Phase III Affected Landowner Open House Invitation

You're invited to a public Open House.

Your property may be affected.

Ameren Transmission Company of Illinois (ATXI) will host a series of public open houses to inform and seek input from the public regarding the Illinois Rivers Project. We want to hear from you!

ATXI proposes to construct new 345 kilovolt transmission lines that will interconnect Missouri, Illinois and Indiana. The project, known as the Illinois Rivers Project, is part of a portfolio of Multi-Value Projects (MVPs) that has been approved by the Midwest ISO, a regional transmission organization.

The Illinois Rivers Project will be routed from a new substation near Palmyra, Missouri, across the Mississippi River to Quincy, Illinois and continuing east across Illinois to Meredosia, Pawnee, Pana, Mt. Zion, and Kansas, then across the Indiana border to Sugar Creek. The project includes two additional segments from Meredosia to Ipava and Sidney to Rising. Ten substations will be built or expanded, including nine in Illinois, in addition to other facility modifications.

At this series of public open houses, we will discuss in more detail primary and alternate routes that have been identified for the project. ***Your property is located along a proposed route.***
