RE: Illinois Rivers Project  
Adams County, Illinois  
Notice of Public Meeting  
Location Change

Dear Ms. Volm:

In accordance with 220 ILCS 5/8-406.1, Ameren Transmission Company of Illinois hereby provides notice to the Adams County Clerk of a public meeting to be conducted on May 23, 2012 for the Illinois Rivers Project. A copy of the meeting ad that will be published in the Quincy Herald-Whig on May 2, 9, and 16, 2012, is also enclosed.

Ameren Transmission Company of Illinois (ATXI) proposes to construct new 345 kilovolt transmission lines that will interconnect Missouri, Illinois and Indiana. The Illinois Rivers Project will be routed from a new substation near Palmyra, Missouri, across the Mississippi River to Quincy, Illinois and continuing east across Illinois to Meredosia, Pawnee, Pana, Mt. Zion, and Kansas, then across the Indiana border to Sugar Creek. The project includes two additional segments from Meredosia to Ipava and Sidney to Rising. Ten substations will be built or expanded, including nine in Illinois, in addition to other facility modifications.

In conjunction with participating entities, the Midwest Independent System Operator, a regional transmission organization, launched a regional transmission planning process. As a part of this process, essential electric transmission projects or Multi-Value Projects (MVPs) were identified. The MVPs, including the Illinois Rivers Project, will facilitate the delivery of renewable energy, improve reliability, and provide economic and efficiency benefits. The projects also provide additional transmission capacity, local reliability benefits and local area voltage support for areas where generation facilities have, or are scheduled to be, shut down due to market conditions or environmental regulations. The Illinois Rivers Project is directly aligned with Ameren's strategic goals of providing our customers with reliable, efficient and environmentally responsible energy.

For additional project information, please visit the Project website at [www.ilriverstransmission.com](http://www.ilriverstransmission.com), or call our project hotline at (800) 229-9280. Additionally, should you have any questions, please do not hesitate to contact me at [lmorris@ameren.com](mailto:lmorris@ameren.com) or (217) 535-5228. Thank you in advance for your time and consideration.

Sincerely,

Leigh Morris

RE: Illinois Rivers Project  
Christian County, Illinois  
Notice of Public Meeting

Dear Ms. Curtin:

In accordance with 220 ILCS 5/8-406.1, Ameren Transmission Company of Illinois hereby provides notice to the Christian County Clerk of public meetings to be conducted on October 1, 2012 and October 2, 2012 for the Illinois Rivers Project. A copy of the meeting ad that will be published in the Breeze-Courier on September 10, September 17 and September 24, 2012, for the October 1, 2012 meeting is enclosed. A copy of the meeting ad that will be published in the Breeze-Courier on September 11, September 18 and September 25, 2012, as well as the Pana-News Palladium on September 10, September 17 and September 24, 2012 for the October 2, 2012, meeting is also enclosed. The final ad will be modified to include a map of proposed routes.

Ameren Transmission Company of Illinois (ATXI) proposes to construct new 345 kilovolt transmission lines that will interconnect Missouri, Illinois and Indiana. The project, known as the Illinois Rivers Project, is part of a portfolio of Multi-Value Projects (MVPs) that has been approved by the Midwest ISO, a regional transmission organization.

The Illinois Rivers Project will be routed from a new substation near Palmyra, Missouri, across the Mississippi River to Quincy, Illinois and continuing east across Illinois to Meredosia, Pawnee, Pana, Mt. Zion, and Kansas, then across the Indiana border to Sugar Creek. The project includes two additional segments from Meredosia to Ipava and Sidney to Rising. Ten substations will be built or expanded, including nine in Illinois, in addition to other facility modifications.

For additional project information, please visit the project website at [www.ilriverstransmission.com](http://www.ilriverstransmission.com), or call our project hotline at (800) 229-9280. Marshall, IL 62441

RE: Illinois Rivers Project  
Clark County, Illinois  
Notice of Public Meeting

Dear Mr. Downey:

In accordance with 220 ILCS 5/8-406.1, Ameren Transmission Company of Illinois hereby provides notice to the Clark County Clerk of public meetings to be conducted on May 30, 2012 for the Illinois Rivers Project. A copy of the meeting ad that will be published in the Marshall Advocate on May 8, May 15, and May 25, 2012, is also enclosed.

