labor, materials used and expenses incurred in the maintenance of distribution mains, the book cost of which is includible in Account 376, Mains.

889 Maintenance of measuring and regulating station equipment - general

This account shall include the cost of labor, materials used and expenses incurred in the maintenance of equipment, the book cost of which is includible in Account 378, Measuring and Regulating Station Equipment.

890 Maintenance of measuring and regulating station equipment - industrial

This account shall include the cost of labor, materials used and expenses incurred in the maintenance of equipment, the book cost of which is includible in Account 385, Industrial Measuring and Regulating Station Equipment.

891 Maintenance of measuring and regulation station equipment - City gate check stations

This account shall include the cost of labor, materials used and expenses incurred in the maintenance of equipment, the book cost of which is includible in account 379, Measuring and Regulating Station Equipment.

892 Maintenance of services

This account shall include the cost of labor, materials used and expenses incurred in the maintenance of services, the book cost of which is includible in Account 380, Services.

893 Maintenance of meters and house regulators

This account shall include the cost of labor, materials used and expenses incurred in the maintenance of meters and house regulators, the book cost of which is includible in Accounts 381, Meters and 383, House Regulators.

894 Maintenance of other equipment

This account shall include the cost of labor, materials used and expenses incurred in the maintenance of street lighting equipment and all other distribution system equipment not provided for elsewhere, the book cost of which is includible in Accounts 386, Other Property on Customers' Premises, and 387, Other Equipment.

901 Supervision

This account shall include the cost of labor and expenses incurred in the general direction and supervision of customer accounting and collecting activities. Direct supervision of a specific activity shall be charged to the appropriate operation account.

902 Meter reading expenses

This account shall include the cost of labor, materials used and expenses incurred in reading customer meters.

903 Customer records and collection expenses

This account shall include the cost of labor, materials used and expenses incurred in work on customer applications, contracts, orders, credit investigations, billing and accounting, collections and complaints.

904 Uncollectible accounts

This account shall be charged with amounts sufficient to provide for losses from uncollectible utility revenues.

905 Miscellaneous customer accounts expenses

This account shall include the cost of labor, materials used and expenses incurred not provided for in other accounts.

907 Supervision

This account shall include the cost of labor and expenses incurred in the general direction and supervision of customer service activities, the object of which is to encourage safe, efficient and economical use of the utility's service. Direct supervision of a specific activity shall be charged to the appropriate operations account.

908 Customer assistance expenses

This account shall include the cost of labor, materials used and expenses incurred in providing instructions or assistance to customers, the object of which is to encourage safe, efficient and economical use of the utility's service.

909 Informational and instructional advertising expenses

This account shall include the cost of labor, materials used and expenses incurred in activities which primarily convey information as to what the utility urges or suggests customers should do in utilizing electric service to protect health and safety, to encourage environmental protection, to utilize their electric equipment safely and economically, or to conserve electric energy.

910 Miscellaneous customer service and informational expenses

This account shall include the cost of labor, materials used and expenses incurred in connection with customer service and informational activities which are not includible in other customer information expense accounts.

911 Supervision

This account shall include the cost of labor and expenses incurred in the general direction and supervision of sales activities. Direct supervision of a specific activity shall be charged to the appropriate operation account.

912 Demonstration and selling expenses

This account shall include the cost of labor, materials used and expenses incurred in promotional, demonstrating, and selling activities, the object of which is to promote or retain the use of utility service by present and prospective customers.

913 Advertising expenses

This account shall include the cost of labor, materials used and expenses incurred in advertising designed to promote or retain the use of utility service.

916 Miscellaneous sales expenses

This account shall include the cost of labor, materials used and expenses incurred in connection with sales activities which are not includible in other sales expense accounts.

920 Administrative and general salaries

This account shall include the compensation of officers, executives and other employees of the utility properly chargeable to utility operations and not chargeable directly to a particular operating function.

921 Office supplies and expenses

This account shall include the office supplies and expenses incurred in connection with the general administration of the utility's operations which are assignable to specific administrative or general departments and are not specifically provided for in other accounts.

922 Communication

This account shall be credited with administrative expenses recorded in Accounts 920 and 921 which are transferred to construction costs.

923 Outside services employed

This account shall include the fees and expenses of professional consultants and others for general services which are not applicable to a particular operating function or to other accounts.

924 Property insurance

This account shall include the cost of insurance or reserve accruals to protect the utility against losses and damages to owned or leased property used in its utility operations. It shall include also the cost of labor and related supplies and expenses incurred in property insurance activities.

925 Injuries and damages

This account shall include the cost of insurance or reserve accruals to protect the utility against injuries and damages claims of employees or others and expenses incurred in settlement of injuries and damages claims. It shall also include the cost of labor and related supplies and expenses incurred in injuries and damages activities.

926 Employee pensions and benefits

This account shall include pensions and benefits paid to or on behalf of retired employees or accruals to provide for pensions and benefits. Also, expenses incurred in medical, educational or recreational activities for the benefit of employees and retirees. Also, administrative expenses in connection with employee pensions and benefits.

927 Franchise requirements

This account shall include payments and the cost of materials, supplies and services furnished without reimbursement in compliance with franchise, ordinance or similar requirements.

928 Regulatory commission expenses

This account shall include all expenses incurred by the utility in connection with formal cases before regulatory commissions including payments made to a regulatory commission for fees assessed against the utility for pay and expenses of such commissions.

929 Duplicate charges - credit

This account shall include concurrent credits for charges which may be made to operating expenses or to other accounts for the use of utility service from its own supply.

930.1 General advertising expense

This account shall include the cost of labor, materials used and expenses incurred in advertising and related activities, the cost of which by their content and purpose are not provided for elsewhere.

930.2 Miscellaneous general expenses

This account shall include the cost of labor and expenses incurred in connection with the general management of the utility not provided for elsewhere.

931 Rents

This account shall include rents for the property used, occupied or operated in connection with the customer accounts, customer service and informational, sales and general and administrative functions of the utility.

935 Maintenance of general plant

This account shall include the cost of labor, materials used and expenses incurred in the maintenance of property, the book cost of which is includible in Account 390, Structures and improvements, Account 391, Office Furniture and Equipment, Account 397, Communication Equipment, and Account 398, Miscellaneous Equipment.
