
INTEROFFICE MEMORANDUM

TO: JOHN ALBERS, ADMINISTRATIVE LAW JUDGE
FROM: DOUG SCOTT, CHAIRMAN
SUBJECT: ADDITIONAL QUESTION FOR APPLICANT IN DOCKET NO. 12-0364
DATE: 8/27/2012

As a follow-up to my questions of 8/10/2012, I have an additional question for the applicant in Docket No. 12-0364:

To meet Part 454's technical licensing qualifications requirement, the applicant references the qualifications of its "Primary Energy Consultant" Mark Nakayama. Mr. Nakayama is also referenced to meet the technical qualifications requirement for Navigant Energy LLC (Docket No. 12-0427, since withdrawn) and for JFN Consulting (Docket No. 12-0340). In all three dockets, Mr. Nakayama's most recent work history is listed as follows:

Experience

***Global Energy Partners, LLC, Arlington Heights, Illinois August 2009-Present,
Partner and Director of Sales***

A quick perusal of the internet identifies Global Energy Partners, LLC as a California-based firm with additional offices in Oregon, Wisconsin, Missouri, and Colorado (http://www.gepllc.com/00contact_us.asp).

What services has Mr. Nakayama provided for this firm, and what are his current responsibilities with Global Energy Partners, LLC? Please provide detail about his employment by and responsibilities with Global Energy Partners, LLC, including references and contacts within the company who could both verify his employment with Global Energy Partners, LLC and his responsibilities as one of its partners and its Director of Sales.

As with my prior questions, my expectation is that the applicant's responses will be thorough, detailed, truthful, and accompanied by a sworn verification.