Ameren Transmission Company of Illinois (ATXI) proposes to construct new 345 kilovolt transmission lines that will interconnect Missouri, Illinois and Indiana. The Illinois Rivers Project will be routed from a new substation near Palmyra, Missouri, across the Mississippi River to Quincy, Illinois and continuing east across Illinois to Meredosia, Pawnee, Pana, Mt. Zion, and Kansas, then across the Indiana border to Sugar Creek. The project includes two additional segments from Meredosia to Ipava and Sidney to Rising. Ten substations will be built or expanded, including nine in Illinois, in addition to other facility modifications.

In conjunction with participating entities, the Midwest Independent System Operator, a regional transmission organization, launched a regional transmission planning process. As a part of this process, essential electric transmission projects or Multi-Value Projects (MVPs) were identified. The MVPs, including the Illinois Rivers Project, will facilitate the delivery of renewable energy, improve reliability, and provide economic and efficiency benefits. The projects also provide additional transmission capacity, local reliability benefits and local area voltage support for areas where generation facilities have, or are scheduled to be, shut down due to market conditions or environmental regulations. The Illinois Rivers Project is directly aligned with Ameren's strategic goals of providing our customers with reliable, efficient and environmentally responsible energy.

For additional project information, please visit the Project website at [www.ilriverstransmission.com](http://www.ilriverstransmission.com), or call our project hotline at (800) 229-9280. Additionally, should you have any questions, please do not hesitate to contact me at [lmorris@ameren.com](mailto:lmorris@ameren.com) or (217) 535-5228. Thank you in advance for your time and consideration.

In accordance with 220 ILCS 5/8-406.1, Ameren Transmission Company of Illinois hereby provides notice to the Fulton County Clerk of a public meeting to be conducted on July 17, 2012 for the Illinois Rivers Project. A copy of the meeting ad that will be published in the Canton Daily Ledger on June 26, July 3 and July 10, 2012, is also enclosed.

Ameren Transmission Company of Illinois (ATXI) proposes to construct new 345 kilovolt transmission lines that will interconnect Missouri, Illinois and Indiana. The project, known as the Illinois Rivers Project, is part of a portfolio of Multi-Value Projects (MVPs) that has been approved by the Midwest ISO, a regional transmission organization.

The Illinois Rivers Project will be routed from a new substation near Palmyra, Missouri, across the Mississippi River to Quincy, Illinois and continuing east across Illinois to Meredosia, Pawnee, Pana, Mt. Zion, and Kansas, then across the Indiana border to Sugar Creek. The project includes two additional segments from Meredosia to Ipava and Sidney to Rising. Ten substations will be built or expanded, including nine in Illinois, in addition to other facility modifications.

For additional project information, please visit the project website at [www.ilriverstransmission.com](http://www.ilriverstransmission.com), or call our project hotline at (800) 229-9280. Additionally, should you have any questions, please do not hesitate to contact me at [lmorris@ameren.com](mailto:lmorris@ameren.com) or (217) 535-5228. Thank you in advance for your time and consideration.

Sincerely,

Leigh Morris

RE: Illinois Rivers Project  
Macon County, Illinois  
Notice of Public Meeting

Dear Mr. Bean:

In accordance with 220 ILCS 5/8-406.1, Ameren Transmission Company of Illinois hereby provides notice to the Macon County Clerk of a public meeting to be conducted on May 25, 2012 for the Illinois Rivers Project. A copy of the meeting ad that will be published in the Herald and Review on May 4, May 11, and May 19, 2012, is also enclosed.

Ameren Transmission Company of Illinois (ATXI) proposes to construct new 345 kilovolt transmission lines that will interconnect Missouri, Illinois and Indiana. The Illinois Rivers Project will be routed from a new substation near Palmyra, Missouri, across the Mississippi River to Quincy, Illinois and continuing east across Illinois to Meredosia, Pawnee, Pana, Mt. Zion, and Kansas, then across the Indiana border to Sugar Creek. The project includes two additional segments from Meredosia to Ipava and Sidney to Rising. Ten substations will be built or expanded, including nine in Illinois, in addition to other facility modifications.

