- **Senior Sales Manager:** Broker electricity and natural gas to commercial customers in deregulated states. Our customer base consists of REIT and property management companies, medical facilities, retirement communities, hotels, office buildings, restaurants and municipalities. As brokers we fulfill our customer's energy needs by procuring electricity and natural gas through third party energy supply companies. Other responsibilities include overseeing a team of Account Managers. I review all incoming customer information before releasing to operations. I Review RFP's before distribution to suppliers and review supplier indicative and executable pricing before proposal and/or contract generation. On top of setting sales goals and constantly networking for customer referrals and suitable Account Manager and Channel Partnership candidates, other daily tasks include generating and maintaining a pipeline of prospective customers and referrals that are released to Account Managers as needed, travel with and provide all needed support for Account Managers to ensure individual and company success.
