STATE OF ILLINOIS

ILLINOIS COMMERCE COMMISSION

Commonwealth Edison Company :
: **07-0566**
Proposed general increase in electric rates. :
(Tariffs filed October 17, 2007). :

AMENDATORY ORDER

By the Commission:

On September 10, 2008, the Commission entered an Order granting a rate increase to Commonwealth Edison Company ("Company"). The Order entered by the Commission inadvertently states in three places that ComEd's cost of long term debt is 6.74% rather than the 6.78% approved by the Commission. Also, the Order failed to state that the costs of the Phase 0 AMI workshops, including the third party facilitator, may be capitalized and recovered through the system modernization rider on amortized basis.

Language should be inserted to clarify that renegotiation of the railroad customer contracts will not violate Section 452.230 of the Commission's rules for Integrated Distribution Companies. Accordingly, the following language should be inserted at page 225 of the Order:

As the Commission noted in its Order in Docket 05-0597, at page 188, we expect ComEd to negotiate updated contracts with the railroad class for the delivery of power. We are aware that ComEd operates, under Subpart B of Part 452 of our Rules (83 Ill. Admin. Code, Part 452), as an Integrated Distribution Company and renegotiation of these contracts pursuant to our direction in Order will not violate those rules.

With respect to ComEd's pension contribution issue, ComEd requested that language be inserted into the order summarizing the history of this issue for the Appellate Court. The Commission directs that the following language be inserted into the Order, as an uncontested issue, in the discussion of rate base on page 15:

IV. B. 5. \$803 Million Pension Contribution

In accordance with our Order in Docket 05-0597, ComEd did not include the \$803 million pension contribution in rate base and instead, included an annual debt return on the pension

contribution of 4.75%. In this proceeding, ComEd did not re-litigate the merits of including the pension contribution in rate base. However, ComEd has appealed the Commission's decision in Docket 05-0597. If the appellate court sustains ComEd's position, ComEd has preserved this issue for appeal purposes in this case.

Wherefore, the Commission concludes that the Order entered on September 10, 2008 should be amended as outlined above.

IT IS THEREFORE ORDERED that the Order entered by the Commission on September 10, 2008 is amended as noted herein. In all other respects, the Order remains the same and in full force and effect.

IT IS FURTHER ORDERED that subject to the provisions of Section 10-113 of the Public Utilities Act and 83 Ill. Adm. Code 200.880, this Order is final; it is not subject to the Administrative Review Law.

By Order of the Commission this 3rd day of November, 2008.

(SIGNED) CHARLES E. BOX

Chairman