In conjunction with participating entities, the Midwest Independent System Operator, a regional transmission organization, launched a regional transmission planning process. As a part of this process, essential electric transmission projects or Multi-Value Projects (MVPs) were identified. The MVPs, including the Illinois Rivers Project, will facilitate the delivery of renewable energy, improve reliability, and provide economic and efficiency benefits. The projects also provide additional transmission capacity, local reliability benefits and local area voltage support for areas where generation facilities have, or are scheduled to be, shut down due to market conditions or environmental regulations. The Illinois Rivers Project is directly aligned with Ameren's strategic goals of providing our customers with reliable, efficient and environmentally responsible energy.

For additional project information, please visit the Project website at [www.ilriverstransmission.com](http://www.ilriverstransmission.com), or call our project hotline at (800) 229-9280. Additionally, should you have any questions, please do not hesitate to contact me at [lmorris@ameren.com](mailto:lmorris@ameren.com) or (217) 535-5228. RE: Illinois Rivers Project  
Moultrie County, Illinois  
Notice of Public Meeting

Dear Ms. England:

In accordance with 220 ILCS 5/8-406.1, Ameren Transmission Company of Illinois hereby provides notice to the Moultrie County Clerk of a public meeting to be conducted on October 3, 2012 for the Illinois Rivers Project. A copy of the meeting ad that will be published in the Moultrie County News-Progress on September 12, September 19 and September 26, 2012, is also enclosed. The final ad will be modified to include a map of proposed routes.

Ameren Transmission Company of Illinois (ATXI) proposes to construct new 345 kilovolt transmission lines that will interconnect Missouri, Illinois and Indiana. The project, known as the Illinois Rivers Project, is part of a portfolio of Multi-Value Projects (MVPs) that has been approved by the Midwest ISO, a regional transmission organization.

The Illinois Rivers Project will be routed from a new substation near Palmyra, Missouri, across the Mississippi River to Quincy, Illinois and continuing east across Illinois to Meredosia, Pawnee, Pana, Mt. Zion, and Kansas, then across the Indiana border to Sugar Creek. The project includes two additional segments from Meredosia to Ipava and Sidney to Rising. Ten substations will be built or expanded, including nine in Illinois, in addition to other facility modifications.

For additional project information, please visit the project website at [www.ilriverstransmission.com](http://www.ilriverstransmission.com), or call our project hotline at (800) 229-9280. Additionally, should you have any questions, please do not hesitate to contact me at [lmorris@ameren.com](mailto:lmorris@ameren.com) or (217) 535-5228. Thank you in advance for your time and consideration.

RE: Illinois Rivers Project  
Piatt County, Illinois  
Notice of Public Meeting

Dear Ms. Kidd:

In accordance with 220 ILCS 5/8-406.1, Ameren Transmission Company of Illinois hereby provides notice to the Piatt County Clerk of a public meeting to be conducted on May 24, 2012 for the Illinois Rivers Project. A copy of the meeting ad that will be published in the Piatt County Journal-Republican on May 2, May 9, and May 16, 2012 is also enclosed.

Ameren Transmission Company of Illinois (ATXI) proposes to construct new 345 kilovolt transmission lines that will interconnect Missouri, Illinois and Indiana. The Illinois Rivers Project will be routed from a new substation near Palmyra, Missouri, across the Mississippi River to Quincy, Illinois and continuing east across Illinois to Meredosia, Pawnee, Pana, Mt. Zion, and Kansas, then across the Indiana border to Sugar Creek. The project includes two additional segments from Meredosia to Ipava and Sidney to Rising. Ten substations will be built or expanded, including nine in Illinois, in addition to other facility modifications.

In conjunction with participating entities, the Midwest Independent System Operator, a regional transmission organization, launched a regional transmission planning process. As a part of this process, essential electric transmission projects or Multi-Value Projects (MVPs) were identified. The MVPs, including the Illinois Rivers Project, will facilitate the delivery of renewable energy, improve reliability, and provide economic and efficiency benefits. The projects also provide additional transmission capacity, local reliability benefits and local area voltage support for areas where generation facilities have, or are scheduled to be, shut down due to market conditions or environmental regulations. The Illinois Rivers Project is directly aligned with Ameren's strategic goals of providing our customers with reliable, efficient and environmentally responsible energy.

