

Using the Database Extraction Tool in ERSI's BusinessMap software, the outages with their associated maximum wind speed gusts were extracted. The following tables were created and can be found in Attachments 1 through 5.

- A. **Attachment A: Table 1 Outages with 80 mph or higher winds**
- B. **Attachment B: Table 2 Outages with 70 to 79 mph winds**
- C. **Attachment C: Table 3 Outages with 60 to 69 mph winds**
- D. **Attachment D: Table 4 Outages with 50 to 59 mph winds**
- E. **Attachment E: Table 5 Outages with 40 to 49 mph winds**
- F. **Attachment F: Table 6 Outages where the wind speed and time were indeterminable**

Conclusions and Opinions:

In response to Staff witness Mr. Greg Rockrohr's testimony that ComEd provide a direct link between certain wind related outages and the wind speeds that occurred during the July 27-29, 2011 severe weather events, this report provides additional detail and analysis to link the outages with the maximum wind speed occurrences.

It is my opinion that the wind speeds and times associated with the interruptions in the attached tables are accurate within a reasonable degree of meteorological certainty based on my analysis of the measured wind speeds, estimated wind speeds, damage reports, both the NEXRAD base reflectivity and base velocity images, and using sound meteorological principles.

Supplementation of Facts and Opinions:

The facts and opinions I have stated in the above report are subject to supplementation and/or revision if additional information becomes available to me.

Respectfully Submitted,

Thomas R. Piazza, CCM
Certified Consulting Meteorologist Certificate #661
President
Murray and Trettel, Inc

Appendix A

Data, Maps and Information

- Storm Events Reports from the National Climatic Data Center for July 27, 28 and 29, 2011
- Surface Weather observations for various weather stations in Illinois for July 27,28 and 29, 2011
- BusinessMap 4 software maps
- NEXRAD Radar images and products from the national Climatic Data Center for KLOT, Romeoville, IL and KDVN, Davenport, IA
- Attachments A, B, C, D, E, F
- Outage reports courtesy ComEd
