Commercial Utility Consultants, Inc. (CUC) has been in business since 1975. CUC has been able to leverage our customer base into a very successful procurement model for our clients. CUC has procured over 1 billion kWh's for our client base. We are experts in electric deregulation.

Our technical team overlaps somewhat with our managerial team. CUC is a small consulting firm with a lot of expertise. Many of our analysts are former employees of local utility providers in the Philadelphia area such as PECO Energy, PPL Electric and Philadelphia Gas Works. We are experts in electric deregulation but we are really expert in every aspect of commercial utilities in general.

Following please find thumbnail biographies of several members of CUC. We have included full resumes' for two of our most skilled people, Carl Chegwidden and Hubert Mahon. After 37 years in business, Commercial Utility Consultants, Inc. is very knowledgeable, professional and most importantly, an honest and upstanding utility consulting firm.

CUC wants to bring our winning formula to Illinois to save money for Illinois businesses and residents. CUC hopes to be financially successful in Illinois by saving money for Illini on their electric bills. CUC is wholly compensated by our suppliers and never charges our clients for our electric deregulation procurement services.