For additional project information, please visit the Project website at [www.ilriverstransmission.com](http://www.ilriverstransmission.com), or call our project hotline at (800) 229-9280. Additionally, should you have any questions, please do not hesitate to contact me at [lmorris@ameren.com](mailto:lmorris@ameren.com) or (217) 535-5228. A copy of the meeting ad that will be published in the Scott County Times on June 28, July 5 and July 12, 2012, is also enclosed.

Ameren Transmission Company of Illinois (ATXI) proposes to construct new 345 kilovolt transmission lines that will interconnect Missouri, Illinois and Indiana. The project, known as the Illinois Rivers Project, is part of a portfolio of Multi-Value Projects (MVPs) that has been approved by the Midwest ISO, a regional transmission organization.

The Illinois Rivers Project will be routed from a new substation near Palmyra, Missouri, across the Mississippi River to Quincy, Illinois and continuing east across Illinois to Meredosia, Pawnee, Pana, Mt. Zion, and Kansas, then across the Indiana border to Sugar Creek. The project includes two additional segments from Meredosia to Ipava and Sidney to Rising. Ten substations will be built or expanded, including nine in Illinois, in addition to other facility modifications.

For additional project information, please visit the project website at [www.ilriverstransmission.com](http://www.ilriverstransmission.com), or call our project hotline at (800) 229-9280. Additionally, should you have any questions, please do not hesitate to contact me at [lmorris@ameren.com](mailto:lmorris@ameren.com) or (217) 535-5228. Thank you in advance for your time and consideration.

Sincerely,

Leigh Morris

RE: Illinois Rivers Project  
Scott County, Illinois  
Notice of Public Meeting

Dear Ms. Evans:

In accordance with 220 ILCS 5/8-406.1, Ameren Transmission Company of Illinois hereby provides notice to the Scott County Clerk of public meetings to be conducted on September 27th and October 11th, 2012 for the Illinois Rivers Project. A copy of the meeting ad that will be published in the Scott County Times on September 5th, September 12th, September 19th, September 26th and October 3rd, 2012 is also enclosed. The final ad will be modified to include a map of proposed routes.

RE: Illinois Rivers Project  
Shelby County, Illinois  
Notice of Public Meeting  
Change in Date

Dear Ms. Lantz:

In accordance with 220 ILCS 5/8-406.1, Ameren Transmission Company of Illinois hereby provides notice to the Shelby County Clerk of a public meeting to be conducted on June 5, 2012 for the Illinois Rivers Project. A copy of the meeting ad that will be published in the Shelbyville Daily Union on May 8, May 15, May 22, and May 29, 2012 is also enclosed.

Ameren Transmission Company of Illinois (ATXI) proposes to construct new 345 kilovolt transmission lines that will interconnect Missouri, Illinois and Indiana. The Illinois Rivers Project will be routed from a new substation near Palmyra, Missouri, across the Mississippi River to Quincy, Illinois and continuing east across Illinois to Meredosia, Pawnee, Pana, Mt. Zion, and Kansas, then across the Indiana border to Sugar Creek. The project includes two additional segments from Meredosia to Ipava and Sidney to Rising. Ten substations will be built or expanded, including nine in Illinois, in addition to other facility modifications.

In conjunction with participating entities, the Midwest Independent System Operator, a regional transmission organization, launched a regional transmission planning process. As a part of this process, essential electric transmission projects or Multi-Value Projects (MVPs) were identified. The MVPs, including the Illinois Rivers Project, will facilitate the delivery of renewable energy, improve reliability, and provide economic and efficiency benefits. The projects also provide additional transmission capacity, local reliability benefits and local area voltage support for areas where generation facilities have, or are scheduled to be, shut down due to market conditions or environmental regulations. The Illinois Rivers Project is directly aligned with Ameren's strategic goals of providing our customers with reliable, efficient and environmentally responsible energy.

For additional project information, please visit the Project website at [www.ilriverstransmission.com](http://www.ilriverstransmission.com), or call our project hotline at (800) 229-9280. Additionally, should you have any questions, please do not hesitate to contact me at [lmorris@ameren.com](mailto:lmorris@ameren.com) or (217) 535-5228. Thank you in advance for your time and consideration.
